**LIFT YOUR CORNS  
OFF WITH FINGERS**

Tells How to Loosen a Tender Corn or Callus so it Lifts Out Without Pain.

A noted Cincinnati chemist discovered a new ether compound and called it Freezone, and it now can be had in tiny bottles as here shown for a few cents from any drug store.

You simply apply a few drops of Freezone upon a tender corn or painful callus and instantly the soreness disappears, then shortly you will find the corn or callus so loose that you can just lift it off with the fingers.

No pain, not a bit of soreness, either when applying Freezone or afterwards, and it doesn't even irritate the skin.

Hard corns, soft corns, or corns between the toes, also toughened calluses, just shrivel up and lift off so easy. It is wonderful! Seems magical! It works like a charm! Your druggist has Freezone. Ask him!

Get the kind that defy the storm, that stay on the job when the tornado has gone.

**BEAVER BRAND  
WHITE CEDAR SHINGLES**

The Boston Transcript, August, 1916, says:

The wooden shingle again demonstrated its great superiority over other forms of roof covering, in the recent heavy rain and wind-storms in the southeastern cities. In the vicinity of Birmingham and through the east and south parts of the State the rainfall approached twelve inches in sixty hours, soaking all kinds of composition roofs, so that the wind rolled them up. The wooden shingles were not loosened by the wind, as were those of other types. Much of the property damage was caused by water destroying the contents of buildings, and in most cases the water entered because of defective roofing.

**Eureka Potato Digger**  
Gets the Potatoes and separates where other diggers cannot

A strong statement, but an actual experience many times, saving growers more than the cost of the Digger. Ask us for the proof.

The Eureka elevator and duplex shaker provides more separation than other diggers. Large wheels and main gears supply ample power. Mostly malleable and steel, avoiding frequent breakage and lost time. Growers report digging 80 or more acres without repairs. High clearance over shovel prevents weeds and vines bunching. Has vine-turner attachment.

6-ft. and 7-ft. sizes; several styles.

**PEERLESS  
PERFECTION**

It's made right—from high grade material. In the construction of our PEERLESS FENCING we use open headed steel wire. By this process impurities are removed from the metal, thus eliminating one of the chief causes for the rapid rusting of fence wire. PEERLESS is guaranteed to give you satisfaction. Send for catalog. Agencies nearly everywhere. Agents wanted in open territory.
