THE STAR, ST. JOHN, N. B. THURSDAY, AUGUST 1, 1907

A CUSTOMER'S REASONABLE WISH IS THIS STORE'S PLEASURE

DYKEMAN'S.

A GREAT BIG SHIRT WAIST SALE.

We have secured a large number of White Lawn Shirtwaists at the lowest prices that these goods have been sold for by any manufacturer. They are the manufacturer's wind up and are good fitting waists, stylish and of this year's make. The sizes run from 32 to 42.

We Will Place Over 800 Waists on Sale On Friday Morning.

There will be about 100 WAISTS on sale at 19 CENTS. These waists are finished with lace insertion and are made of fair quality of lawn, all sizes.

At 35 CENTS, about 200 WAISTS with rows of lace insertion and tucked trimming, made from English Lawn, three-quarter sleeves.

At 35 CENTS, these waists are trimmed with three rows of insertion, are tucked back and front, three-quarter sleeves, stylish and of good quality.

At 35 CENTS these waists are trimmed with two rows of embroidered insertion and are tucked back and front, three-quarter sleeves. The other prices are too numerous to mention, they run from 19 cents up to \$1.25.

A lot of cream, brown and black LUSTRE WAISTS are marked 65, 75, and 95 cents. A lot of PETER PAN LUSTRE WAISTS in cream, a very jaunty affair, worth \$2.00, on sale at 95 cents.

THE WEATHER.

Probabilities—Maritime—Today and on Friday, moderate south to southwest winds, cloudy, a few showers, fog on the coast.

LOCAL NEWS.

It is understood that Rev. Fr. O'Keefe will be the new editor of the New Freeman. Rev. W. C. Gaylor will do special editorial work for the paper.

Benj. Kilbuck, of Kilburn, Vic. Co., and Mr. George and Leslie Mayor, of Woodstock, left July 31 for a trip through the West. They will go as far as Vancouver.

Mr. James Brine, of Boston, who recently purchased the Lake Utopia club house and the 1200 acres of forest land that are attached thereto, was in St. Andrews on Tuesday. His family and a number of friends are now enjoying life at Utopia. He is delighted with his new property; and well he may be.—Beacon.

The persons at Marysville who found the Spanish gold coins have also found a copper anchor, apparently a charm, carried by a Spanish sailor. It was found at the same place that the coins were picked up and has aroused fresh interest in the minds of the lucky men. It is now said that the finds amount to in excess of \$5,000, instead of \$2,000 as mentioned in The Gleaser some days ago. The people of Marysville are naturally somewhat excited by learning of these being so much hidden wealth in the place.—Gleaser.

The heavy arm of the Canadian law has been placed upon James Justason, fisherman, of Eastport. On Friday he was captured by the cruiser Curlew within the three-mile limit, having a load of herring on board. He was searched for dynamite but none was found. He said he had caught the fish on "the Ripples," which is a neutral territory, and that the tide and wind had set him in shore. His boat was seized and the case referred to the Canadian fisheries department. The boat is in charge of the customs officer at Westport. She will likely be released.—Beacon.

Prof. Perrott of the University of New Brunswick who has been in the employ of the government this summer will come down from Edmundston with a crew of men this week to locate the bridge across the St. John river between Bath and Wicklow. The site will be somewhere between the mouth of the Monquash stream and the C. P. Ry. station, but the exact situation will be that declared by the engineers to be most advantageous. It is the intention of the government to proceed with the construction the moment the plans and specifications can be got ready. Legislation empowering them to issue bonds for this work was brought into force by proclamation last week.—Woodstock Dispatch.

NEW PLEASURE BOAT FOR NEWCASTLE MAN

Is Being Finished in Hillyard's Yard—First of the Steel Scows to be Launched Next Week.

Many men are now employed at Hillyard's shipyard and this season has been the busiest for some years. At present four steel scows and a pleasure steam craft are under construction. The steamer is being built for Thomas Foley, proprietor of the Miramichi hotel at Newcastle. The boat is being constructed by contract with James Fleming & Sons, and P. S. Heane is doing the carpenter work. The boat measures 45 feet in length and 9 feet beam. A 20-horse power Essex engine is to be installed. The boat is expected to be very fast. The wood work is being done in native cedar and oak. The boat will be shipped to Newcastle by rail.

The steel barges being built at the yard are for the Dominion government. They are to have a capacity of 200 cubic yards each. One of the barges is to be launched next week. It is not yet known where the barges will be taken.

LADIES ARE ENJOYING A TRIP TO THE YUKON

Word has been received that Mrs. David McLellan and Miss Annie Puddington, who have been attending the meeting of the National Council of Women in British Columbia, are now enjoying a pleasure trip to the Yukon. They went north some little time ago and will return to Victoria probably on Tuesday of next week. Mrs. H. A. Austin and Miss Ellen Gillis are still in Victoria. Miss Gillis and Mrs. McLellan will return home via San Francisco while Mrs. Austin and Miss Puddington will come direct.

WOULD GIVE REMINDERS ON THE SPITTING HABIT

Chief of Police Clark this morning received from the common clerk the communication sent the council by the Women's Council regarding persons spitting on the sidewalk. The chief says that he would suggest that his men do as in other cities, that when they see a man spit on the sidewalk, present to that person a small card on one side of which is printed, "You are violating the law by spitting on the sidewalk and are liable to a fine" on the other side is printed the city bye-law on the habit. The chief said if a person after being presented with one of these reminders continued to violate the bye-laws that he be reported to the court.

MANY ACCEPTANCES FROM OUTSIDE DEPARTMENTS

Tournament Committee Look Forward to a Great Gathering in September.

The firemen's tournament executive committee met Tuesday evening and discussed considerable business which will be placed before a full meeting of the department this evening. Different fire departments in the Maritime Provinces and Maine have taken to the idea of visiting St. John on Labor Day and the day following and from the present outlook this city will be crowded with visiting fire ladies and other excursionists. While there have been acceptances from a number of departments there are favorable inquiries from many others but the greater number of acceptances to the invitation sent out are not expected until next month. Already Fredericton, Moncton, Sussex, Yarmouth, Charlottetown, Fairville, Oldtown, Me., Milford, N. B., Lubec, Me., Chatham, Truro and Amherst have signified their intention of coming to the tournament and a number of the departments will bring brass bands and apparatus with them.

The Lubec fire department expect to bring their hand pumping engine with them and Fredericton may bring one of their handsome trained horses, with the apparatus. Arrangements are being made for cheap rates on all lines and a gentleman from Bangor has been in the city trying to make arrangements for an excursion from Bangor to St. John. The subscriptions to the fund are coming in to Chief Kerr in substantial proportions and everything points to one of the biggest events that St. John has seen in years.

ST. JOHN SHOULD BE PROUD OF ROCKWOOD PARK

Says John Woodruff, Who Is Here Making Photographs for the Immigration Department.

Mr. John Woodruff who has come to the maritime provinces in the interests of the immigration department to make photographs is of the opinion that there are many attractive subjects here. On Tuesday Mr. Woodruff accompanied by Mr. William Hawker, an old friend, enjoyed a drive through Rockwood Park. The camera was kept busy, and a number of the most beautiful scenes were photographed. Mr. Woodruff is loud in his praises of the park. He thinks that excellent judgment has been shown in the laying out of roads and paths, and that the preservation of the park in its natural state is the only proper plan. He has seen most of the beauty spots of America and in the opinion that even in comparison with the best of them St. John should feel proud of Rockwood.

Mr. Woodruff intends giving most of his attention to subjects which escape most photographers. He will photograph the fish as they lie at low water in some of the west side weirs, will visit Robinson's curing plant and get pictures of the fish on the drying racks. Other industrial features will also come under the camera and the photographs will be printed in pamphlets to be issued by the immigration department. Western Canada has in the past received a great deal of advertising while the east has been somewhat neglected. In future, however, the provinces by the sea will be given a fair share of attention, and the inducements they can offer to intending settlers will be made known in all colonization agencies.

ALEX DIGGS WAS NOT DEAD, AS REPORTED

But Had Started on a Spree and Was Too Drunk to Keep Awake.

The report that Alexander Diggs, colored, a man of all trades, was dead, spread about the city with great rapidity this morning, and the report was true in one sense of the word. Alex, was dead to the world, having started out on a terrific spree during the early hours of the morning. Losing control of his limbs he fell down in the old burying ground to sleep. Shortly after seven o'clock persons walking through the ground found Diggs stretched out on one of the seats and after making a hasty examination, came to the conclusion that he was dead. Officers Scott and Lucas were summoned.

The policemen had seen Alex in such a condition before, and they relieved the anxiety of the gathering multitude by stating that Diggs was still alive and that he would probably be as spry as ever in a few hours.

TRIED TO REMOVE THE Y. M. C. A. CORNER STONE

A crowd of miscreants visited the site of the new Y. M. C. A. building last night and endeavored to remove the corner stone which was laid yesterday. This morning when Robert Maxwell, the contractor in charge of the work of construction arrived at the scene, he noticed that the corner stone had been slightly displaced, and he made an examination. Mr. Maxwell found that the box containing some coins and a list of names on parchment which had been placed in a cavity in the stone, was untouched.

SAYS THE BROWN TAIL WILL CERTAINLY COME

Wm. Macintosh States That This Destructive Moth is Not Yet in New Brunswick but is Expected.

Wm. Macintosh, of the Natural History Society's museum, states that as yet the "brown-tailed moth" is not an inhabitant of the New Brunswick forests. Mr. Macintosh says that he has received eleven specimens of moths from persons thinking them to be of the brown-tail species, but upon examining them he has found that they are not. Mr. Macintosh states that while attending a conference in Nova Scotia, he saw many brown-tails and he believes that it is only a matter of time before the moth will arrive in New Brunswick. When asked what course could be taken towards stopping the destructive insects from destroying the forests, Mr. Macintosh said that by using a poisonous spray they could be killed in gardens, but once they entered the forests no steps could be taken to get rid of them.
