

A Corset Talk!

We keep our Corset Department before our Customers. The success of the past several years of the "WABNER CORSETS" needs no recommendation. We always carry a range in this POPULAR MAKE to suit the figures of the Slim as well as the Stout person.

In addition to the higher grade goods the following well-known are always in stock:—

Trophy, 75 cents.
Monarch, 75 cents.
Star, 75 cents.

Marshall Brothers.

Boy's Body Found.

FLOATING IN THE HARBOUR.

At 8.30 a.m. yesterday the body of a boy was found floating in the waters of the harbour about 10 yards off the steamboat piers of Harvey & Co. The body was floating face downwards, and was noticed simultaneously by James Cox, captain of the schooner, of Fortune Bay, and Skipper Legrow, of the schooner, Messenger, of Bear Cove, C. B., both lying near the wharves. The men going up to Water Street apprized Head Const. Sparrow, who was on early duty, and he with Const. Frampton and Sergeant O'Hanlon repaired to the scene. They secured some canvas from Captain Legrow and putting off in a boat from the Messenger, and putting this under the body got it into the boat and put ashore, and going to the police station a stretcher was procured and the remains were brought up to the morgue. It appeared to be the body of a boy of about 9 or 10 years old and was dressed in blue cotton overalls, striped cotton shirt, dark pants and new shoes. The face and hands were very much decomposed, the flesh being pretty nearly gone off them. The police remembering that a boy named John Menchenon was reported missing since the 1st inst. communicated with his father, Mr. J. Menchenon, of Pope Street, and he quickly repaired to the morgue. The body could not be identified by the features, but immediately Mr. Menchenon saw it he knew it by the clothing, and he was grief-stricken at the sight of his drowned child. He said the boy was between 9 and 10 years old. About 10 a.m. yesterday Dr. Rendell visited the morgue and viewed the remains and later Undertaker J. T. Martin prepared a coffin in which he placed the little body last evening. The incident is a sad one. The boy often worked on Harvey & Co.'s premises at the steamers, and it is thought that being alone on the wharf at dinner or tea hour and jiggling tomcocks, a favorite amusement for boys of his age, he slipped overboard and made no outcry, and quickly drowned. The boatman left here about 1 a.m. yesterday and it is likely the suction caused by the propeller lifted the little body from the bottom where it had lain for nearly a month. Judge Conroy gave a permit for burial yesterday. The sympathy of the whole public will go out to Mr. Menchenon in his bereavement and in it the Telegram joins. Several people yesterday thought it might be the body of little Vincent Murphy, drowned out under the lighthouse last spring, but such was not the case. Mr. Menchenon positively identified the clothing which his son wore when he left his home on August 1st.

The DAIMLER "SILENT KNIGHT."

Enquiries: Address 71 Military Road, St. John's.
Log of Hon. J. D. Ryan's Daimler Silent Knight up to date—Mileage, 3,000; gasoline consumption, average, 24 miles per gallon; tyres, same set as started out on (Michels) in good condition; Stoppages on road, nil; Replacements of any kind, nil; General running power, flexibility, etc., most satisfactory.
Mr. Dawkins will soon be leaving for England and hopes to take with him many orders for next spring delivery, which will receive his utmost attention. With regard to his experience of Newfoundland where a car is asked to do practically double duty to that of England, he assures motorists that one and all that there is nothing left to fear in investing in the Silent Knight. It is not a glass case car but a thorough hard worker. Reliability, Simplicity and Extreme Economy combined—not forgetting the last word is **Luxury**.

Patients for Hospital.

A young man named Moses Norman, of Bay de Verde, arrived by the Fogota suffering from nervous trouble.
By the Portia there came a woman named Clara Miles, of Boxey, suffering from an inward ailment.
A boy named Aspell also came on the Portia. He injured his leg severely not long ago. He is from Cape Broyle and so had his leg that he can barely walk. Mr. Eli Whiteway looked after the patients and had them transferred to the General Hospital.

Also, 2,000 Yards WHITE LAWN, 38 inches wide, fine as silk, at 10c. per yard.

J. M. DEVINE, 302 Water Street.

A Dangerous Practice

When the Portia was berthing at Bowring's premises last night the pier was crowded, there being fully 500 people on it, and dark though it was, Capt. Fitzpatrick docked his ship, as an old salt remarked, "as if she were a punt." Nevertheless the captain recognizes and has several times spoken of the danger thoughtless people incur in crowding down piers while ships are docking, especially at night. At any moment on a ship there is the possibility of something going wrong either on the bridge or in the engine room, and should a ship strike a pier under conditions similar to that of last night the outcome would be horrible to contemplate, as many would be killed outright and many others drowned before aid could be brought to them. This might seem to be an alarmist view of the matter, but many commanders of steamers take the same view of this matter as does Capt. Fitzpatrick, and the sooner it is discontinued the better it will be for all concerned.

Passengers Prevented from Landing

When the Portia arrived here last night there were nearly 100 passengers on board, many of whom had come a long way on the ship, and were anxious to get ashore to see their friends. They were, however, kept from landing for fully 15 minutes by a crowd rushing up the gangway, there being a constant stream going over it for that period of time, until the passengers became riled and forced their way down against the others. For several minutes the opposing forces became jammed on the gangplank and for a time it seemed so badly under the weight on it that many thought it would break. Fully 70 per cent. of those rushing on board were girls who had no right to be there and were only impelled to go on board the ship by idle curiosity. Messrs. Bowring Bros. no doubt in future will put a stop to such a dangerous and unvarnished proceeding and the presence of a couple of policemen would be a good way to do this.

Sudden Death.

Messrs. John Power, of the Singer Sewing Machine Co., and J. Provise, had a harrowing experience in Fox Harbour, on Thursday last. While there they put up at the residence of Mr. John McCue, a decent, kindly disposed man, whom they both well knew. After family prayers had been said and as their host was about to retire he became suddenly ill and in three minutes was dead as the result of an attack of heart failure. His wife who was present was terrified, nor will Messrs. Power and Provise soon forget the experience of witnessing a friend being called hence so suddenly. Besides a wife he leaves three sons, two of whom were at the fishery, when their parent so suddenly expired.

The S. S. "Fante" arrived here at 8 p.m. Saturday after a run of 4 days, coal laden to overflowing. She will be laden with fish here for Europe.

Americans Will Buy

ALL THE GREEN FISH FROM BURN TO BOXE BAY.

We have it from Capt. Thomas Fitzpatrick, of the Portia, that American fish firms will buy up all the green fish from Burn to Boxe Bay, and that even the prospective voyagers of bankers yet out have been purchased as well as all the fish now on the flakes and in process of cure. The Gorton Fish Co., of Gloucester, have Mr. P. J. Power travelling the coast for them, and he has carte blanche to buy up every cod's tail of green fish that he can come across. The Robinson Export Co. have a man named Miller, of St. Pierre, working on the coast in their interests, and other American firms are taking all the green fish they can get and will buy up into the late fall or until the season's operations are over. There was never such competition for fish on this large stretch of coast before, and little if any will be left to come to St. John's. The prices given are good and average from 2 1/2 to 3 cents per pound, which calculating 224 lbs. to the dry qts. will run from \$6 to \$7 for it. Owners of the dry fish will ship it to Halifax and Europe from their own premises.

Squid Aquantant Outside

Saturday morning and evening squid were abundant in Cuckhold's Cove, just around the north head, and the dories from all the bankers in port were out there with their crews, catching them. The Elfin secured 22,000, Norman O. 40,000, Helena C. 40,000, and others in proportion. If the sport continues to-day all these vessels will secure a baiting and at least the three named will go to Comport Bight, Labrador, where they will fish for the next few weeks and finish up their seasons work. Fish is reported plentiful in this locality.

Rescue at Topsail.

An act of heroism was performed at Topsail yesterday that deserves more than a passing notice, and in which a prominent medical student proved himself a hero. It appears a young boat captain named after the famous discoverer of the circulation of the blood, was boarding a boat in which was seated a dentist, who was puzzling his brain as to why the auto horns called out "tooth(!!) tooth!!" In some unaccountable way the boat captain and the solitary occupant was precipitated into the water. Being unable to swim, he floundered about, was becoming exhausted with his fruitless exertions, and would in all likelihood have met a watery grave. There did not appear to be a ray of hope that he would escape death when the emical student plunged into the water and gallantly rescued his friend—pupie included. A large number of people who had gathered around and witnessed the heroic act, were loud in their praise, but the medical student hurried away from the crowd he evidently wished to avoid. It is said interested parties are taking steps to obtain the Iron Cross for the gallant rescuer.

GET POWER

The Supply Comes from Food.
If we get power from food why not strive to get all the power we can. That is only possible by use of skillfully selected food that exactly fits the requirements of the body.

Poor fuel makes a poor fire and a poor fire is not a good steam producer.
"From not knowing how to select the right food to fit my needs, I suffered grievously for a long time from stomach troubles," writes a lady from a little town in Missouri.
"It seemed as if I would never be able to find out the sort of food that was best for me. Hardly anything that I could eat would stay on my stomach. Every attempt gave me heartburn and filled my stomach with gas. I got thinner and thinner until I literally became a living skeleton and in time was compelled to keep to my bed."

"A few months ago I was persuaded to try Grape-Nuts food, and it had such good effect from the very beginning that I have kept up its use ever since. I was surprised at the ease with which I digested it. It proved to be just what I needed."
"All my unpleasant symptoms, the heartburn, the inflated feeling which gave me so much pain disappeared. My weight gradually increased from 88 to 115 pounds, my figure rounded out, my strength came back, and I am now able to do my housework and enjoy it. Grape-Nuts food did it." Name given by Canadian Postum Co., Windsor, Ontario.
A ten days trial will show anyone some facts about food.

Read the little book, "The Road to Wellville," in pkgs. "There's a reason."
Ever read the above letter? A new one appears from time to time. They are genuine, true, and full of human interest.

Portia's Fishery News.

By the Portia we learn that there is practically no fish on the shore from Cape Ray to Pigeon Point, though at St. Bride's, Saturday, there was another good sport and the dories (2 hauls each) loaded twice on the raw fliger. There is absolutely no fish in St. Mary's or Trepassy Bays. There is considerable fish on the Southern Shore and boats get 1 and 2 qts. daily, and strange to say though it is so late in the season traps which are yet out get from 5 to 10 qts. each day.

Photos for the Pope.

We learn that the handsome series of photographs taken by Mr. James Ver while the Papal Legate was here and which include the arches erected, views of the Illuminations, landing of His Excellency and pictures of the demonstrations in his honour, will be forwarded to His Holiness Pope Pius X. They will be bound together in the shape of a handsome album and will certainly be a handsome souvenir of the hearty reception given the representative of His Holiness in Newfoundland.

May Get Medal.

The Firemen's Union not long since saved Mr. Jas. Brown, who saved the life of Leonard Miller by jumping from the Florida's deck on the night of June 16th, while a thunder storm raged, a handsome gold medal. Now friends in the city are moving to have the modest but heroic young man receive the Royal Humane Society's medal and also to share in the Carnegie Hero Fund. He well deserves both.

Jackman and Mitchell.

A quiet wedding was performed on Wednesday afternoon last at the Church of England Cathedral, when Miss Agnes Jackman, daughter of Wm. Jackman, Esq., of Bale Verte, was united in holy wedlock to Kenneth Spence Mitchell, Esq., son of Wm. Mitchell, Esq., station agent at Bonaventure. The bride was attended by Miss Agnes Seymour and Emily Mitchell and Mr. E. B. Lewis acted as father giver. The groom was supported by Mr. Alex. Mitchell.

This is to certify that I have used MINARD'S LINIMENT in my family for years, and consider it the best liniment on the market. I have found it excellent for horse flesh.

(Signed) W. S. PINRO.

"Woodlands," Middleton, N.S.

Portia's Banking News

Capt. Jno. Smith's banker, Gladys, arrived at Mr. Breton a couple of days ago with the splendid fare of 1000 qts., and she has now the fine aggregate of 2,200 qts. for 5 dories. All the bankers of Grand Bank, St. Jacques and Belloram are either on the banks or in quest of bait. Five American vessels are at Burgeo looking for bait but squid are very scarce all over the coast.

Forest Fires North.

Unless copious showers of rain soon occur great destruction to property is probable to the northward. When the Fogota was passing Catalina the whole forest near that town was ablaze and threatening its destruction. In other parts of Trinity Bay, and also in Bonavista Bay, fires are raging. The two fires near Bishop's Falls are being looked after by men from the A. B. Read and A. N. D. Co.

An Outrage on English Jews.

Newport, England, Aug. 24.—Rioting occurred last night at Bargood on the Olamorgan border. A dozen English and Jewish shops were wrecked and looted. Troops were called to the assistance of the police and dispersed the wreckers.
No further rioting has occurred in the Monmouthshire valley towns, but the threatening attitude of the mobs at Tregar and Rhymney necessitates the presence there of the soldiers.

In an interview to-day Rabbi Leibowitz of Bbbsvale said:—"I cannot explain the attacks upon the Jews. I know no reason why these attacks should be made. Some of the Jewish shopkeepers have lived here for 15 or 20 years and are much respected. It is some consolation to feel that the attacks are not shared by the community in general, but merely by the boogian section."
It is reported that Jewish families in other parts of South Wales are taking flight in fear of the extension of the outrages.
