### Can you Afford to Smoke?

Why of course—what does the cost of two or three cigars a day amount to? But their cost, if invested in an Imperial Life policy, might mean the difference between poverty and comfort for your family after your death.

Think of it—a quarter a day—for a man between 25 and 30 will maintain approximately \$4,000 of life

And the \$4,000 in cash will be there for your wife and family immediately, if you own an Imperial policy, and your call should come suddenly.

You can afford to smoke, sure! But you can also afford an Imperial Home Protection policy to protect your wife and little ones. Ask for full particulars to-day. Address

# SHERIFF WILSON TO

JOHN FRODSHAM,

There has been much interest locally in the question whether the new govern-ment would remove Sheriff Wilson from office. It is understood that there is no such intention, as there has been no such intention, as there has been no charge of partisanship against him, and he has been an excellent official. The report that he had named a grossly partisan jury in a notable case some time ago is wholly untrue. That jury was named by another official and the Sheriff had nothing to do with it. The government it is understood feels that to ernment, it is understood, feels that to would be to introduce the spoils system in a most objectionable manner, in vio-

lation of the principles proclaimed by them while in opposition.
