

Vitalize your roofs

Your roof must have power to resist the blazing sun, the forceful wind, the pouring rain and the driving snow.

Real life and resisting power come from *natural* asphalt. We use the natural asphalt from Trinidad Lake to make

Genasco

THE TRINIDAD-LAKE-ASPHALT

Ready Roofing

The natural oils of this asphalt stay in Genasco and make it proof against rot, cracks, and leaks.

Be on the safe side—get Genasco for all your buildings.

The KANT-LEAK KLEET makes seams watertight without cement, prevents nail-leaks, and gives an attractive finish. Ask your dealer for Genasco—smooth or mineral surface; several weights. Write us for the Good Roof Guide Book and samples.

502.6 Bushels Potatoes

From One Acre of Ground

TWENTY DIFFERENT FARMERS in 20 different parts of New England competed the past year in growing potatoes. The crops were widely separated as to climatic and weather conditions. Each one planted, cultivated and took care of his crop in his own way; but all used

Bowker's Fertilizers

And No Other Dressing

The winning crop was 502.6 bushels. The average of the twenty crops was 322.8 bushels. The average yield in New England is 131.6 bushels, and for the United States 89 bushels. Our crop-growing contests of the past four years have been so fairly and accurately conducted that they have been accepted everywhere as authentic. Henry Wallace, Editor of Wallace's Farmer, writes: "There is no guesswork about them."

Send for our Book of the Contest. Also tell us what your crops are, and your fertilizer requirements and we will send you our helpful book on Plant Food and our new Illustrated Catalogue.

BOWKER FERTILIZER COMPANY

The Spramotor is a Welcome Aid to Practical Growers!

Leading fruit growers and men who have large tracts of row crops under cultivation find the **Spramotor** a big dollar gatherer. It earns its cost the first year. Every year thereafter it keeps up the good work and repays its owner over and over again.

A Spramotor

is the most efficient spraying machine made, because it has twenty distinct patented features to be found on no other make. We have been at the making of spraying machines for over twenty years, devoting all our thought and energy to the perfecting of the **Spramotor**. We manufacture every part that goes into our machines, in order to be sure that each is perfect. Every outfit gets a thorough test under high pressure before being shipped.

Hand Spramotors

are efficient in orchards up to 500 trees, and on the medium sized farm for spraying potatoes, weed destruction, etc., also for painting. They are moderately priced machines, from \$12 to \$30, yet will do all this work.

We make a bigger range of spraying outfits than any other firm in the world. Prices run from \$6 to \$350, each and every machine guaranteed.

FREE Send us a letter containing some idea of your spraying requirements and we will mail at once full particulars of a **Spramotor** that will do your work to the best advantage at the lowest possible cost. We will also forward a copy of our valuable illustrated treatise on Crop Diseases, **WITHOUT CHARGE** and without placing you under any obligation whatever.

B. H. HEARD SPRAMOTOR

1737 KING STREET

LONDON CAN.

"Ideal" Fence

Is Stronger Than The Strongest

The Weak Exist; But The Strong Live

Strength is what you want in a fence. You want a fence that will live; a fence that will last; a fence that possesses great strength in every wire.

To get strength you must get weight. The heaviest fence contains the most strength. Weigh "Ideal". Compare its weight with any other fence you can buy.

No small weak wires in "Ideal". From top to bottom it's all the same—all No. 9, all hard steel wire and every wire full of strength and properly galvanized to protect and preserve that strength.

Strong unruly animals can look through but not break through "Ideal". It's stronger than the strongest.

Why not buy the fence that possesses the greatest strength—that weighs the heaviest, that contains the most real genuine value. "Ideal" is the cheapest for you in the end.

Our "Ideal" representative, in your section, will gladly tell you more about this strong "Ideal" fence. If you do not know him drop us a card. Also ask for catalogue 121

The McGregor Banwell Fence Co. Ltd.
