SEALING SCHOONERS ON WEST COAST

Pescawha Sent 220 Skins to This Port and Capt. Voss Had 200

Steamer Tees, which arrived from the West Coast on Wednesday, brought word that the schooner Pescawha had arrived at Winter Harbor with 220 skins. She sent her catch down or the steamer, and is leaving again at once. Captain Voss' Japanese schooner was at Clayoquot with 200 skins, and the Thomas F. Bayard was also at the same port bound out. All were to leave on Monday. The Eva Marie was health to "Fruit-a-tives." Thousands at Kyuquot for her crew and the Umbrina at Nootka.

Word was brought by the steamer that although the weather had been bad, on one or two fine days about 20 whales had been caught. The St. Lawrence is operating from Kyuquot and the Orion and Sebastian at Se-

Tees brought a large number of timber cruisers, and from Alberni and these wonder they had a great many men who had tirely cured me." been working on the railway construc-tion in the neighborhood of Alberni. These are down with some money, which they will spend before returning. The Tees leaves with a full cargo and many passengers to-morrow night.

RETIRING SECRETARY RECEIVES PRESENTATION

Lorne Lucas, of Empress Club, Honored by Members and Staff

Louis Lucas, the popular secretary and organizer of the Empress Athletic Club and chief clerk at the hotel, who has been transferred to Field, was last night made the recipient of a very handsome gold-mounted umbrella by the members of the club and hotel

The presentation was made by Frank Fox, secretary of the club, elected on Mr. Lucas' retirement, and over sixty members of the Empress Athletic Club

Mr. Fox, in making the presentation, referred to the untiring energy with which the former secretary had worked, and spoke with much praise of the way he had built up the club so nearly the two hundred mark in a

The former secretary will leave today to take up his new post as manager of the C.P.R. hotel at Field, and his going is regretted by every member of the hotel staff and athletic club.

COLONIES AND NAVY.

Major T. A. Brassey said he believed where the B. C. Electric Railway Commaintenance of the navies more expensive than they now thought. Lord Hindlip, former governor of

press service of Canada via New York, stated that over a long series of years

THE TORTURES

WOMEN SUFFER

Can Be Relieved by Keeping the Blood Supply Rich With Dr. Williams' Pink Pills.

A woman needs a blood building medicine regularly just because she is a woman. From maturity to middle life, the health and happiness of every woman depends upon her blood, its richness and its regularity. If her blood is poor and watery she is weak, languid, pale and nervous. If her blood supply is irregular she suffers from headaches, backaches, sideaches and the other unspeakable distress which only women know. Some women have grown to expect this suffering at regular intervals and to bear it hopeless silence. But women would escape much of this misery if they took a box or two of Dr. Williams' Pink Pills to help them over each critical period. These Pills actually make new blood. They help a woman just when nature makes the greatest demand upon her blood supply. They have done this for thousands of women throughout Canada, why not for you?

Mrs. Joseph Kinney, Gilbert's Cove, N. S., says: "For ten years I suffered from nervousness and those troubles that make the lives of so many women one of almost constant misery. At times I would be confined to my bed for weeks. I spent sleepless nights and seemed to lose all courage. I tried several doctors but they failed to give me any relief. The last doctor I consulted months more when I felt like a new trouble since, but I have used the Pills once since that time for the after effects of la grippe and the result was all I hoped for. These are plain facts the many women who suffer as I did." dealer in medicine or by mail at 50

It is now officially announced that the me Secretary, Herbert J. Gladstone. aken the title of "Viscount Glad-

CYRUS H. BOWES

CHEMIST. 1228 Government Street LUMSDEN CHARGES

W. Stewart & Co. Award Chief Engineer Says Mistakes Were Due to Errors of Judgment

Ottawa, April 14.-Gordon Grant, the ccessor of Mr. Lumsden, was called before the committee investigating the charges made by the former chief engineer of the National Trancontinental, last night, and was examined by F. H. Chrysler, the committee's counsel. Mr. Grant testified that previous to his present position he had been inspecting engineer since 1905. As soon as he was appointed chief he notified Mr. Woods, of the Grand Trunk Pacific, that he proposed to go over the ground and look into the classification. He asked Mr. Woods to accompany him, but the latter could not do so without the approval of C. M. Hays. Mr. Grant visited district F on this trip, which took from July 24th to August 24th. The district engineers accompanied him. He found in some instances that Mr. Lumsden's instruc tions had been both misunderstood and assembled rock had been returned in will be awarded shortly, and the work some instances probably than there should have been. Mr. Grant also testified that in some cases where large section between Princeton and Otter quantities of material had been blasted, a larger quantity should have been classified as loose rock and less as solid rock. These mistakes, he thought, were due to errors of judgment on the part of the engineers in applying Mr. Lumsden's specifications. There was an evident difference of opinion between Mr. Lumsden and the district engineers as to what constituted "as-sembled rock." Mr. Grant gave details of the deductions for over-classification on districts B and F. In no case, he said, was the revision of the classification completed, but it would be gone on with, with the object of showing whether further deductions were desirable. These measurements were now being made by a fully qualified thought it advisable to deduct lump Judge Morrow had imposed the fine all sums, and he thought these deductions would be sufficient to cover all the classifications when final measurements were made. The amount held back on the J. D. McArthur contracts

in district F was \$375,000. R. C. Smith, for the transcontinental ion, then took the witness in hand. He secured from Mr. Grant th tatement that the best way to instruct engineers was to go into th cuts with them, and not by writing etters. In Mr. Grant's opinion, if Mr umsden's diagrams and explanatory notes as to what constituted assemble rock were submitted to half a dozen experienced engineers none of them would arrive at the same opinion as to the real meaning Mr. Lumsden was trying to convey. For himself, he was ot surprised that there were differ ences over it. Overclassification had ccurred where there had been unnecessary blasting. None had occurred n ledge rock. As to overclassification in general, he thought it was classifications on the part of district engineers. For the same reason there had likewise been underclassification
