The following Cure is probably the most remarkable over effected by any medical proparation for the treatment of Catarrh.  Gentlemen,—I hereby certify that I have, had Cutarrh for ten years, and for the last six years have been a terrible sufferer. I was rendered partial deaf, had buzzing in the head, pains across the ten ple, dizzy spells, weak and painful eyes, swolle and ulcerated tonsils, hard and constant cough severe pain across the chest, and every indication of consumption. My head ached all the time. The matter accumulated so rapidly in my head an throat that I could not keep them free. Frequently at high I would spring out of bed, it seemed to me, at the point of suffocation. I would then have recourse to every means in my power to dislodge.

ion of 25,250 to 48,375 qra. The supply of maize for the week was equal to 800,000 to 840,000 bushels, against an average weekly consumption in 1876 of 1,320,000 bushels, against 771,078 bushels in 1875. The cable of the 21st inst. reports the amount of wheat and flour on passage for the United Kingdom at that date at 1,263,000 qrs, being a considerable decline from the previous week. The quantity of wheat and flour on passage for the United Kingdom at that date at 1,263,000 qrs, being a considerable decline from the previous week. The quantity of wheat and flour in transit on the 7th inst was equal to 1,388,000 qrs, against 1,962,000 qrs at theorersponding date last year. The expected arrivals at the ports of call in the United Kingdom for orders during the four weeks from February 7th to March 7th, from the fleet of vessels on passage, as in the fawgoing, are 350,000 qrs, comprising 155,000 qrs, from American Atlantic ports and 195,000 qrs from California; and those of maize, same time, are estimated at 150,000 qrs, all from American Atlantic ports, and religious that the ground is getting into a good sondition for spring sowing, which has commenced in some quarters with the planting of peas. Imports had been moderate, and would have been smaller but for the Baltic having been left spea so much longer than usual. Home deliveries continued to very small. Continental advices state that in France the weather had been dry and cold, with a good dea of snow in the eastern and central departments. The appearance of the autumn sown cereal crops gives rise to no complaints. The country markets had been moderately supplied, but a good deal of the continued to take either. Fine qualities are wanted; selections would probably of qualities are wanted; selections would pro

Forty Thousand Machines are being Built, Steel Frames being Substituted for Wrought-Iron Frames, Malleable Iron chiefly used in place of Cast-Iron, Only Six Pieces of Cast-Iron in Combined Machines. (Weight thereby reduced over Three Hundred Pounds,)

Single Reapers, or Light Mowers. The result is that the "Champion" will be the lighest in weight and draught of any machine in the market, at the same time equally as strong and durable, and as free from liability to breakage as those built in 1877. The manufacturers are determined that it shall excel in every particular all other machines offered, regardless of cost, and have therefore taken this Unprecedented Step in Advance of all their Competitors in the manufacture of Harvesting Machines.
