

constituent of the blood. In many cases when this takes place the skin becomes of a yellow tinge—the eyes yellow and inflamed, and the face covered with black spots, like worms, etc. Now, if ladies afflicted in this manner will take three or four of Radway's Pills every night, and a dessert-spoonful of the Sarsaparillian Resolvent three times per day, a happy change will soon follow; all these bad symptoms will soon disappear, and the weak, emaciated, and wasting body will soon become healthy and robust. A lady called on me yesterday (4th of August, 1868); weight, 160 pounds. She said: "Last March I left this city to go home to die; when I arrived at my home (Rochester) I was nothing but skin and bones—no appetite, no spirits, no sleep, but cold sweats and nervous trembling. I saw your book called 'False and True,' and at once commenced using your remedies. I used the Pills 4, 5, 6, then 5, 4, 3, 2—in this order every night; the excrements that came from me were like clotted blood. I took the Sarsaparillian Resolvent—at first three times per day, then four, then five times per day—and had my spine rubbed three times per week with the Ready Relief. After using these medicines one month I was a new woman. I gained in flesh rapidly, my spirits became buoyant, appetite good, and my menses regular—that is what your medicine has done for me!"

DR. RADWAY: Having some experience of your medicines, I take this opportunity of writing you a few lines to let you know of its work. I have a married daughter living near Vandalia, Illinois; she became afflicted with the womb disease; she tried two doctors there without success; she came back home; I had two doctors to examine her, and one said that he thought she could be cured, the other thought not; she went back home in despair. Some months after she wrote me a letter; she was well and hearty from the use of your medicines.

## EXTRAORDINARY CURES

daily reported of diseases for which these remedies have not been recommended by us, and the report of these wonderful cures have been as surprising to us as to the general public. We have for years received letters of cures of such extraordinary and marvellous character that we have refrained from publishing them, and the letters we now publish we withheld until urged by the writers and their friends, for the benefit of the public, to make them known. We give the names and post-office address of each, so that those interested may write them; and we also recommend the sick to write the ministers of the churches in each place, to ascertain the trustworthiness of the writers. We desire all who may feel inclined to commence the use of Dr. Radway's Remedies to learn all the facts respecting these cures, so "that their faith" in the remedies "may be well founded" in the hope of a cure.

For an account of the cures of Hannah P. Knapp and Mrs. C. S. Bibbins, see our Almanac for 1877, and "Radway and his Patrons." These extraordinary cures of Ovarian tumors are becoming quite common by Radway's Resolvent. We will add a few more cases of Ovarian Tumors.

RADWAY & CO.

HILLSBORO', OHIO, November 24, 1876.

MESSRS. RADWAY & Co.—Gentlemen: As it no doubt affords you satisfaction to know of the success of your medicines, we write you an account of a cure of Ovarian Tumor by your Resolvent, which is exciting great interest in this community.

About eight years ago, the wife of one of the best known citizens of our county, and former member of our State Legislature, began to swell in the pelvis regions, and the physicians here could give her no satisfactory information in regard to the trouble. She went to her old family physician in Massachusetts, who told her, to her horror, the real condition. She consulted physicians in Boston, who advised an operation, to which she refused to submit. They were candid enough to tell her that they suspected adhesions of the sac of the tumor, which would make an operation very complicated and severe, and of course extremely hazardous.

Art aids, but nature performs the cure.
