I WILL CURE YOU OF Rheumatism

ELSE NO MONEY IS WANTED.

After 2,000 experiments I have learned how to cure rheumatism. Not to turn bony joints into flesh again, that is impossible. But I can cure the disease always, at any stage, and forever.

I ask for no money. Simply write me a postal, and I will send you an order on your nearest druggist for six bottles Dr. Shoop's Rheumatic Cure, for every druggist keeps it. Use it for a month, and if it succeeds, the cost is only \$5.50. If it fails, I will pay your druggist myself.

I have no samples, because any medicine that can affect Rheumatism quickly must be drugged to the verge of danger. I use no such drugs, and it is folly to take them. You must get the disease out of the blood.

My remedy does that, even in the most difficult, obstinate cases. No matter how impossible this seems to you, I know it and I take the risk.

I have cured tens of thousands of cases in this way, and my records show that 39 out of 40 who get those six bottles pay gladly.

I have learned that people in general are honest with a physician who cures them. That is all I ask. If I fail I don't expect a penny from you.

Simply write me a postal card or letter. I will send you my book about rheumatism, and an order for the medicine. Take it for a month, as it won't harm you anyway. If it fails, it is free, and I leave the decision with you. Address Dr. Shoop, Box 52, Racine, Wis.

Mild cases, not chronic, are often cured by one or two bottles. At all druggists'.

The "Coming" and the "Gathering" of Butter.

Churn, churn, churn for hours, and the butter will not come, and at last when it does come it will not gather. Oh, the work, and the worry, and the trouble is all in the feed. In June, when nature feeds the cows, things are different.

There is no trouble then about slow-coming or slow-gathering butter. The air is full of the aroma of sweet plant life, and the young grass is tender and sweet to the taste. Nature furnished a perfect food that is perfectly assimilated, and with perfect assimilation the animal functions work to perfection, and a perfect milk is the result. We cannot have June grass and sweet-smelling herbs in winter, but we have (for practical purposes) a perfect substitute in Herbageum. When fed regularly every day, Herbageum supplies the pure aromatic qualities of a June pasture, and thus insures the thorough assimilation of the dry, odorless winter food, and with thorough assimilation there is no difficulty about the "coming" or the "gathering" of butter.

This matter has been tested by many, and from among many reports we give the following:

"Some time ago, I exchanged a dry cow for a new milch one, the party with whom I traded saying, "If she is not satisfactory, bring her back." I afterwards learned this was because two other parties had her and could not make butter, as it would not gather. At the first churning my wife churned for hours, and, while the butter formed, it would not gather. I then began with Herbageum, and the next churning was satisfactorily completed in half an hour, and we have had no further trouble. It has proved of great value in strengthening cows weak in the legs." James Ray, Margaretville, N. S.

"I find that when I feed Herbageum to my milch cows during the winter the cream separates better from the milk, and the butter separates more quickly from the cream, and I can churn in at least one-third of the time." Mrs. Michael Fitzpatrick, Osceola, Ont.

"We find that by using Herbageum for our milch cows in the winter butter can be brought in just about one-third of the time, and consider that the time gained in churning is worth more than the price of the Herbageum, besides which, the butter is a better color. This opinion formed from repeated observations." Wadleigh & McMannis, French Village, Que.
