### THE PEACE FARCE

There is not the slightest chance of the peace meetings now proceeding at Brest-Litovsk ending in anything better than further advantage to Germany. There may be some of the Bolshevik delegates who are sincere in their desire to bring about peace, honest in their motives, and loyal to Russia. But this does not alter the fact that they are dupes of Lenin and Trotsky, who in turn are the paid agents of Germany. The whole business has been planned and staged by Germany, and it was only possible by an act of basest treachery on the part of the Russian people to their allies. The Bolsheviks have violated the pledged word of their country, just as the Germans did in their invasion of Belgium, and now they ask the allies to make a further agreement with both of them. In the meantime the Kaiser is making use of the treachery of the Russian people to try one last desperate attempt to break the allies on the west front before the United States can make its weight felt. It is not peace, but victory that the Kaiser is seeking to win from these farcical peace proceedings.

### WILD TALK.

Some of the Quebec papers are indulging in very wild and very absurd talk, and it is not enough they are blasphemous union of parties to win the war and not themselves for all their troubles and difficulties. It is all very regrettable that newspapers who know better should so willfully seek to mislead their readers. There is neither wish nor desire on the part of the Western provinces to sacrifice Quebec, nor are they seeking the blood of French-Canadians. Neither is it the intention of the English-speaking provinces to make a slave of Quebec, no more than it is their intention to submit to the domination of Quebec. Canada went into the war with the consent of the vast majority of the Canadian people, and without any marked protest from Quebec. The election has just shown that it is the intention of the majority of the Canadian people to prosecute the war to a finish with every available resource of the Dominion. The other provinces are not asking a thing more from Quebec than they are giving themselves. All that is wanted, and all that is sought is that the people of Quebec should do their fair and equal share in the war with the people of the other provinces. If the people of Quebec had not been so wilfully and maliciously misled by their leaders there never would have been any trouble, nor any cause for trouble. Surely it is time that there was an end to this stupid misrepresentation, and an attempt made to bring the two races together on a basis of a strong and loyal Canadianism.

### DOMINION THEATRE

Melbourne MacDowell, the well-known legitimate actor, makes his first appearance on the screen in the new Triangle play, "The Flame of the Yukon," by Monte M. Katterjohn, starring Dorothy Dalton. He appears as Black Jack, a dance hall proprietor and gambler, who is mistrusted, hated and feared by his neighbors. At the close of the story a much wronged miner volunteers to rid the camp of this curse, and what is said to be the most realistic fight ever screened ensues.

Those who recall his appearance in the great roles of the Sargon plays, in "Theodora," "La Tosca," "Gismonda" and "Cleopatra," will appreciate that this stage veteran would be a difficult match for even the most experienced of leading men to tackle. In this fight MacDowell uses every artifice known in the ring in which he has had a long experience as an amateur.

Don't miss this Fatty Arbuckle two reel comedy. Its a scream from start to finish.

### Unique Find In Ontario

The locked antlers.

IN September and October during the rutting season, the hunters of the forest hear the sounds of a terrible combat between those giants of the forest, the bull moose. With their formidable antlers these huge creatures can span a young birch tree like a fence of matchwood, and although it is only rarely that the bull moose will attack a man if he does do so the man has little chance unless he is quick with his hot pistol. The other day, on Ignace Island, twenty-one miles east of Rossmore, on the C. P. R., a pair of locked moose horns was found as the tragic record of a combat. They had evidently been fighting when the antlers became entangled and unable to extricate each other the two animals died there of starvation, their

### Hard to Drop Meat?

All depends on what you eat as a substitute. It is a good time to study "food value." You may be eating the wrong foods, the foods that cost most and give the least nutriment. **Shredded Wheat Biscuit** contains more real, body-building nutriment, pound for pound, than meat, eggs or potatoes and costs much less. Two of these Biscuits with milk and a little fruit make a nourishing meal at a cost of a few cents. Make Shredded Wheat your "meat." A satisfying breakfast on which to start the day's work. It is ready-cooked and ready-to-eat. Made in Canada.

## WE THANK YOU MISS M. P.

This lady is kind enough to send in a recipe that has the advantage of being as inexpensive as it is good.

She says "Pacific Milk makes the pudding very rich."

"Mix together half a cup of cold water—half a cup of brown sugar—and one and a half cups of PACIFIC MILK, and put them on the stove. In another dish mix (thoroughly) 5 tablespoonsful of corn starch with half a cup of cold water.

When the sugar, milk and water are hot—not boiling—stir the thickening in gradually. Add flavouring to taste and set in mould that has been moistened with cold water. Serve with preserved fruit or jam."—M. P.

We are sending Miss M. P. a little surprise for her kindness.

### BIJOU THEATRE

Wm. Courtenay firmly established himself in the good graces of Nanaimoites by his fine work in "The Hunting of the Hawk," and he has confirmed that good impression by his performance of the leading role in "The Recoil," the Pathe feature which heads the Bijou programme today.

A stirring episode of the "Secret Kingdom" also figures on the bill with an interesting weekly.
