J. F. ALLISON, Agent

Around Town.

THE ARGOY.—The first issue of Vol. XXII of the Mc Allison Argoy appeared on Saturday under its new management. As usual it is full of bright new matter, of general and personal interest and contains numerous strictly local hits and academic poems and things. The staff for '92 is C. E. Crowell, editor-in-chief; H. J. Jones, W. M. Ryan, J. S. Gray, H. D. Townsend, A. M. Sanford, H. D. Marr, J. H. Toole, W. Tennant, S. D. Scott, M. A. of the Sun is corresponding editor, R. C. Archibald, Business Manager and W. W. Costin assistant.

A QUEER FIND.—Last Saturday a mare belonging to David Wheaton got mired in a ditch and so disabled herself that her owner was compelled to draw her home on a sled. She continued to show signs of great suffering and to the misery Mr. Wheaton had her killed. A post mortem examination was made and in the region of the bladder a conglomerated mass of gravel stones about eight inches in diameter was found. In the centre of the mass was a hard solid stone weighing 14 pounds. The animal had for the past year given evidence of pain but it would pass off and she would appear to be in normal health.

MISSIONS.—The Missionary Anniversary in the Methodist church last Sabbath was in every particular a pronounced success. At both services large congregations were present and evidently appreciated the various talks and features which distinguish the missionary operations of the day. The address and sermon by Rev. Mr. Read of Moncton were both able and powerful and will not soon be forgotten. The remarks of Dr. Allison as Chairman touching the work and obligations of the Church in the matter of the world's evangelization were admirable. The collections on both occasions were good.

PERSONAL.—Miss Marian Crane youngest daughter of the late Hon. William Crane, was married in St. Stephen's church, South Kensington, London, on Saturday last to Capt. T. R. Jackson, R. N. Capt. Jackson took passage for Jamaica, on which station Capt. Jackson is the Commandant.

Pridham, Amherst's popular photographer will be pleased to learn that he has found the change of climate very beneficial to his health. In a letter to the Post dated Denver, Colo., on the 1st he writes that the climate agreed with him splendidly and that he is entirely free from rheumatism. There had been no frost or snow there up to date except on the mountains. There are hot and cold mineral and sulphur springs in the near vicinity and he will return in the early spring by way of the C. P. R.

MT. ALLISON NOTE.—Owing to the large and increasing attendance at the Ladies' College it has been found necessary to provide a large dining hall. For this purpose the old gymnasium, on the north side of the tennis court, will be moved to a position in the angle formed by the ell and the main building on the west side and connection made with the main college. The cellar has already been dug and the work of moving the building will begin at an early date. The contract for digging the cellar has been let to Daniel McCarthy, the masonry to Messrs. Stultz and the moving to Burton Estabrooks. When completed for 150 students. The present dining hall accommodates 100 and is now taxed to its full capacity and the attendance is usually greater during the second term. The present dining hall will probably be converted into a reading room.

—It has also been found necessary to enlarge the dormitories. When the main college was built the mansard was left unfinished. Some years ago it was necessary to have a temporary building to house the students. The rooms and now it has been found necessary to finish eight to meet the requirements. Tenders were made by Messrs Rhodes, Curry & Co., Amherst, R. C. McDonald, Moncton, Port Elgin, and Messrs. Hiram Copp and J. W. Doull, Sackville. The contract was awarded to Doull, the work to be completed by December 31st.

—A new instrument for teaching the pipe organ will shortly be purchased for the Conservatory of Music.

—Rev. John Read, Moncton preached in the Methodist church on Sunday. While in Sackville he was the guest of Rev. and Mrs. Borden.

—Mrs. Brocken has returned from Halifax.

—Reception at the Ladies' College, Saturday evening.

—Messrs. Sprague, Pickard and Gibson, representing the handball team go to St. John to play a club of that city to-day.

Local Matters.

The Picton Charcoal Iron Co. made their first cast this week.

It is rumored that an American firm intend starting a hat factory in Amherst. The old academy is spoken of as the building to be used.

It is said that over half of the forty thousand dollars stock which it was expected Amherst would take in Harris Car Works has been subscribed and prospects for the balance are favorable. A little more push and the project will carry.

A promising seam of coal has been discovered about 8 miles from Springhill on the line of the I. C. R. The quality seems to be good. Mr. Stephen Trem of Amherst has taken up a number of acres and expects to form a company to open up the mine.

On Saturday a slight washout occurred on the I. C. R. about one mile east of College Bridge, carrying away some of the track bed and doing other injury. Seven cars of grain were sent from Moncton with which to repair the damages.

The famous graveyard insurance case is on its last stages in St. John. Gideon Reid brother to the man insured has turned Queen's evidence and practically convicted the Welfouls and Dr. Randall. It has been proved that several thousand dollars were made by the prisoners through this transaction.

Edmund Roney, aged 17 years, son of the caretaker of the Moncton and Coverdale bridge, while at work on Monday, fell off the structure and was drowned. He was an industrious boy and much respected. Every effort was made to rescue him but the time was running too strong at the time and nothing could be done.

A young man named Holmes withdrew from employment attending a grist mill, at Rowdon, Hants Co. In some way his jumper sleeve became caught in some cog of a wheel. The arm was twisted around an iron shaft and torn from the socket at the shoulder, leaving the arm hanging to the shaft. The young man with much nerve walked a half mile to the doctor.

Says the Press.—A shocking case of brutality is reported from Amherst Highlands. It seems a well known colored man, who is constantly disagreeing with his better half, last week caught her up and held her upon a red hot cooking stove until she was burned in a terrible manner. He then drew a revolver and aimed it at her, but she took her life. If the facts are as stated and we have reliable information on the matter, the authorities should have the man arrested for cruelty and punished as he deserves.

The Truro gold mining company are jubilant. Last week G. W. Stewart, a resident of Truro, Nova Scotia, with a brick of gold 8 1/2 inches in length, 2 1/2 in width, 1 1/2 in depth, and weighing 260 old ounces, worth \$5.

It is the result of the work of 15 men for one month. Besides the brick Mr. Stewart brought specimens said to be valued at \$800. The lead is from 2 to 14 inches, and the principal "strike" will it is said yield \$1000 a ton.

Henry Campbell was sentenced by Judge Landry on the 1st to five years in the penitentiary. He was tried under the speedy trial act. Campbell is the man who was convicted by L. C. R. officer O'Rourke on October 13th, charged with attempting train wrecking. It will be remembered that on the night of Oct. 12th, a sleeper and large deal were found to have been placed across the track near Salisbury station, being placed directly in the way for the purpose of wrecking the midnight express. At the time the train passed the station several revolver shots were fired; one entered the train building and narrowly escaped hitting the right operator. Campbell was then convicted of the crime, was considered to be a mild lunatic.

M. M. Bruce, merchant tailor, Jewel Miller, of the dry goods firm of James Alexander & Co., and James Baird, pilot, left Campbellton on Thursday evening on a goose shooting expedition, intending to be back next day. They had a game fully equipped when they started down the estuary of the Restigouche. Although enquiries have been made in every direction not a trace of them can be found, but as the canoe bottom up has drifted into Dalhousie harbor, there is almost an absolute certainty that a fearful catastrophe has happened. Poor Bruce was the only married man among them, and leaves a wife and three small children. A deep gloom is settling on the community as the last vestige of hope disappeared. A large search party started down the bay this morning but their expectation is a forlorn one.

DOMINION ILLUSTRATED.—It seems that an unusually attractive CHRISTIAN NUMBER of THE DOMINION ILLUSTRATED is to be issued, and the public will await its arrival with interest. The publisher's announcement is correct, the number will be a remarkably rich one, and speak volumes for Canadian skill and enterprise. Its large colored supplements will be especially strong feature, one of them a 32-page work, illustrating the "Ups and Downs of Canadian Political Life," will be eagerly looked for in view of recent events.

Mr. J. W. Lawrence, one of the most respected of St. John, died on Sunday. Mr. Lawrence was a continental authority on our local history and has given to the public some valuable work on this subject.

Around Town.

NEW SIDEWALK.—A new sidewalk is being laid on Main St. between the hill and the Post Office.

SHIPPING.—The Herbert is now loading at the wharf with hay, lumber and oats for Barbados. She will also take 20 sheep to the Barbados or Demerara market.

FOR THE WORLD'S FAIR.—The Maritime Province exhibit of fruit and vegetables for the World's Fair was forwarded from Nappan yesterday. It goes to Chicago where it will be placed in the cold storage warehouse of the produce exchange until the fair opens.

THEFT.—Yesterday morning Percy Henderson was placed on trial, charged with breaking into the I. C. R. freight shed on Monday and stealing therefrom a case of whiskey. He pleaded guilty and was sent up for 30 days. Fred Estabrooks was charged with receiving the stolen liquor and was sent up for the same period. They were taken to Dorchester yesterday.

THANKS.—The members of the Sackville W. C. T. U. wish through the columns of the "Chignecto Post" to express their sincere thanks to those who so kindly responded to their request, and so ably assisted them to render the fair a success on the evening of Oct. 28th. They also wish to thank all others who in various ways contributed to make the entertainment a success. The program was given by their thanks to the managers of Music Hall for their generous donation.

GIBSON CLARK MOSHER.—The Dramatic Recital given by Mr. Mosher in Lingley Hall on Thursday evening last was attended by a small audience. The program was given was a short one and of selections which showed the reader's powers of elocution to advantage. Unfortunately several of the selections had lost their flavor of novelty, having been given to Sackville audiences on a previous occasion, but in all Mr. Mosher was successful.

MISSIONARY CONCERT.—Bethel was well filled by an audience on Sunday evening last to hear the Missionary concert given under the auspices of the W. M. A. Society. The secretary read a most encouraging report of the work already accomplished and the choir sang a number of well chosen and inspiring songs. Mrs. Clara Mosher and Miss Grace Clark read interesting papers, and excellent recitations were given by Miss Annie Ebbel, Miss E. J. and Master Bertie Bowser. Pastor Warren spoke with much warmth in relation to the good work which has been done by the sisters, and made touching reference to those who had recently passed away to the spirit land. A collection of nearly seven dollars was taken up in aid of the W. M. A. Society. Much credit is due to the Sackville W. M. A. Society, who have taken the lead this year among the N. B. societies in the amount raised for benevolent purposes.

PHOTOS.—We thank the people of Sackville vicinity for their patronage during the past four years and desire to say we shall be pleased to continue our endeavours to please and delight all who may favor us with their work in this branch of our business. Sackville Studio possesses an old and reliable camera, and is now equipped for all kinds of work. Special rates for the Xmas trade but would ask our friends to call on us for particulars. We may have plenty of time to give the work thorough attention.

Amherst.

—After a long and painful illness from internal cancer, Mrs. Curdy, wife of Amos Purdy, Esq., Postmaster, died on Friday night, the funeral taking place on Sunday attended by a large concourse of people. In all the relations of life, Mrs. Purdy was a most exemplary person. She leaves a husband and five children to mourn their loss. She was about 62 years of age.

—Mrs. W. B. Robinson of St. John has been visiting in town. Miss Hyde of Truro is a guest of Mrs. Henry Dunn.

—Miss Maggie Smith of Liverpool, Queens Co. is a guest of Mrs. K. H. Tremaine.

—The Misses Ross, of Truro, daughters of their Uncle the Mayor, and Mrs. Dunlop.

—Among the numerous gifts to Miss Dunlop on the occasion of her marriage, included an elegant gold watch and chain, from the groom and checkers to the amount of \$500 from the immediate relatives of the groom.

—On Friday evening last there were so many entertainments on the 'taps that only the ubiquitous individual could take them all in. The X. L. N. T., a society of young people in connection with the Baptist congregation held a social at the residence of Mr. and Mrs. A. D. Taylor which was very well patronized, and a good sum realized in aid of Acadia College. Mr. Clarke Mosher gave a reading in the Y. M. C. A. Hall, and in Christ Church schoolroom, the Rev. Winifred Smith gave a very interesting address on Mission work in India. Among the Indian women in which she was engaged for eight years and to which she expects to return in about two years time. She made a stirring appeal for help, as she has been working in the past almost single handed, and fervently hopes that many will be found in Canada ready to return with her.

It is not what its proprietors say, but what Hood's Sarsaparilla does that tells the story of its merit. Hood's Sarsaparilla cures.
