Lieut. Walter W. Pickup, Granville Ferry, N. S.

ENGINEERS.

Wounded.

Sapper Andrew McCulloch, Picton, N. S.

FLOOD IN SOUTHERN STATES RECEDING

Loss of Nine Lives and Property Damage of 10 to 15 Millions of Dollars Estimate to Date.

Raleigh, N. C., July 17.—Flood waters which swept parts of North Carolina, South Carolina, Virginia, Tennessee and West Virginia yesterday, taking a toll of at least nine lives, rendering hundreds of persons homeless, and doing property damage variously estimated at from \$10,000,000 to \$15,000,000, were receding today. The worst obtained in western North Carolina, where the flood was described as the most disastrous in the history of that section. Asheville and its environs were the heaviest sufferers, but it probably will be several days before the full extent of death and destruction can be determined.

When Cutting Teeth Babies are Subject to DIARRHOEA.

When the baby starts to cut its teeth, then is the time that the poor mother is under the stress of great anxiety. For some reason or other the bowels become loose, and diarrhoea, dysentery, colic, cramps and many other bowel complaints occur; the gums become swollen, cankers form in the mouth, and in many cases the child wastes to a shadow. When the child gets into this condition the bowels must be looked after very closely, and for this purpose we know of nothing that can equal Dr. Fowler's Extract of Wild Strawberry. This sterling remedy has been used for teething children, for over seventy years, by thousands of Canadian mothers who will swear by its efficacy. Mrs. R. J. Waldruff, South River, Ont., writes: "Two years ago my little girl had diarrhoea while cutting her teeth. She got thin and very weak. I had tried different remedies, but all to very little good. A friend recommended Dr. Fowler's Extract of Wild Strawberry, so I procured a bottle at once, and after she had taken a few doses I could see a change, and by the time she had taken half the bottle she was cured. I think every home should keep it on hand." The genuine "Dr. Fowler's" is manufactured only by The T. Milburn Co., Limited, Toronto, Ont. Price 36c.

BERLIN SEES PEOPLE ARE LOSING HEART

German Staff Asks Nation to Have Confidence in Army and Attempts to Belittle Allied Success.

London, July 18.—The German general staff has issued an appeal to the people of Germany for confidence in the conduct of the war, according to a Rotterdam despatch to the Daily News. "Never has the world experienced anything so stupendous as the present battles," says the appeal. "Never has an army braved what ours has braved." The appeal adds: "The enemy is sending out every few hours claims to have taken villages, woods and thousands of prisoners, in reports that are no longer couched in the language of soldiers, but are fantastic hymns of victory that mock truth, in an effort to undermine German confidence."

PARLIAMENTARIANS FROM DOMINIONS TO VISIT FRONT

Paris, July 17.—Thirty-three members of British colonial parliaments from Canada, Newfoundland, Australia, New Zealand and South Africa, arrived in Paris today and will visit the British and French fronts. Each delegation will go to the sector of the front held by troops from its own colony. Canada's delegation consists of Senators Landry, Belcourt, Dennis and Ross; Sir George Foster, Messrs. Rhodes, Shepherd, Nickle and Knowles. The French government has arranged an elaborate reception for the visitors. Premier Briand will give a luncheon for them tomorrow. Mrs. Wm. Fleming and Miss Fleming left yesterday for Fredericton on a short holiday visit.

DEUTSCHLAND A POTENTIAL WARSHIP

Both British and French Governments Make Representations to this Effect to U. S. State Department.

London, July 17.—The question of the possibility of a dispute between Great Britain and the United States over the status of the German commercial submarine Deutschland which arrived recently in the United States, was raised in the House of Commons by John Dillon, who asked Lord Robert Cecil, minister of war, to present immediately to parliament the communications which had passed between the two governments, and to undertake to keep the house fully informed of the course of negotiations in this matter. Lord Robert replied that the correspondence was proceeding and that it should be published now. He would see that the suggestion to keep the house informed of the course of the negotiations was fully considered. "Will you see," asked Mr. Dillon, "that parliament is not committed to a dispute with the United States without the house being given an opportunity of discussing the whole subject?" Lord Robert replied: "I don't think the house would wish me to give such an undertaking as that, but I will present the suggestion to Sir Edward Grey."

Badly Wounded Daring Russian Airman Sticks To Work Until Finished

Petrograd, July 17, via London, July 18.—The official communication issued from general headquarters today reads: "A Zeppelin appeared yesterday above Riga and threw bombs on the lower part of the town. In Volynia, in the region of the Lower Dnieper, our troops continue to press the enemy. Prisoners are still coming in. Northwest of Kimpolung our cavalry have advanced along the Kiribabara-Marmaroshka line. The Emperor has sent the following telegram to Grand Duke Michael at Tiflis: 'With joy I learn that you have assumed the offensive. Regarding the victories gained by my Caucasian heroes, give them my warmest thanks and my confidence in their further determined devotion.' In an aerial fight above the enemy's positions west of Terek, our aviators distinguished themselves. Pilot Puchkel, with Observer Kovenko, while reconnoitering beyond Abell, was suddenly attacked from the rear by a German Fokker. Kovenko was wounded in the hand, but our machine turned back and attacked the enemy putting him to flight. Then our machine continued reconnoitering and completed its task. Beyond Rakishki the Fokker again attacked the same machine, successful shots causing much serious damage to the latter. Under the fire of machine guns the Fokker quickly disappeared, but soon returned and for the third time attacked our machine. Kovenko, notwithstanding his wound, plugged the hole in the radiator tank caused by the enemy's shot and prevented a disaster. He was wounded a second time in the stomach by a bursting shell, but despite the serious wound continued his work. He sat down at a machine gun and again began firing. The Fokker disappeared, and Puchkel gradually planned homewards, arriving safely at the aerodrome with Kovenko, despite the canons."

AMERICAN FIRMS PLACED ON NEW BRITISH BLACKLIST

British Government to Issue List Today Containing Names of 70 to 80 Firms and Individuals with which Residents of United Kingdom are Forbidden to Trade.

London, July 17.—The British government tomorrow will publish a list of from seventy to eighty business firms and individuals domiciled in the United States with which residents of the United Kingdom are forbidden to trade. This will be the first time that any American firms have been placed on the statutory list, which is better known as the trading with the enemy act blacklist. All other countries have been represented on the list for some time. Laming Worthington Evans, controller of the foreign trade department of the foreign office, today gave the Associated Press the following explanation of the latest extension of the trading with the enemy act. "It has been the policy of the British government in the past to follow the theory that in forbidding its subjects to trade with an enemy, that enemies domiciled in friendly countries did not come under the act. France and various other countries hold the doctrine that their nationals cannot trade with an enemy, no matter what his domicile. Moderate conditions of credit make it possible for an enemy outside the nearest territory to trade with his country. Therefore a considerable body of opinion in this country urged the government to abandon its traditional doctrine, and the foreign office, while not going to this extreme, decided simply to prohibit persons domiciled in the United Kingdom from trading with a limited number of individuals, firms or companies of enemy nationality or association under the same penalties which they were trading with an enemy."

SCHOONER GROUNDS AT MOUTH OF BAY

The Rebecca Went on Pope Folly Island but was Towed to Calais for Repairs.

Campobello, Charlotte Co., July 16.—Schooner Rebecca, Capt. Young, of the Calais, Me. Lumber Co., bound west on Friday noon misty and went aground on Pope Folly Island, a little island between West Isles and Campobello; the tug Dolphin, Capt. Toft, went to her assistance immediately and succeeded in towing her back to port of landing, the same day, to be overhauled and, if possible, repaired.

OBITUARY.

Geo. H. McAndrews. St. Stephen, July 17.—George H. McAndrews, one of the best known and most respected residents of this county, passed away at Chipman Memorial Hospital Sunday evening, following a surgical operation. He was sixty-seven years of age and is survived by his wife, four sons and a daughter. Mr. McAndrews was a native of St. John, but had resided on the border since a young man, holding a responsible position with Ganong Bros. for the past thirty years. The funeral will be held from his home in Calais Tuesday afternoon.

TO LOAD LUMBER.

Several square riggers are en route here to load lumber for trans-Atlantic ports.

BLANCH.—At her residence, 117 Elliott Row, on Saturday, 15th inst., Mrs. Thomas Blanch, leaving behind one son and four daughters to mourn. Funeral on Wednesday from her late home at 11 a. m. Interment at Appahqu.

QUEER PRANK OF LIGHTNING AT CAMPODELLO

Home of Charles M. Batson Struck and Badly Shattered—Occupants were Uninjured.

Campobello, N. B., July 13.—During a very heavy thunder and lightning storm here this afternoon the house occupied by the family of Charles Millson Batson was struck and in several rooms completely shattered. At the time of the affair Mr. Batson was attending to his fishing. The electric shock passed through the building from roof to cellar, beginning at the roof, tearing away the corner board on the back of the building, ripping off shingles from roof to basement and throwing them about the yard. The corner board was shattered to splinters, and hanging by a mere split from the top. A window from the top of the building had four panes of glass taken out and one only was broken in the fall, after the work of the window remained unbroken. The interior of the building was torn to pieces. Plaster, laths and paper were torn from the walls and thrown about the rooms. The small mirror, clock and dishes were thrown to the floor, but the only signs of fire were found upon the cloth covering of a sewing machine which was badly burned. The walls of the rooms present the appearance of being riddled by bullets, as also does the chimney. The blow seems to have penetrated the whole house from the left corner of the roof to the cellar where a hole indicates its departure. Many articles in the rooms were defaced and broken. The shelf upon which a huge mirror was resting was broken while the mirror itself was unharmed. The clock was picked up after the storm when it had been thrown, still ticking. Mrs. Batson says her two boys, five and seven years of age, were in the bedroom on the first floor with her at the time of the storm as also was a companion, Miss Estella Mitchell. As the house faces the water, Mrs. Batson saw the water convulsed as by a shock of some bad kind, thinking it very much alarmed and hid beneath the covers; the others did the same when a loud crash terrified them all, to such an extent that for a few seconds they were as paralyzed. Upon investigation they discovered all rooms except that in which they were filled with smoke and the smell of sulphur. The occupants then retreated to the nearest neighbors, nearby, and upon

PRUDENTIAL INSURANCE CO. INSURES ALL OF ITS EMPLOYEES GRATIS

Newark, July 17.—Involving a total of more than \$16,000,000, the Prudential Insurance Company today announced the institution of a system of insuring every one of its more than 16,000 employees, without expense to the workers. This is said to be the largest single amount of life insurance ever covered by any company in the world. Every employe, excepting officers and directors of the company in this country and Canada, comes under the plan.

SLEEPLESS NIGHTS OVERCOME BY SAFE METHOD

SUGGESTIONS GIVEN WHEREBY INSOMNIA CAN BE SAFELY AND QUICKLY CURED.

Worry, overwork, overstudy and indigestion cause insomnia. Healthy, natural sleep can't be produced by drugs. First, the blood circulation must be improved. Congestion of blood in the head must be removed. Irritation in the brain must be relieved. Because Ferronone equalizes circulation, because it soothes the irritation, because it removes congestion that does cure insomnia. For building blood and nerve, for installing force and life into overworked organs, for establishing strength and vitality, where can you find anything so efficient as Ferronone? Remember, sleep is just as important as food. You must sleep or break down, but if you'll use Ferronone and thereby remove the conditions which now keep you from sleep, you'll get well quickly. Ferronone is not a narcotic, not a dope; it is a health-giving tonic that any child or delicate woman can use. Absolutely safe is Ferronone. Take it for a month, take it for a year—no harm, but immeasurable good will result. To sleep well, look well, feel well, so be free from depression, nervousness or blues—use Ferronone. It's a food tonic, a healer to the weak and wretched, a boon to the sleepless—sold in 50c. boxes, six for \$2.50, at all dealers, or direct from The Catarrh-ozone Co., Kingston, Ont. alarm the house was found as described, but without fire. The room they had occupied was without a mark but all else was disorder and confusion. The eldest boy was the only one harmed and his injuries were but slight.

PAPERS FOR RED CROSS.

The warehouse to which papers intended for the conservation committee of the Red Cross should be taken is at Reid's Point, south of the Eastern Steamship Company's wharf. It will be open during the present week on Wednesday, Thursday and Friday mornings between ten and twelve o'clock.

FUNERALS.

The funeral of Mrs. Elizabeth Estabrook took place yesterday afternoon from her late residence, 197 Main street. Rev. Dr. Hutchinson conducted services, interment was made in Fernhill.

FUNERALS.

The funeral of Miss Ellen Keam took place yesterday afternoon at 2.30 o'clock from the residence of W. J. Lamb, 167 St. James street. Interment was made in Fernhill.

WOMEN'S WORK RED CROSS TEA. Miss Dorothy Marie Stewart, of Sand Point, with two young friends, held a Red Cross tea on Saturday, raising a net sum of \$14, which will be divided between the St. John and Fredericton Red Cross Societies. Notes From Women's Institutes. The school children at Bloomfield received a pleasant surprise in the form of a "treat" provided them by the Bloomfield and Central Norton Institutes during June. Much interest was evidenced in Miss Hazel Rabb's paper at the June meeting, raising Pin Money on the Farm. Mrs. B. C. William's paper, "Music in the Home" was also enjoyed. Dalhousie Junction and Albert Institutes are contributing liberally to the fund for blind soldiers. The latter institute is also sending copies of the Saturday Evening Post to the boys from their neighborhood now in the trenches. The fancy work sale and dance held under the auspices of the Wellfleet Institute netted \$112.94 for the Canadian Prisoners of War Fund. The Settlement will clean and repair their public hall. The members here are putting into practice economy in war time. Flannel cuttings left over from Red Cross work are being utilized in a quilt. Roll call for June was answered by "Uses of Kerosene."

HOUSEHOLD HINTS Dye Your Stockings. Colored silk stockings, to match your sweater and outfit hat, are one of the features of the sporting costume this season. Perhaps the average woman does not realize that almost any shoe will, for 25 cents, color white silk stockings any shade desired. If she wishes to go to the trouble, the case may quickly be dyed at home by the use of standard dyes, carefully mixed and tested on a piece of white silk. A Vegetable Slicer. A vegetable slicer, fastened securely to the edge of the kitchen table, will be of inestimable help to the housewife. It may be adjusted to cut slices of any thickness and is easily operated by turning a wheel. For Dents in Furniture. Dents in furniture can be gotten rid of quite easily. Dampen the dent with
