

## Municipal Council.

## WEEKLY MEETING.

The weekly meeting of the Council was held yesterday afternoon. Mayor Cook presided, and Councilmen Martin, Oakes, and Vincombe, and Mr. Ryan and Downen were present. After confirmation of minutes of previous meetings, the following business was given consideration.

Deputy Minister Finance Keating acknowledged receipt of cheques for \$22,292.36 and \$7,000.00 respectively, being payment of amounts due for interest City Debt and contribution towards upkeep of Fire Department for December 31st. Last, thereby liquidating the indebtedness left the present Board by their predecessors. A cheque was also forwarded the Treasurer Department during the past month for \$49,187.46, in payment of interest City Debt and contribution to Fire Department for the half year ending June 30th last.

Mr. C. J. Fox wrote in reference to the condition of Kenna's Hill, and asked that same be given attention. This road is already receiving the attention of the Council's Road Committee.

Mr. N. W. Chown referred to the petition submitted by the residents of New Gower Street to the late Commission, asking for better lighting facilities, Lime Street. Same will be given attention by the Lighting Committee.

Mr. J. T. Nash asked that some repairs be made to Adelaide Street, north of New Gower Street. This street, owing to the recent rainstorm, is practically torn up, and is dangerous to vehicular and pedestrian traffic. The Engineer will have same attended to.

Request of W. P. Caul, regarding alley fronting his premises, Flower Hill, asking that same be moved a few feet from its present position, was referred to the City Engineer.

Walter Goss, Plymouth Road, again called attention to the inconvenience caused him, owing to persons being permitted to excavate for cellars and grow the gravel on sidewalks. The Engineer pointed out that the property was partly private and partly public. It was ordered that the persons responsible for blocking the sidewalk in this way be compelled to have the gravel carted away immediately.

M. W. Myrick, Military Road, wrote in reference to placing of concrete curb and gutter in front of his premises, and intimated that if the adjoining residents were approached they would very likely be willing to co-operate in improving this thoroughfare. It is decided to communicate with them.

During the past week, the Council held a special meeting in order to consider the petition received from the residents of the Battery Road district, and on Monday last visited the place in question to see what could be done to meet with the wishes of the petitioners. The placing of water and sewerage in the locality and the improvement of sanitary and road conditions would be such a costly undertaking as to be beyond the means of the Council, but they are prepared to do something, and the petitions will be communicated with regarding same.

The following plans were passed, subject to the approval of the City Engineer:—A. H. Murray (extension for landing coal) Water Street; D. J. Pearce (dwelling) Golf Avenue; Church Lads' Brigade (extension to Amory) Harvey Road; T. Coyne (extension) York Street; Bert Hayward (extension to garage) Water Street, West, subject to the usual conditions.

The City Engineer reported on the work done in the City during the past week. He stated that twenty houses were examined and any necessary repairs effected; that the Reservoir, at corner of Cookstown Road, is being opened for examination, while the work of repairing Job's Bridge has been completed.

The widening of the Waterford Bridge Road, which was temporarily suspended during the past couple of weeks, will be resumed next week, and the road will be widened east of Mr. Cousens property.

Health Officer Brehm reported two cases of Diphtheria and one of Scarlet Fever in the city for the week.

It was brought to the notice of the Board that a number of owners of houses on Colonial and Patrick Streets have not installed sanitary appliances, although notified to do so. It was ordered that, as soon as the time allowed expires, legal proceedings are to be taken against the persons in question, and the Plumbing Inspector will be instructed to have this order put into effect.

Several routine matters were disposed of, accounts presented were ordered paid.

There being no further business, the meeting then adjourned at 8 p. m.

**AUTOMOBILE TIRES.**—We have a small shipment of Tires which will be sold at bargain prices. All new. Different sizes. Also 30 x 3 1/2 Tubes.—E. D. PURRELL, 365 Water Street, Sept. 22, 1922.
