

FOR SALE

493,000 ACRES OF FARM LAND

In the Heart of the Saskatchewan Wheat Belt
\$10.00, \$12.00, \$15.00 an Acre

25,000 acres along main line Canadian Northern between Dalmeny and Humbolt.

(Average yield of wheat per acre last year in this district, 24½ bu.)

65,000 acres along Canadian Northern between Regina and Prince Albert.

(Average yield of wheat per acre last year in this district, 24 bu.)
 Etc., Etc.

56,000 acres along main line of Grand Trunk Pacific near Blaikie.

(Average yield of wheat per acre last year in this district, 24½ bu.)

140,000 acres along Canadian Pacific between Lipton and Saskatoon.

(Average yield of wheat per acre last year in this district, 23½ bu.)
 Etc., Etc.

These lands lie in the very heart of the Saskatchewan wheat belt. Three great railways—Canadian Northern, Canadian Pacific, and the Grand Trunk Pacific—form a network of lines throughout the property. This means ready markets and prompt shipments of grain, etc.

Towns, churches, schools and prosperous neighbors on every side. **We offer only specially selected land**, every acre splendid virgin prairie, well watered, with the richest soil in the West. Last year wheat averaged over 23 bu. per acre.

When you buy you get a clear title, which comes direct from the Government.

Investigate at once—farm lands in Saskatchewan are doubling and trebling in value, and settlers will find that it pays to buy land near the railway rather than go 15 or 20 miles back on a homestead. Write to any Winnipeg bank for references.

We have a book that we want you to read. It tells about these lands, soil, climate, water, railway facilities, etc., etc. We will send you a free copy. Sit down and write for it now.

The Saskatoon & Western Land Co., Limited, Main St., Winnipeg, Man.

LET GO

There are still some who freeze to old skimming ways, reluctant to sever the ties that binds to the ways "good enough for grandmother," there's a

DE LAVAL CREAM SEPARATOR

Ready For You.

The DeLaval Separator Co., 173-177 William Street, MONTREAL.

The Razor Steel, Secret Temper, Cross-cut Saw.

We take pleasure in offering to the public a saw manufactured of the finest quality of steel, and a temper which toughens and refines the steel, gives a keener cutting edge, and holds it longer than by any process known. A saw to cut fast "must hold a keen cutting edge." This secret process of temper is known and used only by ourselves. These saws are elliptic ground thin back, requiring less set than saws now made perfect taper from tooth to back. Now, we ask you, when you go to buy a saw to ask for the Maple Leaf, Razor Steel, Secret Temper Saw, and if you are told that some other saw is as good, ask your merchant to let you take them both home, and try them, and keep the one you like best. Silver steel is no longer a guarantee of quality, as some of the poorest steel made is now branded silver steel. We have the sole right for the "Razor Steel" brand. It does not pay to buy a saw for one dollar less, and lose 25 cents per day in labor. Your saw must hold a keen edge to do a large day's work. Thousands of these saws are shipped to the United States and sold at a higher price than the best American saws. Manuf'd only by SHURLY & DIETRICH, GALT, ONT.

The Roof for Thrifty Farmers

THE shiftless farmer is satisfied with any kind of cheap roofing that affords temporary protection. The thrifty farmer considers quality first, for he knows there is economy in buying that which has lasting qualities.

The accompanying illustration shows the construction of Carey's Roofing. The different layers are compressed at the factory into one compact sheet of roofing, which never comes apart.

CAREY'S FLEXIBLE CEMENT ROOFING

is easily laid by common labor. It is equally adapted to flat or steep surfaces, and is suitable for all buildings about the farm. Will not rot, rust, nor break. Is fire-resisting, moisture and wind-proof. W. H. Caine, Cleveland, O., writes:

"I have had a part of my barn covered with your roofing for the last twenty years, and it is good for a long time yet."

Carey's Roofing may be laid over leaky shingle or metal roofs without expense of removal. The Carey Patent Lap covers nail heads, making a neat and lasting union of sheet to sheet and roofing to roof-board. Carey roofs never blow off.
