

**Spurious Coin.**

"Pushing the queer" is again going on in the city and the practice is being indulged in, it is alleged, by members of the ne'er-do-well gentry. A few days ago an unknown fellow visited a small shop, which is conducted by an aged and semi-blinded woman, in the vicinity of Monkstown. The visitor "blew" himself on milk and cakes to the tune of 20 cents. For the amount of stuff consumed he deposited a counterfeit shilling which was worthless as the fellow himself, needless to say the old lady received the coin thankfully. The visitor left and shortly after the old lady had occasion to count her cash. She suspected that the 20 cents piece given her by the last customer was not genuine because it had not the usual sound as when she dropped it on the counter. It gave a thud which with the old lady consulted a next door neighbour who examined the coin and tore it asunder. It did not contain the smallest fraction of silver. The customer had then made himself scarce, so it was no use getting after him. To take such a mean contemptible advantage is nothing short of an outrage and merits severe punishment.

**Where Responsibility Lies.**

No matter how large, or how small, a business may be, nobody can deny that its Office is the nerve centre of the firm. Every transaction, important or trivial, must be recorded at the Office. An order is received at the Office, its history is recorded at the Office, and finally payment is received at the Office. If the Office makes an error the firm stands the loss. That's why you must be sure that your office is modern and dependably equipped for the care of all important papers. To do this effectively you need the up-to-date equipment of the "GLOBE-WERNICKE CO." When sixty offices in St. John's have found this necessity this equipment can surely be of use to you. Mr. Percie Johnson represents this world known firm in Newfoundland. ap17,12

**Baseball Meeting.**

A meeting of the Baseball League was held last night, at which Mr. J. A. Havermale presided. Arrangements were made for Monday's game, and the usual routine business was disposed of. It was decided that the postponed game between the Cubs and Red Lions will be played at 10 a.m. on Monday next and the game between the B.I.S. and Wanderers at 3 p.m. Arrangements were also made for the series of preliminary games in connection with the Mt. Cashel Garden Party which takes place on July 20th. The first of the series will be played on St. Bon's grounds, and on Thursday next at 6.30 p.m., the contesting teams being the B.I.S. and Wanderers. An admission fee will be charged and the proceeds will go towards the Garden Party funds.

**The Local Fishery.**

Last evening fish were found in abundance on the local grounds. This morning the waters were again teeming with cod and at an early hour several boats, deeply laden, could be seen entering the narrows. Thus far the fishermen of the Battery and St. John's generally have landed more fish than for the same period last season, though it may be said that a certain fisherman of the South Side, on the local grounds and who was highliner last year, has not a cod's tail under salt now.

**Personal.**

Mr. D. P. Toomey of New York City, editor of the Columbian, the official organ of the Knights of Columbus, is making the round trip on the Florizel.

Messrs. F. J. Ryan and J. D. Savin, who have been studying for the priesthood at St. Mary's Seminary, Halifax arrived by the Florizel yesterday to spend their vacation with their friends.

Lady Outerbridge who had been visiting friends in England returned to the city by the Florizel yesterday.

Hon. J. R. and Mrs. Bennett arrived in the city by the Florizel yesterday and were accompanied by their two sons Raymond and Sydney who will spend their vacation here.

W. G. Smith who returned from Canada last week is forming up a company to incorporate Callahan, Glass & Co. into a Limited Liability Company. John Callahan transferring his interest to the new company and continuing as the practical member of the firm. A. W. O'Reilly retiring from the business altogether whose place will be filled by W. G. Smith, as business manager. Under the new management we predict a great success for this old reliable and well established firm.

**Try Again.**

You have, it may be, used ointments, pastes, lotions for Eczema till you begin to get tired of trying things. Well, but you should remember that science is advancing all the time, and that what was not possible yesterday can be accomplished to-day. If you neglect to try Zylex—the newest and best thing that science has yet to offer for the relief and cure of Eczema and other annoying and disfiguring skin diseases—you are missing a great opportunity. It may be that it will cure you. It has cured some very bad cases. Price 60c. a box. Zylex Soap. 25c. a cake.

**Having Enjoyable Trip.**

Fifty two round trippers arrived by the Florizel yesterday. Speaking to a Telegram representative they say that the run down here was most enjoyable, though dense fog was experienced since the ship left Halifax. Owing to atmospheric conditions very little time could be spent on deck and so an interesting series of concerts and entertainments was held, all of which were thoroughly enjoyed. Amongst the party are some excellent musicians, to say nothing of the many other entertainers on board.

Last evening the whole party were entertained at Smithville by Mr. W. G. H. Mason of Brooklyn, who is a round tripper on the ship.

An excellent lobster supper was held, and was followed by an interesting toast list interspersed with songs and recitations, after which dancing was indulged in until after midnight. To-day they visited Bowling Park and other points of interest in the suburbs.

**Famous Surgeon in St. John's.**

Dr. John D. Adams, of Boston, Mass., the famous surgeon, who will attend to the Greenell Hospital at St. Anthony during the summer months, arrived in the city by the Florizel yesterday. While in the city he will attend to those suffering from deformities, and for this purpose a register has been opened at the Institute where persons wishing to consult him may apply. Dr. Adams will leave for the northward by the next Prospero.

**St. John's Gas Light Company.**

Dear Sir,—I have analyzed a sample of Sulphate of Ammonia made at your Works and I found 20.5 per cent of NITROGEN, Sulphates of Ammonia and Nitrate of Soda are the two principal Nitrogen manure.

Sulphate of Ammonia is less soluble than Nitrate of Soda, consequently it is a safer manure to use during a wet season.

Yours truly,

**More Fires.**

Fires provoke immediate sympathy for the sufferer and also thankfulness for personal escape. Another thought should be whether one is personally and sufficiently protected? An insurance policy with Percie Johnson would provide for you this desired security and at small expense. Have you enough insurance?

**Jack Graney.**

Red McGhee says:  
John Gladstone Graney!—So many name mates. The prex of our United States could well be proud of such. But Jack ain't strong on politics. The diamond's where he pulls his tricks with Spalding's one-stick cricket.

**Red McGhee**

The printers score his high-brow name in settin' box scores of the game an' cut the front away. But that ain't bother J. G. G.—Nt! Never! He's no readin' gee. He jus' was born to play.

Outfieldin' for the luckless Naps, he turns in two en' three base taps as regular as the clock. An' it ain't any fault of his if they can't work the follow biz to add runs to their stock. I like to watch him on defense. His fielding stride is sure immense,—it's worth your ol' six bits. His legs are fat an' look like bows an' like a kangaroo he goes out cuttin' down base-bits.

Jack used to pitch some years ago. His ol' south wings still there to show he must have had some speed. They don't stretch hits that go to Jack. They're hardly out there when they're back. "Don't hold 'em!"—that's Jack's creed. An' he ain't no slow-goin' skate at nallin' runners at the plate—for all-round stuff he's brainy. A brilliant comert?—Star?—Well, no. The game would be the leaser, though, without J. Gladstone Graney.

**Minard's Liniment Co., Limited.**

Dear Sirs,—This fall I got thrown on a fence and hurt my chest very bad so I could not work and it hurt me to breathe. I tried all kinds of Liniments and they did me no good.

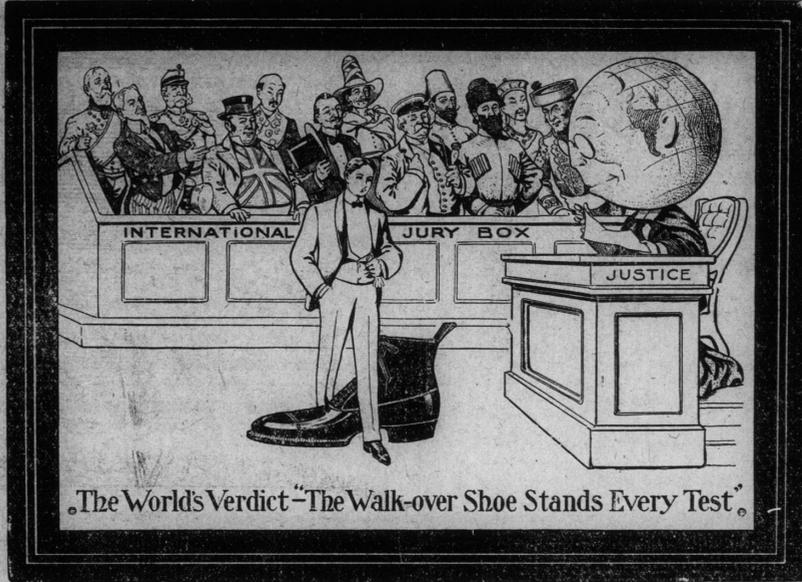

One bottle of MINARD'S LINIMENT warmed on flannels and applied on my breast, cured me completely.

**Use Short Words.**

A man who acts as tutor and companion to a young boy wrote this indorsement on one of the boy's compositions: "Use shorter words—follow the example of Horatio Seymour: This is part of an address delivered by him to students in 1878: 'Short words, like love, hate, or zeal, have a clear ring which stirs our minds or touches our hearts. They but tell of joy or grief, of rage or peace, of life or death. They are felt by all, for their terms mean the same thing to all men. We learn them in youth; they are on our lips through all days, and we utter them down to the close of life. They are the apt terms with which we speak of things which are big, or great, or noble. They are the grand words of our tongue they teach us how the world was made. "God said, "Let there be light and there was light." Mark the words of more than one syllable.—New York Tribune.
