

I regret to say that no material progress has been made in regard to that portion of my last year's report, which deals with the Institute of C. E. recognising the College as a School of Engineering.

It is a matter of great gratification to us all to know that the British East African Co., has applied to the Commandant of the College for graduates to enter their service.

The financial condition of the Club is very good, and a comfortable balance remains to us after deducting the usual expenses of the year, as the following statement shows:—

Amount handed over from 1889..	\$107 96
Amount of subscriptions received .	54 00
Interest.....	4 92
	<hr/>
	\$166 88
Amount expended 1890.....	39 00
	<hr/>
Balance on hand.....	\$127 88

I wish again to draw attention to the dilatory manner in which the fees are paid, and to request that each and every member will make a point of paying up promptly, not only their arrears, but also their annual subscription; and also that members generally will make a point of answering all circulars, &c., sent them. The thanks of the Club are due to the Officers for their careful attention to all business affecting the welfare and interest of the Club generally.

FRED W. WHITE,

Secy.-Treas., R. M. C. C.

OTTAWA, Jan. 23rd, 1891.
