"We find that the ale uniformly and well agreed with the patients, that it stimulated the appetite, and thereby increased nutrition. The taste, likewise, is always highly spoken of. In nervous women, we found that a glass at bedtime acted as a very effective and harmless hypnotic."—SUPERINTENDENT OF LARGE U. S. HOSPITAL.

THE Business Man

who does not protect his creditors by insuring his property is not looked upon as a safe or desirable man with whom to have dealings.

Yet, what creditors are there who have such great claims upon a man as his wife and children?

As the head of a family, it is your duty to see that those dependent upon you have the benefits and protection which life insurance provides.

If we would be powerful in action, we must be powerful in being. If we would resolutely and continuously persist in excellence, in truth, and in

right, and thus make our external life a force for good, a blessing to those who are in our immediate neighborhood, we must cherish within us that love for goodness and that loyalty to truth which alone can give vitality and persistence to effort.

There is no short cut to excellence. In every department of human achievement superiority is based upon toil, and success is reached only by effort. Drudgery in some form underlies every performance that is of any worth, and he who plumes himself upon his ingenuity in escaping from it is like the man who congratulates himself on his shrewdness in building a house without the trouble of laying a foundation.

INTEREST EARNINGS

form the basis of Results to policy-holders in a Life Insurance Company. One of the financial journals publishes the interest earnings on investments of all the Life Insurance companies. It can readily be seen that low premiums and high profit returns must follow. Ask for information.
