

GOOD TIMES IN THE FALL.

(Continued from Page 1.)

work, which it was thought each could best supply to the advantage of the Commission. The reason for giving the engineers a free hand in dividing the work was on account of the problem presented by the high voltage. The Cataract Company, for instance, carries a voltage of 40,000 on its line, and the Toronto & Niagara Power Company has a voltage of 60,000 over its lines. The high tension lines of 110,000 voltage to carry Niagara power, to Windsor and that district, or such a long stretch of territory, however, presents something entirely new.

That the Westinghouse Company was awarded a very important part of the contract is evident from the fact that it will completely equip the main station at Niagara Falls, the main switching station at Dundas, all the sub-stations in the different towns and the manufacture of the protective system for the transmission lines.

The main station at Niagara Falls, the step-up transformer station, where the commission receives the power at 12,000 volts from the Ontario Power Company and steps it up to 110,000, is the pivot on which the whole system will revolve. The main switching station at Dundas, while not a very large distribution station, will be one of the most important points in the system, as it has been selected for the branching of the lines, one to Toronto, a second north to Guelph and a third west to London. In an engineering sense it will be a very important station.

In east sub-station the Westinghouse company has been awarded the contract for high tension switches. In other words the Westinghouse company's 110,000 voltage switching apparatus will be in every sub-station on the system where the power enters and leaves the building.

The protective system for the transmission line goes with every sub-station on the system, and it has this function to perform. It must protect the public from the transmission lines in case of accident, such as a tree blowing across the line, the wires breaking or an insulator becoming defective. The Westinghouse engineers have worked out a scheme by which the part of the line affected will be "dead" while the operation of the other parts will not be interfered with.

Mr. Merrick informed the Times that while engineers had worked out the main features of the scheme, there were many small details in the engineering work that would keep the Westinghouse company's staff busy for two or three months. Actual work on the contract will be begun after these are arranged. "We expect it to extend over eight or ten months," he said, "and with the other contracts that we have on hand and our usual business we will be kept very busy."

In the fall it will likely be necessary to increase the staff considerably.

DISCUSSED ANNEXATION.

(Continued from Page 1.)

ris announced that petitions opposing annexation were being largely signed. Mayor McLaren corrected the impression conveyed by Ald. Morris' remarks as to why the Jockey Club was left out. The city could only deal with that district included in the petition, and the Jockey Club was not mentioned. No one was being forced in or left out.

Ald. Pennington sounded the slogan of a Greater Hamilton. An argument of what it was going to cost now was not in line with that idea, he said. No doubt the city would be under great expense for some years and derive little revenue, but in the long run it would mean a big saving, in this territory properly laid out with water mains and sewer pipes before it became thickly populated.

The City Solicitor at Ald. Farmer's request, reviewed the terms, which the annexation committee laid down.

The annexation problem was the only matter there was any discussion over. All the other reports were passed without comment and the session lasted less than an hour.

The recommendation of the Fire and Water Committee that Captain Robert Aitchison be appointed second assistant Chief of the Fire Department, met with unanimous approval.

Chief Ten Eyck was authorized to appoint eight lieutenants in the Fire Department, to assume command of the different stations while the captains are absent from duty, on days off, holidays, sick leave, etc., they to receive ten cents per day over and above the salary paid to first-class firemen.

The following legislation regarding moving picture shows was enacted:

(a) That in future no moving picture show be allowed to locate within the following boundaries: Barton street on the south, Barton street on the north, Wellington street on the east, and Caroline street on the west.

(b) That the Police Department be requested to so regulate the attendance that there will be no standing allowed in the aisles during performances, thereby making it dangerous in case of fire.

(c) That in future no license be granted or renewed unless passed by the committee having the license under control and endorsed by the City Council.

The Council approved of the Finance Committee's recommendation that the tender of the Dominion Securities Corporation, Limited, for the purchase of \$50,000 Waterworks debentures, \$65,000 Sewer Rates debentures, \$112,000 special debentures, \$125,000 Permanent Pavement debentures, and \$25,000 Public Library debentures; total, \$377,000, of the sum of \$373,646, be accepted, it being the highest.

A by-law was passed authorizing the laying out of a fifty-five foot street, extending northerly from Cannon street 280 feet northerly, to be known as Huntley street. Annie Milne, the owner will convey a one foot reserve to the city.

Annie Taylor, 37 years of age, for some time employed in the T. Eaton Company's upholstery department, was found dead in her room at 378 Victoria street, Toronto, at 12.30 yesterday afternoon. The cause of death was apparently heart failure.

James Belmont, employed as a fitter at the Gurney foundry, on Junction road, Toronto, died suddenly of heart failure at 7.15 yesterday morning, shortly after arriving at the foundry in apparently his usual health.

CLEAN DAY.

Pittsburg to Have One Day Devoted to Cleaning Up.

Spotless Town Wanted—Everybody Asked to Help.

Pittsburg, June 1.—For one day at least Pittsburg is to be clean, so clean that not a scrap of paper, a peck of lawn clippings, a rag or even an empty flower pot shall disfigure a yard or lawn. The Pittsburg civic commission has made arrangements with the city authorities to have a "clean city day." Every resident of the city, of whatever nationality or race, every fireman and policeman and white-collar and the department heads and finally the mayor, are to be enlisted in the cause.

The idea has been in vogue in Chicago for a few years. Originally that city was perfectly clean on "clean city days." The people liked the new departure so well that the next time the city was kept clean for two days; now the reform lasts three days, and it is hoped that eventually Chicago will be clean seven days in the week, month in and month out. The scheme is to be started in Pittsburg with the hope that eventually this city will be able to physically clean all the year around.

"Clean-city day" will be somewhere between the end of June and the middle of July. Circulars will be sent out broadcast, printed in English, Italian, Ruthenian, Croatian, Slavonic, Polish and Yiddish, telling the people the date, urging them to gather up all rubbish a day or two beforehand and to have it heaped up for destruction. A campaign will be conducted in the schools, the school children receiving instruction in the advantages of a city clean. Everybody will be notified that on the day set there will be a grand destruction of rubbish that is burnable and a hauling away of that which cannot easily be destroyed by fire. Policemen and white-collar will be stationed everywhere to see that the bonfires cause no damage to houses, the firemen will be doubly on the alert. Care will be taken that the precautions for a clean city shall not cause damage and that the smoke from the sacrificial altars to cleanliness shall be the only manifestation of the activities of the people aspiring to a clean municipality.

PRESIDENT TAFT

To-day Opened the Yukon-Alaska Exposition at Seattle.

Washington, June 1.—An interesting event at the White House to-day will be the opening of the Yukon-Alaska Exposition at Seattle by President Taft. He will touch a solid gold key, ornamented with gold nuggets from Alaska, and will transmit the electric spark that will start the machinery in the exposition grounds. He will receive messages from the exposition officials and will transmit one of congratulation and good wishes.

The ceremony will take place at 3 o'clock this afternoon in the east room of the White House.

The gold key which the president will touch was presented to him a few days ago by Secretary of the Interior Bellinger and the Washington Congressional delegation. It is said to be the most costly and unique instrument ever used by a president for similar purposes.

FOR VETERANS' MONUMENT.

The annual entertainment given by the Women's Westworth Historical Society on the anniversary of the battle is advertised for next Saturday afternoon. The proceeds will be in aid of the fund for the Veterans' monument on Smith's knoll. Admission is free. There will be ice cream, lemonade, tea, coffee, cake, etc., for sale. It will be a fine outing and the ladies hope to see a large crowd and realize a handsome sum to hand over to the Veterans.

The Illinois Legislature passed a bill declaring void apartment leases which prohibit children in apartment houses. The Governor has announced his intention of signing the bill.

C. O. C. F.

Those Who Will Go From Hamilton to Grand Council.

The Executive Committee of the Grand Council of the Canadian Order of Chosen Friends is meeting in the Palmer House, Toronto, and on Wednesday morning the Grand Council proper will be opened in the Temple building in that city.

W. F. Montague, Grand Recorder; W. F. Campbell, Grand Organizer, and Lyman Lee, Grand Solicitor, are attending the Executive meeting, and the following names will go to Toronto for the Wednesday meeting for their respective Councils:

Neil Taylor, Thos. Morton, John Maxwell and Rev. J. J. Towner, for Council No. 1.

T. Armstrong, W. L. Livingston and Fred Aldridge, for Council No. 13.

R. J. McCauley, William Amor and W. F. Miller, for Council No. 111.

H. James Rolla and A. E. Case for Council No. 118.

F. E. Woolverton, M. D., and John Phillips for Council No. 228.

A. Sayze and A. Oldfield for Council No. 234.

Considerable is being said and done relative to greater Hamilton, perhaps comparatively few citizens outside of the members have any idea of the work that is being done by this order quietly.

The reports at present being presented to the Grand Council show that for two years, 1907 and 1908, 75 new Councils have been established, and 9,505 approved applications. Nearly one million dollars has been received and paid out in the head office in this city, and, as intimated in the foregoing, there are six good Councils in the city of Hamilton, with a membership of about 1,400.

The Grand Recorder, Wm. F. Montague, reports the total receipts in all departments for the two-year term were \$841,399.67, and the total expenditures \$803,739.18. The gain in all funds for the year 1907 was \$78,598.48, and \$88,553.65 for the year 1908.

Dr. J. H. Bell, of Kingston, reports that the death rate from tuberculosis has been reduced from 25 per cent. prior to 1905 to 14 per cent. in 1908.

LOCAL EXAMS.

Important Change in Associated Board Music Association.

An important announcement is made in this issue by the Associated Board of the R. A. M. and the R. C. M. in reference to local examinations in music. In consequence of the termination by McGill University of the agreement for holding joint local examinations in music in the Dominion, the Associated Board will hereafter conduct its own examinations. The secretary will shortly visit Canada to make arrangements. The syllabus will be ready to issue to applicants in August, and in the meantime information may be obtained from Mr. James Muir, Secretary, 15 Bedford Square, London, England.

GOOD TEMPLARS.

The regular weekly meeting of the Britannia Lodge, I. O. G. T., in the Salvation Army Hall, Barton street east, last night, was well attended. F. W. Ambrose, Chief Templar, presided, and was accompanied on the platform by the D. G. G. T., John Porteous. Two candidates were initiated and two propositions for membership were received. After business a programme was presented by the secretary, taking the form of a whistling competition for the ladies, and a sewing competition for the men.

Messrs. F. S. Morrison and A. Campbell were appointed judges, and after each competitor had been granted a fair and equal chance, declared Miss Margaret Morgan and F. W. Ambrose winners, respectively.

Next Monday evening the officers and members of International Lodge will pay their first fraternal visit. A grand night is assured.

Galt and Return 90c.

With twenty-five cents added for admission to annual Home Show. Good going via Grand Trunk Railway system June 2nd, 4th and 5th; return limit June 7th, 1909. Secure tickets from Grand Trunk city or depot ticket agent.

POLICE CONTROL

The Situation in the Philadelphia Street Car Strike.

Steam Railroads Carrying Passengers in Outlying Districts.

Philadelphia, June 1.—Extraordinary efforts are being made to-day by the Philadelphia Rapid Transit Co., the majority of whose motormen and conductors are on strike for higher wages and better working conditions, to increase the number of cars in operation. Less than 50 per cent. of the cars are in operation, but conditions are slightly improved. Several hundred new men brought from other cities and picked up here since the strike was inaugurated last Saturday have been put to work under the protection of the police.

The Reading, Pennsylvania and Baltimore & Ohio Railroads are carrying more than ninety per cent. of the people from the outlying sections. Each company has opened new ticket windows, and extra equipment has been drawn from other sections to handle the increased traffic. There has been no effort made by either side to the struggle or by third parties to end the strike by peaceful means.

The police are in complete control of the situation. Two to four policemen accompany every car sent out from the barns.

The Hess sisters complete the bill with a pleasing singing and dancing act. Their act is dainty and refined, and they made themselves favorites.

At the matinee this afternoon Miss Lloyd will present each lady who attends with a photograph of herself.

"THE FIRES OF FATE."

London, June 1.—Sir Conan Doyle has written what he calls a morality play, dealing, he says, with the philosophic theory of life. "The point is," explains the dramatist, "that there is a design in the universe, then such common and powerful factors as pain are not chance phenomena, mere by-products of life, but are vital and necessary, serving a useful end. In this play, a man is tempted to take his own life. He does not take it, and the course of events shows him mistaken and foolish as well as wicked he would have been had he done so."

The play, which is entitled "The Fires of Fate," will be produced on June 15.

SCHUBERTS GET GOOD FAIR.

NEW YORK, June 1.—It is announced by the Messrs. Schubert that E. H. Sothern and Julia Marlowe have signed contracts by which they will continue under the Schubert management for the next three years. Mr. Sothern and Miss Marlowe will thus appear together in Shakespearean repertoire instead of appearing separately, as they have done for the past two seasons.

For the past few weeks Miss Marlowe has been giving occasional performances with Mr. Sothern, in connection with his engagements in Washington, Philadelphia and Boston. The enthusiasm with which these joint appearances—all in Shakespearean roles—have been greeted by the public, serve as the best possible argument in favor of the new arrangement. To-night Mr. Sothern and Miss Marlowe will begin a special engagement in Shakespearean productions at the Academy of Music.

The indications are that this engagement will be record breaking.

Mr. Sothern and Miss Marlowe will be seen not only in New York, but also throughout the country in the principal cities. They are especially selected to open the more important of the theatres which have been recently come under the management of the Messrs. Schubert, and the new theatres now being built by them.

All Quiet in Lima.

Lima, Peru, May 31.—Lima is quiet to-day, and the abortive revolutionary movement of Saturday afternoon has not been followed by any further disorder. The police are at present engaged in seeking Nicholas Pierola, a notorious agitator, and some of his adherents. There was a monster popular meeting in Lima this afternoon to protest against the outbreak of Saturday.

James Crawford, aged 65, hostler at the Arlington Hotel, Des Moines, committed suicide yesterday by jumping into the lake. Some time ago he became almost blind, and the town prepared papers and were about to send him to the Home for the Aged in Belleville. He has a wealthy brother in New York.

WANT PORTUGUESE.

Honolulu, May 24, via San Francisco, June 1.—The territorial board of immigration has received requests from the various plantations requesting that 2,000 families of Portuguese or other European laborers be brought here.

OUTDOOR SPORT & ZAM-BUK.

Every athlete, every ball-player, every swimmer, every canoeist, every man or woman who loves outdoor life and who, moreover, should keep a box of Zam-Buk handy.

Zam-Buk is a purely herbal preparation which, as soon as applied to cuts, bruises, burns, sprains, blisters, etc., set up highly beneficial operations. First, its antiseptic properties render the wound free from all danger from blood-poisoning. Next, its soothing properties relieve and ease the pain. Then its rich herbal balms penetrate the tissue, and set up the wonderful process of healing. Barbed wire scratches, insect stings, skin diseases, such as eczema, heat rash, ringworm, babies' heat sores, chafed places, sore feet—all come within Zam-Buk's power. It also eases and cures piles. All druggists and stores.

AMUSEMENTS

Theatregoers have reason to be thankful to Manager Appleton, of Bennett's Theatre, for re-opening the house for a short spell and presenting such a collection of stars as appeared on the bill yesterday afternoon and evening. Every number on the bill was endorsed and it may be truly said that the performance surpassed any given in that theatre during the season just passed.

The high-class bill is headed by Miss Alice Lloyd, one of England's favorite singing comedienne, and she is worthy of all the nice things which have been said in advance about her. She is a dainty and vivacious little lady, and is good to look at. In addition, she sings catchy songs in a bewitching way, and the audiences yesterday afternoon and evening could not get enough of her. She ingratiated herself in the hearts of her auditors with her winning smile as soon as she stepped before the footlights, and her songs elicited repeated encores. She sang five songs at the matinee and seven at the evening performance. And every one of them made a hit and set the gallery gods whistling. Her biggest hits were: "Another Pair of Stockings on the Line," "If I Were a Perfect Lady," "Come, Splash Me," and the song she sings to men in the audience whom she singles out by means of a mirror reflecting from the spotlight while the house is in darkness. Miss Lloyd is exceptionally generous in the matter of responding to encores, but the audiences would gladly have heard more of her.

Another English act is the two McNaughtons, patter comedians. They have a line of talk that is laugh provoking from the first, and the audience hear a lot of new jokes. The audience showed their appreciation yesterday by numerous curtain calls.

Harry Atkinson made a pronounced hit with his imitations of musical instruments. Banjo, harp, bugle, concertina and other instruments were perfectly imitated without the use of any device other than his hands and mouth. This act was one of the features of the programme.

The Asahi Japanese troupe presented a very novel act, including tumbling, juggling, balancing, magic. Some new stunts are introduced, the most mystifying being the production of sprays of water from fans, swords and various other places seemingly at will. There are six or eight people in this act, which is staged with the usual Japanese lavishness.

Tom Armstrong and Ella Verne, a clever team from Australia, presented a very quaint talking and singing act. Their stories, for the most part, were new. Their best efforts were in the vocal line, however.

The Hess sisters complete the bill with a pleasing singing and dancing act. Their act is dainty and refined, and they made themselves favorites.

At the matinee this afternoon Miss Lloyd will present each lady who attends with a photograph of herself.

A Splendid Collection of Summer Skirts

The best have been seen and only the best have been chosen by and hence a splendid collection of Summer Skirts. But to-day we announce an important introduction sale event. Come, it means big savings.

\$1.49, regular \$2.00 Skirts \$2.49, regular \$3.50 Skirts
\$1.98, regular \$2.50 Skirts \$2.98, regular \$4.00 Skirts

They are in Linens, India Head, Repp and Lawn; all gored, also pleated styles. Various trimmings of insertion and self strappings; colors in navy, grey and white; all sizes. A worth while sale event.

The Daintiest of Summer Wash Fabrics Are Here

It's hard to say anything specific by way of describing the wonderful wealth of beauty which under the prosaic term "Wash Goods" is on the main floor of this store. Everything of fashionable demand and novelty, everything of beauty, woven in cotton or mixture of silk and cotton—dress goods for Summer wear is here. In the midst of so much definite description it is impossible. Lastly just to mention we have the largest wash goods department, second to none in the city and stocked with everything new and fashionable. Prices range 10c, 12 1/2c, 15c to 75c yard.

NOTE—We have special departments here for making Summer Dresses, Suits and Separate Skirts. Enquire about it.

FINCH BROS., 29 and 31 King St. W.

Glanford

May Dickenson, of Toronto, is visiting friends in the vicinity.

Mr. Brooks will occupy the pulpit in Mount Hope Church next Sunday morning.

One week from next Sunday Mr. Russ will preach his farewell sermon in the Methodist Churches here.

Mrs. A. Young is lying dangerously ill at time of writing.

Mr. J. Cowie visited at Mr. Archie Reed's on Sunday.

Hon. Thomas Price, the Labor Premier of South Australia, is dead.

G. T
