Mount Clemens, Mich., Jan. 12.—Lloyd Prevost was arraigned in the police court here on Saturday on a charge of murdering J. Stanley Brown, son of a former Detroit millionaire manufacturer, who was shot to death Dec. 25. Prevost demanded an examination, which was set for Jan. 23.

Special Prosecutor Nunnally announced that secret investigation had brought out "further important evidence." Its nature was not disclosed beyond the statement that officers believe the movements of Brown on the night of his death have been clearly established.

A DANGER SIGNAL—TENDER AND BLEEDING GUMS

Healthy teeth cannot live in diseased tissue. Gums tainted with Pyorrhea are dangerously diseased. For not only the teeth are affected, but Pyorrhea germs seep into the body, lower its vitality and cause many ills. Pyorrhea begins with tender and bleeding gums. Then the gums recede, the teeth decay, loosen and fall out, or must be extracted to rid the system of the poisonous germs that breed in pockets about them. Four out of five people over forty have this disease. But you need not have it. Visit your dentist often for tooth and gum inspection. And keep Pyorrhea away by using Forhan's For The Gums. Forhan's For The Gums will prevent Pyorrhea—or check its progress—if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy, the teeth white and clean. If you have tender or bleeding gums, start using it today. If gum-shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment. 35c and 60c tubes in Canada and U. S. If your druggist cannot supply you send to us direct and we will mail tube postpaid.
