company's Well-Repairs Being walking being in time together. As the cure progresses the ascents are made steeper and steeper. Made Lengthening Suction Pipe.

The city this morning enjoyed the gusual experience of a water famine, thstanding the presence of a skirting its western boundary another on the south. At half ust 10 customers of the water comince the construction of the well a mere is always a very perceptible ion in the water supply which does not occur either in midmid-winter. "The well is 34 feet cribbed to the bottom with 8x8 timbers and usually contains from 12 to 14 feet of water constantly. The difficulty this morning was not observed until it was noticed the pump was hoisting air instead of water. An stigation showed but three feet of water in the well and the suction pipe was too short to be of any further service. Temporary repairs that the water will be on again this afternoon, and engthened sufficiently to enable it to all It is not imagined for a mothat any serious shortage will The well is sunk on a well de- do you want to get married? er and a half has furnished an adente supply for the plant which mps 600 gallons a minute.
