## Plowshare Fastener !!

### PARKS-COUGHLIN Plowshare Fastener

(PATENTED)

Eliminates All Troubles with Burrs, Bolts and Sprung Shares

CONSERVATIVE estimates show that **PLOWING CONSUMES 60 per cent.** of all the energy required to till the soil. The greater portion of this is waste. The manufacturer gives you a perfect plow, but you cause this waste by not keeping it properly adjusted and the shares sharp. Troubles in changing shares make you do this. **Mr. Farmer, get the Fastener!** Cheaper than Bolts. Change shares in forty seconds. Ask your dealer to demonstrate it to you. If he has not got it write us and mention his name.
