Elliman's Universal Embrocation.

ELLIMAN, SONS & CO., SLOUGH, ENGLAND.

South Perth.

This is the best winter for sleighing that we have had for some time. The snow came early in December and still remains on the roads; yet there is not much teaming being done. The roads are not kept in proper condition for drawing much loose hay, and cutting wood and logs is too much like hard work for the average farmer to practice. Very few keep a man in winter, consequently choring leaves little time for other work. It takes the average farmer all winter to get enough wood cut for his own use, and many of them don't do that, but fall back on coal when their wood-pile decreases. This, I think, accounts more than anything else for the present preservation of the wood-lot—the labor and expense of harvesting is too great, compared with other crops, for the profit derived. Very few believe that it pays to preserve the wood-lot, except as a source of supply for timber to "fix" the barn or build an implement shed or pigpen. Yet there is ten times more timber than will supply all these needs for the next fifty years.

Some parts of this county and adjoining counties still retain the statute-labor system of road-making. This winter we notice that some "beats" two miles or more from the pit, are doing part of the work now by drawing and piling the gravel in some convenient place (usually at home), to be applied to the roads in the spring. The council forbids the application of it (and rightly so) to the roads in winter. Many of the leading roads into the market-town are in good condition, but some are a disgrace to any municipality. The "town fathers" complain that the town limits are too extensive to care for the roads properly. The limits should be decreased, or the Provincial grant applied first to the improvement of these leading highways.

J. H. BURNS.

TRADE TOPICS.

The strong points in the make-up of the Baker Wind Engines, manufactured by The Heller-Aller Co., Windsor, Ont., are stated in brief in their new advertisement appearing in this issue, while their catalogue, which will be mailed free on application, gives full information.

The report of the forty-fourth annual meeting of the Canadian Bank of Commerce, appearing elsewhere in this issue of "The Farmer's Advocate," makes very interesting reading even for those who have no special interest in that substantial institution. The financial statement reveals an evidently carefully managed and successful business, while the President's address regarding general business conditions in Canada, and the prospects for the coming years, is full of information well worthy of consideration by commercial business men, and also by farmers, as interesting figures are given from Dominion Government reports of our imports and exports for the past year, and of the comparative yields and values of farm crops and live stock revealed by the census.

PURE-BRED ANIMALS AND PLANTS.

—That there is as much difference between pure-bred and ordinary plants as between pure-bred and ordinary animals, is the claim made by D. M. Ferry & Co., of Detroit, the great flower and vegetable breeders, whose 1911 annual catalogue has just been issued. They argue for the great value and economy of well-bred seeds. "Any fundamental natural law which applies to animals, applies equally to plants," they state. A good cow may eat no more than a poor one, but give twice as much butter-fat. "Good blood" makes as much difference with corn as with cows. But pure-bred plants, like pure-bred animals, are not produced in one or two generations, for no matter how superior an individual of common origin may be, its progeny are, as a rule, like the general run of its antecedents. Hence the need for seedsmen like D. M. Ferry & Co. They have experience, the best plant-breeding equipment in the United States, and the business acumen to sell only such seeds as have been bred from the choicest stocks for many generations. D. M. Ferry & Co.'s Seed Annual for 1911 may be had free of charge by writing to them at Windsor, Ontario. It contains much of interest for those who think.

As they some-
times are.

As "SAVE-THE-HORSE"
can make them.

THIS TELLS THE STORY

Our contract takes absolutely every particle of chance out of the matter so far as the user is concerned. This is no "say so" or "catch the unwary" sort of guarantee; it is a legal, binding, signed agreement to protect purchaser. Send for copy and absolute proofs—results—truths from business men, bankers, manufacturers, breeders, and horse owners the world over.

15 YEARS' SUCCESS. On any and every case the kinds where all other methods fail, it proves to have the potential properties and power to consummate the desired result. Whether an old, new or a serious complicated case considered beyond hope, in using "Save-the-Horse" you are not frittering away time and money.

EXPERT VETERINARY ADVICE ALWAYS FREE.

The Citizens' Bank of Atchison Co., Rock Port, Mo. — I have bought several bottles of "Save-The-Horse." I used part of last bottle on bay mare, lame in hind tendon, with great results. Have had over 25 years' experience and consider it the greatest remedy I ever had.

W. W. HUBBARD.

STAYS SOUND: THAT'S THE BEST OF IT.

Brooklyn, N. Y., June 21, 1910. — Just a year ago to-day I bought of my dealer a bottle of "Save-The-Horse," which I used with great success. It cured my horse entirely of a bone spavin. He was so bad he could not be used without danger of my being arrested. Now it would take quite a little money to buy him. I cannot praise your spavin cure too highly.

Texas, J. BEASLEY, 4,402, 16th Ave.

Denver, Colo., June 23, 1910. — I have cured one of the worst thoroughbreds on a stallion that ever was, with your remedy, and did not use quite one bottle. It certainly does the work. Since using your medicine I am sure of its merits.

Respectfully,
Geo. W. WILLIAMS, 1643 Marion St.

\$5.00 a Bottle With Signed GUARANTEE

A binding CONTRACT to protect purchaser absolutely in treating and curing any case of Bone and Beg Spavin, Thoroughpin, Ring-bone (except low), Cork, Splint, Capped Hock, Windgall, Staked, injured Tendon and all Lameness. IMPORTING BARNS

J. B. HOGATE, Proprietor,

IMPORTER OF

Clydesdale and Percheron STALLIONS

Clydesdales sired by such noted sires as Hiawatha, Baron of Buchlyvie, Baron Winsome and others. Dams equally as good.

Percherons of the best blood of France.

I can sell you a ton stallion for less money than any man in the business. Don't buy undersized stallions and think you will breed draft geldings and mares from them. Come and see my ton horses and get prices. I will surprise you and save you plenty of money. Weston is reached by the G. T. R. and C.P.R. For further particulars write:

J. B. Hogate, Weston, Ont.

To Buyers Looking for a Good Stallion:

I have imported Percheron Stallions for years. Always bought from the best breeders in France, and beg to call the attention of prospective buyers to the fact that I have won this year at Toronto first and second aged class sweepstakes and silver medal. Also at Ottawa Fair, first and third in aged class, first, second and third in 3-year-old class, sweepstakes and gold medal. Those horses are beautiful dapple-greys and blacks, three to four years old, weighing 1,800 to 2,000 lbs., with feet and legs that cannot be beat, beautiful heads and necks, the kind that good buyers are looking for. I do not intend, and I will not allow, if I can help it, any one to give more quality breeding for a fixed price than I will. Come to the home of the champion prizewinners and judge for yourself.

JOHN HAWTHORNE, Simcoe, Ontario.
