OLD AGREEMENT BASIS OF THE NEW

Ex-Mayor Judd Says That This Should Be the Case With the Grand Trunk.

WHAT CITY WAS TO GIVE

Assessment Was To Be Fixed at \$350,000 For a Term of Fifteen Years.

The old agreement between the Grand Trunk and the city of London regarding track elevation should be

This is the view of ex-Mayor J. C. Judd and the members of the council whe in 1906-07 conducted the negotiations with Mr. F. H. McGulgan, then general manager of the company, It 61/2 should suffice.

In explaining the old agreement, Mr. Judd, who is now police magistrate, pointed out that it was a most favorable one to the city. ,

It included subways at the Wharnstreets, with overhead bridges at Rec-Saturday Appeared To Be Red to cost \$100,000, the city to fix the will be at the next practice, Tuesday

To Furnish the Basis.

"That in brief was the agreement," said Mr. Judd. "I think it was the most favorable one that could be obtained for the city, and I doubt that as the future agreement. In 1906 and 1907 the Grand Trunk was willing to ument at present in the hands of City combat the evil was shown in police Clerk Baker. In 1912 they should be less than that should satisfy the city, and in my own judgment, the agreement should be adhered to as strictly as possible. It would not have cost the city much for land damages a few years ago. The subway at the Wharncliffe demonstrates that clearly. All we had to do there was fix the assessment of the company at \$350,000. With all their improvements the capany anticipated that the assessment would

amount to \$700,0000. Fifteen-Year Exemption.

"We agreed to cut this in two; in other words, we were giving them bac ktwice of late. This morning he an extension of \$300,000 for fifteen years. At 20 mills or thereabouts on the dollar, this would have amounted to, in rough figures, \$7,500 a year, or George Gatty took a notion to a real approximately \$100,000 for the term. It

"This is an important question, and the old agreement forming the founfications may be made, but the ind weight in the negotations of 1912. The city council made a grave mistake

Several of the old members of the name is on the Indian list, but he was cal that as good an arrangement could

Mayor Is in Earnest. Mayor Graham declares that the ouncil will go after the Grand Trunk

Railway in earnest. "We will go after them, and bring them to time," he stated. "That has been my mind ever since the beginning of the year, and I have not money for liquor, with which he gains changed since then. What will be done, has not yet been decided upon. We will merely start the preliminaries

Other members of the council were interviewed, but the question was rather big for them yet to handle, and they did not venture any definite opinions as to what they would demand of the company.

What They Say.

Ald. Ashplant-It is a big problem. scarcely know what to say as 'yet. have not gone into the matter. Ald. Richter-We can make up our minds that we shall have to pay something for track elevation. Our aim will be to et off as lightly as we possibly can. We should have our case well in hand when it comes up.

Ald. Rose-It looks as if we shall have to pay something to get rid of the level crossings. If we get a new station and some other improvements, at reasonable figure, we will have don-

Rev. W. R. McIntosh Thanks Congregation for Their Support.

At the service in King Street Presbyterian Church on Sunday even. ing. Rev. W. R. McIntosh, the eventor, expressed his thanks to the congregation for the support given him during his first year in London.

"It is just a year," he said, "sinc first came here. They say that a ew broom sweeps clean. It is also said that the people all flock to hear new minister, but they soon tire of nearing him every Sunday, and they soon fall off, until only the faithful few are left. However, I am glad to say, that I believe there are just as many in ehis church tonight as attended on the first night that I preached. I thank you for your kind acceptance of

ny humble ministrations. "King Street Church ahead. Let us make the second year an even brighter one than the past has been. Let us pull together, and we need have no fear of the future."

RAILWAYS REFUSED ENGINEERS' DEMANDS

Forty-Eight Systems Have Refused Request for Increased Wages.

[Canadian Press.]

New York, March 25 .- The reply of the forty-eight railroads to the demands of the locomotive engineers for increased wages was ready for submission today at a meeting of the committee of engineers, headed by Grand Chief Warren S. Stone of the Brotherhood of Locomotive Engineers, and a committee of twelve vice-presidents and general managers of eastern rallroads who have drafted the answer.

While the nature of the reply has not been disclosed, it is said to contain a general refusal of the demands of the locomotive engineers, and that following its submission an adjournment will be taken in order that the engineers may consider it.

Members of both sides agree that whatever the reply may be that further negotiations are most likely, and will doubtless continue until an amichave decided objection to raising the able adjustment of the wage question tracks such as was planned some years is arrived at. At two previous conferences of the engineers and railroadand then build subways, and we shall men the reasons for making the wage ing members, 91 for and none against, be perfectly satisfied. The plans have been in the ourse of preparation for some time. When the difficulty at the city arose between General Manager Glaubitz and the various other civic employees, he added sufficient room to the new building to accomodate all the staff of the water commission, including the office as well as the engineering and clerical staffs.

The proposition to move all the offices there was placed before the water commissioners by Mr. Glaubitz, and it

They include that utilized by General Manager Glaubitz upstairs in the auditorium, the rear portion of the former city engineer's office, and that formerly occupied by City Treasurer pleted the water commissioners Bell and his assistant.

The water commissioners will move | electrical staffs to continue their work unmolested, and unhampered, claimed, by the jealousies and illtemper of the other departments. Result of Row.

The action of the board is said to ave been taken as the direct result of the trouble between City Treasurer Bell and General Manager Glaubitz over the location of some show-

ases in the city hall. There have been other quarrels, ome of them published, many of them inknown to the public. In other words, there is a great deal of friction be tween the electrical department and other departments, it is claimed, and the commissioners have come to the conclusion that the best method of getting away from the trouble is to remove the offices elsewhere.

A Surprise. The announcement of the change came as quite a surprise to the aldermen and others. Considerable money has been expended in changing the offices at the city hall about, largely for the accommodation of the water commissioners' employees, and some riticism of the sudden action of the

oard is heard today. What effect this will have on the construction of the new city hall is not known. Some modification of the lans for this structure may be necessary, if the water commissioners aro not going to occupy a portion of the building.

However, there is every likelihood that the commissioners will occupy a certain portion of the new hall. It is expected that by the time it is comneed all the space at the Horton The move to Horton street will give street plant for other purposes, and the staff plenty of room for all pur- the office staff will have to be transposes, and will enable the water and ferred to the city hall once more.
