To accept good advice is but to increase one's own ability. - Goethe.

We've two propositions to make you. The first-to save you a few dollars dur-

ng these summer months. The second-to save you one-third of the drudgery of your grinding housework.

We can't afford to make random statements, and wouldn't do it for the dollar or two (and the setback to business) we'd get from you for doing so.

You'll positively run a GAS STOVE as cheap or CHEAPER than the one you're using-be it coal, wood, oil or gasoline.

You'll be up to the times, save the HEAT, the DIRT, the DRUDGERY, that tired feeling, all those kitchen ills that you have been complaining of ever since you can

Our third proposition (it's free) come in and see us about this matter.
