only one load being brought in. This sold for \$1 30 a cwt. Raspberries Coming In

Raspberries are coming in a little more plentifully, this morning's supply selling at 15 cents a box retail, and 14 cents wholesale. The rain will do a certain amount of good, but the crop has suf-fered too long a dry spell to prolong the season very much or increase the crop to any appreciable extent. strawberries of poor quality sold at 11 cents a box.

There was practically no butter or eggs brought in this morning, and prices remain unchanged.

A few loads of dressed pork went off

at \$11 00 to \$11 50 a cwt. This is a noticeable drop in price which has been expected for some time. Following are the quotations:

TORONTO, July 11.—Conditions were much the same at the Union stock yards for the commencement of the week's trade as the end of last week left them. Prices of cattle on the whole were not changed much. There was a slightly easier tendency, especially in the finest grades of cattle, which was the result of persistent efforts to bring them to a lower level, but the desired effect was not reached today. But despite the fact persistent efforts to bring them to a lower level, but the desired effect was not reached today. But despite the fact that the buyers wanted ot get the anitbat the buyers wanted to get the anidisposed of by 11:30, the majority of those remaining in the yards at that time being cows of the commoner varieties. Trading was fair. The quality of the cattle was of an average standard. thes. Trading was fair. The quality of the cattle was of an average standard. Calves seemed a trifle higher than on the last market day. They ran from \$3 to \$7, with about \$6.50 as the verge. Sheep were easier. Light ewes sold at from \$3.50 to \$4.50, and heavy ewes at from \$3.50 to \$4. Lambs ranged from \$7 to \$8. A large number of them changed hands at the latter figure. The same levels as obtained the last market day ruled for hogs again today. They were quoted at ogs again today. They were quoted at 8 75 f. o. b., at country points, and about 9 15 fed and watered. The receipts of tock were 3060 cattle, 31 calves, 839 sheep and one hog.

CHARLTON TO GO FREE

Not Likely That Washington Will Honor Extradition Papers,

New York, July 12.—Only a word from the state department at Washington is necessary to set Porter Charlton free. This was made apparent today, when Prosecutor Garven was told that unofficial advices from Washington indi-cated that the United States Government not grant the request of the Italian Government for the extradition o Italy of the confessed wife-murderer. "If the United States Government sends word to me to the effect that it will not honor the extradition papers from the Italian Government, I will not hold the prisoner any longer," said Mr. Garven.
"I am simply holding him now to await the decision of the Government in the case. If the Government fails to act in sixty days, he will be liberated anyway." Mr. Garven is the prosecutor for Hud-son County, N. J., in which jurisdiction Charlton has been confined since his ar-rest on arriving here from Italy.

WAR ENDURANCE FOR THE FLEET

London, July 12. - The war endurance of the English fleet is to be put to a severe test during the present naval manoeuvres. Efforts are to be made to keep all the ships engaged, with the exception of torpedc craft and submarines, continuously at sea during the four weeks the manoeuvres last. No ship is to enter port save under very exceptional circumstances. Communication with the shore will only be made by wireless telegraphy and by a regular service of scouts and dispatch vessels. The problem will not perhaps be as great as appears at first sight.

Every ship of any size in the navy is supposed always to carry food and general stores enough to last six weeks It was known, too, that when Sir Arthur Wilson went to the admiralty there would be less consideration than ever given to the luxurious life, and more than ever before to stern and Spartan preparation for war. The coaling difficulty will not be serious. Every armored ship can carry from 2,000 to 2700 t,ons of coal, and, at an ordinary cruising speed of ten knots this is sufficient to carry them from seven to eight thousand miles. For the shorter radius this shows for 700 hours' steaming, and if the ship is under way for, say, sixteen hours a day on an average, the ful supply of coal would last more than forty days. Smaller craft, such as destroyers, will need to have their bunkers replenished if they are to remain at sea for anything like four weeks, and they carry only from 60 to 150 tons of fuel. The admiralty, no doubt, will charter colliers for this purpose, but the navy has its own vessels for conveying oil fuel.

Tender Accepted. The tender of the Northern Electric Company, Toronto, for 100,000 pounds of weather-proof wire for the Niagara power distribution line of this city, was of the Northern Electric confirmed yesterday by the water missioners, and the contract signed

wire will be delivered at an early date. Tour of Inspection.
