

BEING THE OFFENSIVE AGAINST

GERMAN CRUISER NURNBERG'S HOME-PORT MUST BE REVEALED

Without a Home-port, must leave Honolulu within 24 hours—Her whereabouts mystery until yesterday.

Honolulu, Sept. 1.—The German cruiser Nurnberg, whose whereabouts have been a mystery since she left here early last month, appeared off this port early today.

Inasmuch as the Nurnberg left this port 35 days ago, just before war was declared between Great Britain and Germany, she is entitled now to take on as much coal and no more as will carry her to the nearest home port, and may remain in Honolulu 24 hours.

The British steamer Strathairne made port here last night after having been chased by a warship supposed to have been the Nurnberg.

The German cruiser has been 35 days out from this port. Her commander says she has touched nowhere else in the meantime.

Where the Nurnberg's nearest home port now is becomes a point for the international lawyers to decide. The British have seized German Samoa and the Japanese are blockading Germany's naval base in Kiaochow Bay. Had there been coaling points in Germany's other Pacific insular possessions, the Nurnberg would have gone there.

If it should be held that German Samoa is still technically a German possession, though occupied by Great Britain, the neutrality regulations would allow the Nurnberg only sufficient coal to make Apia. But if the war has affected changes which make German Samoa the nearest home port, then the Nurnberg could fill her bunkers. Preparations for coaling were made at once, special care being taken that no Japanese should be among the coal handlers.

The Nurnberg's commander said he expected to remain for several days in Hawaiian waters after coaling.

MONTREAL RELIEF COMMITTEE HAS MANY DEMANDS FOR HELP

Montreal, Sept. 1.—The relief office of the National Patriotic Fund at 104, Drummond building, were besieged by applicants for assistance today, and the staff of fifteen clerks had all they could do to jot down the names and addresses of the visitors.

This, however, was not the aspect of the work. In all districts of the city workers were hurrying from home to work, and the cases of the applicants, and making reports to the relief office. There money was handed out to those who were shown to be really in need. The applicants were English, French and Belgians.

Preliminary arrangements were made today for a vigorous campaign week in connection with the Montreal Patriotic Fund, now affiliated with the Canadian National Patriotic Fund. The opening day of the campaign, Sept. 14th, although generous donations have already been promised, only a fifth of the money required for the relief of the families of those who go to fight for the honor of the Empire is in sight.

MONEY ORDERS BETWEEN GREAT BRITAIN AND CANADA AGAIN

Ottawa, Aug. 31.—The Postmaster-General announces that the postmaster general has been instructed to resume the issuing of money orders between Canada and Great Britain on a modified basis. The big jump in the exchange rate when the war began necessitated the temporary suspension of the money order business with European countries.

Exchange rates which have now dropped again, and the Post Office department has decided that money orders may now be safely issued at a premium of four cents per pound sterling, or fraction of a pound. The old rate was \$4.87. The new premium of four cents per pound will be varied from time to time, as the rate of exchange varies. If the rate of exchange runs up to six cents, the premium on post office money orders will be six cents per pound. If the rate of exchange drops to two cents, the additional charge on money orders will be only two cents per pound.

In order to prevent speculation in exchange by unscrupulous persons, no person shall be permitted to purchase money orders exceeding \$100 on any one day.

LOADED WITH CORN.

When the British steamer Singapore arrived in port with 40,000 bushels of Argentine corn, the value of the shipment had increased more than \$7,000 owing to the European war. The vessel sailed from Buenos Ayres Aug. 15, and on that date corn was quoted at 74 cents a bushel. Now it is worth 90 cents a bushel. The Singapore called at St. Lucia for coal Aug. 6, and there learned that war had been declared. Calls were made at Wilmington, N. C., and at Jacksonville, and every precaution was taken by the captain to keep out of the way of

FIGHTING IN PROGRESS IN ROCROI DISTRICT IN PROVINCE OF ARDENNES—LITTLE CHANGE IN ALLIES' POSITION.

General action in progress in Rocroi District in Province of Ardennes—Little change in Allies' position.

London, Sept. 1.—Today is the anniversary of Sedan and it is fully expected that the German army in France will make a supreme effort to celebrate the day in some strikingly effective manner. Fighting has been resumed all along the front, according to the official French account, which admits that the German right wing continues its advance. No other details of this fighting have yet come through and it is not known whether the British army has again been engaged.

Paris, Sept. 1.—"A general action is now proceeding in the Rocroi district," according to an official announcement made by the war office today. No details of the engagement were made public and the communication concludes: "The final result of this operation is impossible to foresee."

Rocroi is only a few miles from the Belgian frontier in the province of the Ardennes.

Paris, Sept. 1.—"There was no marked change in the position of the allies, according to a war office statement early today. 'The general situation,' it was asserted, 'has been modified only on our wings, on the left the Germans gained some ground. In the centre there has been a marked modification of the forces and no fighting in Lorraine we have gained new advantages.'"

London, Sept. 1.—The Times correspondent at Dipped, sends the following: "I have just returned from the Amiens districts, to send this despatch. A great battle has been fought at Croisilles and is probably still in progress. The French claim a success towards Croisilles, but south of it, and all Saturday there was heavy fighting. On the left I knew cannonading was still going on at noon Sunday and that at five o'clock Sunday afternoon there were no Germans in Amiens. Whether, as some declare, the lines between Amiens and Beauguon have been cut, I do not know."

BOYCOTT GERMAN MADE GOODS ADVOCATED AT TORONTO FAIR OPENING

Toronto, Sept. 1.—That Canadians should not let themselves be stampeded by the European conflict into any feeling of discontent, was the keynote of the official opening of the Canadian National Exhibition, conducted by Sir John Gibson this afternoon. At the same time, an appeal was made by Sir William Mulock, at appeal that the Canadian buying and consuming public should discriminate against German goods. He declared that not a single item of public work which had been planned by the city would be dropped.

DEADLOCK IN SCHOOL BOARD, 8,000 PUPILS KEPT OUT OF CLASSES

Ottawa, Sept. 1.—Over 8,000 Roman Catholic children, pupils of the local separate schools, were left on the streets when the classes which they attended failed to re-open this morning. This is the outcome of the battle between the English and French sections of the board and from present indications it is doubtful if the classes will be resumed for some time.

When the French section, who are in the majority, dismissed all last year's teachers at the beginning of the summer, the English section, who are without any instructors and although during the holiday season the board made an effort to replace them, but salaries they were unable to do so, or salaries they were unable to do so, or salaries they were unable to do so.

THREE BRIGADES IN THE FIRST CONTINGENT

Antwerp, via The Hague, Sept. 1.—The Belgian army is undertaking a series of offensive movements designed to cut the German lines of communication throughout Belgium. The Germans have been compelled to withdraw a great part of their strength in order to reinforce the Prussian army, now hard pressed by the Russians. King Albert and the general staff had a long conference today. Previously there were evidences of great activity in the concentrating camps just outside of the first line of fortifications, and it is believed the entire army is about to be utilized in one great offensive attempt.

A large British force has landed at Ostend to reinforce the marine guard which has been holding that sea coast city against a threatened German attack. The German cavalry patrols have disappeared from the vicinity of Ostend and it is stated that the fresh British troops which have occupied Ostend are co-operating with the Belgian army in the field.

The Belgian cavalry continues its narrowing tactics and is known definitely to have located the German base at the center of the town. The spirit of the troops is excellent and King Albert constantly inspires them with his presence.

Every precaution has been taken to prevent a German raid on the city. Great searches have been made in the fortifications farthest away from the city, and they constantly comb the sky throughout the night in a search for Zeppelins. Up in the air of the cathedral and on the roof of the tallest buildings trained artillerists, with the guns especially designed for this purpose, mount guard. It is certain that the next Zeppelin to attempt a raid over Antwerp will meet with a warm reception.

The hatred of everything German is almost unbelievable. The sacking and burning of Louvain, following on the heels of the Belgian army, has made non-combatants were slain in their beds, has aroused the Belgians to such a pitch that threats of reprisals are heard everywhere.

London, Sept. 1.—A despatch to the Reuter Telegram Company from Ostend reports that refugees from Zeppelin attacks, twenty-three miles northeast of Brussels, accuse the German troops, before they evacuated that place, of having pillaged and burned half the town.

Paris, Sept. 1.—Three German spies were brought from Beauvais, south of Amiens, last night, by a squad of French troops. They were arrested in the French lines. One of them wore the uniform of a Belgian officer. Arriving at the North station, the soldiers had difficulty in protecting them from a mob when it became known they were spies. They were finally conducted in safety to prison.

OVER THOUSAND OFFICERS MUST REMAIN BEHIND

Will be needed in Canada for instruction purposes and cannot go to front for awhile.

Ottawa, Sept. 1.—Owing to the necessity of retaining a sufficient number of officers in Canada for instruction purposes and to command additional units to be organized in the future, officers now in camp at Valenciennes will not be allowed to resign their commissions and so with the first overseas expeditionary force as private, as many of them desire to do so. At the present time there are at the big camp about one officer for every twenty-five men, not all of whom however, are well trained. It will take about seven hundred officers to command the first contingent, all of whom must be trained men. This means that over one thousand officers now in camp will not be able to accompany the force, but as the minister stated yesterday they may all count upon being given an opportunity to serve the Empire at an early date, either in Canada or abroad.

GERMAN CONSUL AT TRIPOLI TAKEN TO ITALY UNDER ARREST

London, Sept. 1, 11:40 p. m.—An Amsterdam despatch to the Central News from Malta, "Her Von Biltzow, the German consul in Tripoli, has been removed to Italy under arrest, charged with having carried on an anti-Italian propaganda among the Italian subjects."

The Italian authorities have lodged a protest with the German foreign office.

RESIDENTS OF BERLIN MORE PANICKY AS SIEGE OF CAPITAL SEEMS TO GROW MORE IMMINENT DAILY.

London, Sept. 1.—The correspondent of the Express, telegraphing from The Hague says: "There is the greatest alarm in Berlin over the advance of the Russian troops. The news that the Emperor has left the headquarters and moved to the Russian front, has shown the residents of the capital where the immediate peril to their safety lies."

"A story has been circulated that the Russians are preparing to advance Louvain by treating the city of Berlin in the same way as the Germans treated that city. Many of the populace who can get away are going to Norway, Denmark and Switzerland."

"In connection with the siege of Paris it is told here, that the German artillery experts, after vainly trying every type of field gun at their command against the forts, sent to the Krupp factory for a new fourteen-inch naval gun, which was set down four miles from the nearest Liege fort. The first shot fired from it hit the officers' mess house, inside the Belgian fortification, killing 125 men."

London, Sept. 1.—A despatch to the London Express says that Kaiser Wilhelm has left his army forces flying way into France and departed to the German forces opposing the Russians entrance into Germany.

London, Sept. 1.—Antwerp despatches to the Daily Mail assert that the movement of German troops out of Belgium, apparently to oppose further advance of Russian forces, has become very marked. It is reported that the Germans in their northern movement have evacuated many cities. St. Petersburg, Sept. 1.—In a panic before the steady encroachment of Russian troops, residents of Lemberg, in Galicia, have fled from the city, according to semi-official advices here. The war office says the advance of the Russian troops was uniformly successful.

London, Sept. 1.—Despatches from Bucharest via Rome, to the Daily News says the Russians inflicted a "crushing defeat" on the Austrian troops in Galicia. It is estimated that the Austrian casualties will total 20,000.

FOOD SUPPLY IN BRUSSELS IS RUNNING SHORT

London, Sept. 1.—The Chronicle's Antwerp correspondent, who has just visited Malines, says: "The recent outbreak of the disaster of effect of the German bombardment of that city were greatly exaggerated. It is true that about eighty houses were destroyed, but the tower of Strombaut and other famous landmarks are undamaged. The cellars and underground passages are still filled with refugees who are unwilling to come out, although the bombardment ceased long ago."

A despatch to the Reuter Telegram Company from Amsterdam, says that the Brussels correspondent of the Allgemeine Zeitung, has given the following description of the situation in Brussels:

"The German garrison in Brussels has more than 10,000 men. Batteries of field guns and rapid fire guns guard the streets, and German sentries are posted at every corner. The Duke of Brunswick, the German governor of Belgium, has taken possession of the royal palace at Laeken, where he is receiving and feeding a large company."

"The German aeroplanes and Zeppelins are making regular passages over the Brussels district. On Monday a German Zeppelin while flying above Achen caught fire and crashed to earth, killing the pilot. The military authorities have taken possession of one of the newspaper printing plants, where it is now publishing an official paper."

New York, Aug. 31.—Antonioze Bonner, nicknamed "The Diamond Queen" by the police, and Joseph D. RESIDENTS OF BERLIN MORE PANICKY AS SIEGE OF CAPITAL SEEMS TO GROW MORE IMMINENT DAILY.

London, Sept. 1.—The correspondent of the Express, telegraphing from The Hague says: "There is the greatest alarm in Berlin over the advance of the Russian troops. The news that the Emperor has left the headquarters and moved to the Russian front, has shown the residents of the capital where the immediate peril to their safety lies."

"A story has been circulated that the Russians are preparing to advance Louvain by treating the city of Berlin in the same way as the Germans treated that city. Many of the populace who can get away are going to Norway, Denmark and Switzerland."

"In connection with the siege of Paris it is told here, that the German artillery experts, after vainly trying every type of field gun at their command against the forts, sent to the Krupp factory for a new fourteen-inch naval gun, which was set down four miles from the nearest Liege fort. The first shot fired from it hit the officers' mess house, inside the Belgian fortification, killing 125 men."

London, Sept. 1.—A despatch to the London Express says that Kaiser Wilhelm has left his army forces flying way into France and departed to the German forces opposing the Russians entrance into Germany.

London, Sept. 1.—Antwerp despatches to the Daily Mail assert that the movement of German troops out of Belgium, apparently to oppose further advance of Russian forces, has become very marked. It is reported that the Germans in their northern movement have evacuated many cities. St. Petersburg, Sept. 1.—In a panic before the steady encroachment of Russian troops, residents of Lemberg, in Galicia, have fled from the city, according to semi-official advices here. The war office says the advance of the Russian troops was uniformly successful.

London, Sept. 1.—Despatches from Bucharest via Rome, to the Daily News says the Russians inflicted a "crushing defeat" on the Austrian troops in Galicia. It is estimated that the Austrian casualties will total 20,000.

FOOD SUPPLY IN BRUSSELS IS RUNNING SHORT

London, Sept. 1.—The Chronicle's Antwerp correspondent, who has just visited Malines, says: "The recent outbreak of the disaster of effect of the German bombardment of that city were greatly exaggerated. It is true that about eighty houses were destroyed, but the tower of Strombaut and other famous landmarks are undamaged. The cellars and underground passages are still filled with refugees who are unwilling to come out, although the bombardment ceased long ago."

A despatch to the Reuter Telegram Company from Amsterdam, says that the Brussels correspondent of the Allgemeine Zeitung, has given the following description of the situation in Brussels:

"The German garrison in Brussels has more than 10,000 men. Batteries of field guns and rapid fire guns guard the streets, and German sentries are posted at every corner. The Duke of Brunswick, the German governor of Belgium, has taken possession of the royal palace at Laeken, where he is receiving and feeding a large company."

"The German aeroplanes and Zeppelins are making regular passages over the Brussels district. On Monday a German Zeppelin while flying above Achen caught fire and crashed to earth, killing the pilot. The military authorities have taken possession of one of the newspaper printing plants, where it is now publishing an official paper."

DIAMOND THIEVES WILL STAY IN FRENCH PRISON UNTIL WAR IS OVER

New York, Aug. 31.—Antonioze Bonner, nicknamed "The Diamond Queen" by the police, and Joseph D. Keasling, her counsel, still languish in the French penitentiary at Cherbourg, although central office detectives spent more than two months in the hands of military authorities. After the city is over, the detectives say the French authorities told them, the "ragged diamond swindlers" will be returned.
