

City News

CITY HALL NOTES.

W. Taunton, agent for the Heenan and Froude incinerator, arrived in the city last night to be present at the city council meeting this evening.

Today is the day for the hearing of the city-G. T. P. agreement before the railway commission at Ottawa.

BUILDING PERMITS.

Jno. Mackenzie took out a permit in the building inspector's office this morning for a residence to be built on Sixth street, close to Jasper avenue.

The total building for the month to date is \$171,205, and for the year to date, \$1,619,100.

COLLEGE WON.

The football match between Alberta College and the city team resulted in a victory for the College yesterday morning on the Second street grounds.

City—Goal, Orr; backs, Allen, Short (capt.), half-backs, Deaton, Curie, McDiarmid; forwards, Smythe, Orr, Orr, Taylor, Clemens.

College—Goal, Race; backs, Dixon, Lawrence; half-backs, Law, Bradley, Smith; forwards, Dixon, Grady, Haddon, Oakly, McDonald, (capt.).

City—Goal, Orr; backs, Allen, Short (capt.), half-backs, Deaton, Curie, McDiarmid; forwards, Smythe, Orr, Orr, Taylor, Clemens.

LOCAL

Sever rains are being laid along Namayo avenue and east along Isabella street.

Allan Bell of Horse Hills shot and killed a large lynx on Saturday 19th. This is the second capture Allan has made this season.

The Boys' Brigade were entertained after their return from the military manoeuvres by the Epworth League of Grace church.

The trencher owned by the Taylor Construction company made a foot per minute on Fifth street yesterday.

Mr. F. Bennett, manager of Ramsay's greenhouses left this morning for Vegreville, where he will give expert advice on laying out a twenty-acre park in that growing town.

J. C. Colburn, Chas. H. Richardson and William Harrison, all of Vancouver, who have been prospecting in the Yellow Head pass for six months, returned from the mountains today. They have no discoveries to report and do not take very seriously the story of mica and gold finds in Tete Juan Cache.

A concert will be given by the teachers of the city on Wednesday, October 24th in the Thistle rink. Mr. Harold Jarvis, the popular tenor, and Mr. Wallace Graham, elocutionist, have been obtained for the concert. The concert is in aid of the school piano fund and merits the hearty support of the citizens. Seats may be reserved at Archibald's drug store.

Calgary Albertan.—Another session by the arbitration board at present working on the settlement of the labor difficulty was held yesterday. The three men who are presenting the case on each side have already been heard, but it has been deemed necessary to recall several of them for further hearing. Another session will be held at two o'clock and there is a probability that all matters pertaining to the late difficulty will be settled then.

Mr. Walter Ramsay's greenhouses were thrown open for the inspection of the public yesterday and hundreds of people availed themselves of the opportunity to visit the place and get some idea of the extent of the industry. Mr. Ramsay has established an Irving's orchestra furnished the music and from two o'clock until six crowds continued to throng the place. The greenhouses which are the largest in the province are 107 feet by 150 feet, heated with a 550 h. p. steam boiler with over 11-4 miles of steam-piping, and contains 20,000 square feet of glass.

Mr. E. H. Redd and daughter arrived in the city last evening from Cranbrook B. C. to visit with Mrs. Dr. C. J. Redd.

The Edmonton Carriage Co. have disposed of their entire business, horses and equipments to Hardy Bros. The company was organized by Major Faton six years ago.

The Harold Jarvis-Graham concert will be held in the Thistle rink on Wednesday, Oct. 24th in aid of the piano fund of the public schools. Seats are now on sale at Archibald's.

Rev. C. H. Huestis, pastor of McDougall church, returns from his visit to the east this evening, and will occupy the pulpit of Grace church at 11 a.m. Rev. A. S. Tuttle will preach in McDougall church at the same hour. It is the regular monthly exchange.

Mr. O. R. Rowley, an inspector of the Bank of British North America, Montreal, who is in town, says his visit to Edmonton is simply to see the place of which so much is heard in the east and that so far as he knows, it is not the intention of the Bank of British North America to establish at the present time, a branch at this point which already seems to be well supplied with banking facilities.

Public school concert in aid of the piano fund next Wednesday evening, Oct. 24th in the Thistle rink. Artists—Harold Jarvis, tenor, Wallace Graham, reader.

Mr. Theodore Revillon, of the firm of Revillon Bros., returned last night from a three weeks' journey in the north. Mr. Revillon went as far as Slave Lake. He said the weather was clear and bright and made travelling a delight. The crops are good this year especially the oats, as much as 110 bushels per acre being reaped on one farm. He thinks that the country south of Lesser Slave Lake is a most desirable place for settlement and all that is required is good roads to reach it.

The Westminster Abbey choir are billed to appear in the Edmonton opera house October 22nd. The choir is under the management of Edward Braincombe, well known in musical circles. He organized the Westminster Abbey choir from the original choir that sang at the coronation of King Edward VII in the great abbey. They are now making a tour of America on their way to the Orient and are well supported by the American press.

SOCIAL AND PERSONAL

P. W. O'Flynn, LL.B., of Madoc, Ontario, is in the city.

P. W. O'Flynn, LL.B., of Madoc, Ont. is in the city.

Mrs. Sutter has issued invitations for a large "At Home" tomorrow afternoon from four to six.

Lieut. Basil C. d. Easum, of "C" squadron C.M.R., Fort Saskatchewan was in the city yesterday. He was one of the umpires in the military manoeuvres.

Miss Norquay entertained a number of young people at her cosy little home on Eighth street last night.

Mrs. P. T. Butchart arrived home last night by C.N.R. after spending six weeks among friends at Yorkton, Sask.

Mrs. S. B. Woods gave a delightful luncheon yesterday. Among those who gathered around the artistically decorated table in the autumn shades of brown and green were Madam McLaughlin, Swainsland, Walbridge, Thibault, (Dr.) Smith, Miss Gascogne.

Although the weather yesterday was not very propitious for calling, yet a number of callers wended their way to Government House where the gracious mistress, wearing an eminent "lovely gown of mauve chiffon, with overdress of white chiffon trimmed with tiny frills of silk eyelid embroidery, the bodice being composed of exquisite hand made lace, had a cheery word for all. The very attractive tea room was presided over by Mrs. Macdonald and her sister, Miss Kerr, of Cobourg, who is visiting her at present.

Mr. A. S. Roberts, brother of the late Chas. Roberts who died at Lesser Slave Lake a few weeks ago arrived in the city today to look after his brother's estate. He comes from London, England.

Mr. Theodore Revillon, returned last night from his journey to Lesser Slave Lake.

Why We Don't Break Through THE CRUST OF THE EARTH.

(By Prof. John Milne, F.R.S., the eminent British seismologist.) My experiments and those of others recording earthquake tremors indicate that our earth is at least twice as rigid as steel. We always find that seismic waves from points on the globe nearly opposite us travel much faster than any other waves because they pass near to the earth's centre or region of maximum rigidity. On the other hand we find that waves from points on our own side of the globe travel to us more slowly, since they come along shallow chords in the less rigid region.

These phenomena, invariably noted at all our seismic observatories, entirely upset the old theory that the earth's interior is a freely moving liquid and demonstrate apparently or crust is a mass very much more rigid than the crust itself.

It is so hot that everything would melt if it could. And everything does melt in a certain limited region, a sort of viscous layer, partly in its upper parts and solid down below.

This core is due to the pressure above, which at a depth of two hundred miles below the earth's crust amounts to six hundred tons to the square inch—probably enough to squeeze the molten rock and metal back into a solid state.

The earth's crust is quite elastic. It yields under the enormous pull of sun and moon. But a solid shell 312 miles thick would yield just as much, perhaps more.

THE WEATHER.

Minimum.....30  
Barometer.....30.55

BACK FROM THE PEACE RIVER.

A party of land prospectors consisting of R. Caldwell, Toronto, J. O. Stewart, Ross, Beatty, Prince Albert, J. N. Coulter, N. McLaughlin, Geo. L. Stewart, Saskatoon, have just reached town from the Peace River district. They found plenty of good land for settlement but at present the means of access to the far-famed region are being settled rapidly.

The party helped in threshing operations at Shaftbury settlement near Peace River Crossing. The yield of grain was large and quality very good.

Vegetables are grown in this settlement and the soil is fertile. The plateau above is fertile prairie and timber, sufficient for generations of settlers though at the present time the fear of frost has prevented anyone from breaking the soil.

The party left Peace River Crossing on October 1st arriving in Edmonton on October 15th after a pleasant journey via wagon and York boat. Mr. Footner of the Calgary Albertan writes an exploring and interesting article in his paper and who was returning with the party took a different boat from the upper end of Lesser Slave Lake.

A storm came up and the boat in which Mr. Footner was sailing was compelled to run to shore for safety. BIG FAIR FOR VANCOUVER.

Vancouver, B.C., Oct. 19.—A movement of great importance to Canadian and British commerce has been inaugurated towards holding an Occidental-Oriental exhibition in this city in 1910.

The Hundred Thousand club of this city has taken the project in hand and has begun a campaign on behalf of the undertaking.

The idea has been enthusiastically received and has already taken such shape that suggestions for making it not only a national, but an international event, have already been advanced in the local newspapers. The leaders of the movement urge that not only the Dominion and provincial governments, but also the British and Japanese governments could properly be appealed to for funds to carry the exhibition through successfully.

Lord Grey's speech at the Canadian club luncheon, given here last month, has been freely quoted in support of Vancouver's claim that an Occidental-Oriental exhibition, representing and encouraging the commerce between Asia and Australia, on the one hand, and Canada and the otherland on the other, could most fittingly be held at the Pacific gateway of the Dominion, the point where the Canadian highway between the Pacific and Asia crosses the ocean highway. There is every indication that Vancouver will make a strong effort to assert what the city believes to be its legitimate claims, and to carry out for the benefit of Canadian and British trade the biggest exhibition project ever undertaken in the Dominion of Canada, an exhibition that will be unique as representing the new order of things in the rise of the Pacific in the local newspapers.

The friends of the exposition state that can be financed for about one and a half million dollars and can be done cheaply because of the easily available timber. It is already proposed that when the fund is raised or the exhibition project is approved by the representatives of the bodies or governments subscribing to the fund, that the exhibition company shall build and erect its own steelwork to produce the material for the construction of the huge buildings that will be erected.

HOTEL ARRIVALS.

THE C.N.R. have completed the erection of a new station at Prince Albert.

The Moose Jaw board of trade are asking the C.P.R. to build a \$100,000 hotel in that place.

A free miner may obtain two leases to dredge for gold, five miles each for a term of twenty years, renewable at the discretion of the Minister of the Interior. A free or a certificate is granted upon payment in advance of \$5 per annum for an individual, and from \$50 to \$100 per annum for a company according to capital.

A free miner, having discovered mineral in place, may locate a claim 1,000 x 1,000 feet. The fee for recording a claim is \$5. At least \$100 must be expended on the claim each year or be paid to the mining recorder in lieu thereof. When \$500 has been expended or paid, the locator may, upon having a survey made, and upon complying with other requirements, purchase the land at \$1 per acre.

The patent provides for the payment of a royalty of 2-1/2 per cent on the sales. Placer mining claims generally are 100 feet square; entry fee \$5, renewable yearly.

Ynopsis of Canadian North-West.

Any even numbered section of Dominion Lands in Manitoba or the North-West Provinces, excepting 8 and 26, not reserved, may be homesteaded by any person, the sole head of a family, or male over 18 years of age, of the sex of one quarter section, of 160 acres, more or less.

Application for homestead entry of inspection must be made in person by the applicant at the office of the local Agent or Sub-Agent.

An application for entry or inspection made personally at the Sub-Agent's office may be wired to the local Agent by the Sub-Agent, at the expense of the applicant, and if the land applied such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.

In case of "personation" the entry will be summarily cancelled and the applicant forfeit all priority of claim.

An applicant for homestead entry, and only one application for inspection will be received from an individual until that application has been disposed of.

A homesteader whose entry is in good standing, and not liable to cancellation, may, subject to the approval of the Department, relinquish it in favor of father, mother, son, daughter, brother or sister, if eligible, but to no one else, on filing declaration of abandonment.

Where an entry is summarily cancelled, or voluntarily abandoned, subsequent to institution of cancellation proceedings, the applicant for insurance will be entitled to prior rights of entry.

Applicants for inspection must state in most particulars the nonstatute in detail, and if subsequently the statement is found to be incorrect in material particulars, the applicant will lose any prior right of re-entry, should the land become vacant, or if entry has been granted it may be summarily cancelled.

Notice—A settler is required to perform the conditions under one of the following plans:

(1) At least six months' residence upon and cultivation of the land in each year during the term of three years.

(2) If the settler (or mother, if the latter is deceased) of a homesteader, resides on a farm in the vicinity of the land entered for by such homesteader, the requirements as to residence may be satisfied by such person residing on the latter or mother.

(3) If the settler has his permanent residence upon farming land owned by him or his wife, or the homesteader, the requirements may be satisfied by residence upon such land.

Before making application for patent the settler must give six months' notice in writing to the Commissioner of Dominion Lands at Ottawa, of his intention to so do.

SECRET OF GOOD BREAD IS GOOD FLOUR

Semi-ready dress clothes are the highest expression of art in tailoring

The best tailor in town makes only 3 or 4 dress suits in a year. They are made with the hand, and their style and making are pretty much an experiment. That is why so many gentlemen look like water when they put on dress clothes.

The design of the Semi-ready dress suit is the work of a sartorial artist of the highest rank. The suits are tailored by men who do nothing else—they are specialists in the tailoring of dress clothes.

Semi-ready dress clothes are made of light-weight unfinished worsteds. The coat is delicately designed, as the parts are smaller than in any other style. The balance and lines are such as to show the figure at its best. The shoulders are broad yet natural form.

The Semi-ready dress suit is made with a longer lapel, rolling to within two and a half inches of the waist, with a considerable convex on crease, and a softened point at bottom of lapel instead of the usual harsh point.

On account of the carefully designed lines, the coat adheres closely to the figure, the skirt is more shapely and sets smoothly over the hips.

The skirts are longer, tapering towards the bottom with slightly rounded corners. The illustration shows these lines. If you wear a dress suit at all, it should be correct in style and tailoring.

We would like to show you how sumptuous the Semi-ready dress suit and tuxedo are. Will you call in?

SINCLAIR INDICTMENT DISMISSED.

(Bulletin Special.) Regina, Oct. 19.—The indictment against Sinclair is quashed by decision of the Supreme Court on banc this afternoon.

The decision on contraverted election appeals, on which rests all of the Saskatchewan election petitions, is held till 15k Monday next.

The court handed down an adverse decision on the Vinezar Magyar murder appeal case. In consequence he will hang on Nov. 29th. He murdered his employer, Campbell, at Frohisher, as the result of a wage dispute.

Application for homestead entry of inspection must be made in person by the applicant at the office of the local Agent or Sub-Agent.

An application for entry or inspection made personally at the Sub-Agent's office may be wired to the local Agent by the Sub-Agent, at the expense of the applicant, and if the land applied such application is to have priority and the land will be held until the necessary papers to complete the transaction are received by mail.
