Victoria's Lacrosse Champions Again Lower the Colors of the Westminsters.

Arrangements for the Tennis Tourna ment Opening To morrow-Gossip of Other Sports.

The lacrosse fever was epidemic in Victoria yesterday. Everybody seemed to catch it, and the burning question of the hour was, "Who is going to win the match to-day?"

From outside places swarms of excursionists came to see the game. Nanaimo and other points along the E. & N. sent down a great number of spectators, while in addition to those who came over from Vancouver the night before, a big contingent arrived by the Yosemite to see the mighty-struggle between the Westminster and Victoria teams. That there was going to be a grand game was generally anticipated, and that expectation was fully realized. The play was fast the checking good, and though Victoria two by three goals to two, the visitors have no reason to be ashamed of their defeat. They played well, but the white and blue victors went them one better. It was perfect lacroses weather, bright and sunshing victors went them one better. A little before 3 o'clook the teams put in an appearance on the grounds amid a burst of applause from the spectators. The men looked in splendid condition as they indulged in a little preliminary ball tossing while their respective captains were arranging the preliminaries. Then when the time for play came the umpires, Messre. J. G. Brown, Victoria, and R. McBride, of Westminster, took their places behind the flags, and the teams were lined up as follows:

FIRST GAME.

Westminster won the toss and decided to play down field with the sun on their backs. Victoris got the advantage in the draw, and up went the ball to the visitors' end, where a face took place behind the flags. Cheyne was in great form, and from the scrimmage accoped the rubber in and with one of those long shots for which he is famous sent it whizzing clear down to Ryall, who passed to Cambridge. Victoria's defence were too ANTAIRS, RIPTERN.

This game started off almost a counterpart of the first, by an attack on Westminster's flags, relieved by Cheyne. Back came the ball, which P. Peele cleverly caught amid a bunch of players, and made a pretty sprint up field. Blight and Patterson carried it back and fed Macnaughton, who dodged his check and passed to Eckhart, who tried a fine shot at the flags. The Westminster defence were impregnable, however, and checked like lightning. The tide of battle gradually rolled across to the Vichowever, and checked like lightning. The tide of battle gradually rolled across to the Victoria end, where Cambridge shot. W. Cullin tried to stop it, but the ball glanced off the ground just out of reach of his stick and rolled behind the flags to one side. Ryall picked it up, dodged the Victoria defence, ran round in front, and with a quick underhand shot sent the ball past Belfry and W. Cullin, who were between him and the flags, scoring Westminster's first goal. Time—8 minutes.

the excitement up to a wonderful extent. The usual ten minutes rest was dispensed with and the teams lined up at once. Victoria rushed the play to Westminster's end and the visitors promptly returned the compliment. C. Cullin, who worked steadily and well through the whole match, stopped a hot one from Cambridge on goal, and a few minutes afterwards when the ball had travelled to the upper end of the field, Macnaughton got it when the visitors' defence was strang ont. He ran towards the figs to shoot, but held the ball a little too long, so that the defence crowded in on the flags before he made his try and the opportunity was lost. A scrimmage be-

fect lacrosse weather, bright and sunshing yet not too hot for the comfort of the immense crowd of spectators who filled the grand stand and lined the other three sides of the Caledonia grounds.

There was no tedious delay in selecting a referee; that had been decided upon beforehand, the choice falling upon Mr. E. A. Quigley of Vancouver.

The following report of the Royal Comnission appointed to inquire into certain natters concerning the Nakusp & Slocan Railway is published for general informa-

By Command. A. CAMPBELL REDDIE. Dep. Provincial Secretary.

REPORT. To the Honourable Edgar Dewdney, Lieuten-ant-Governor of the Province of British

We, the undersigned Commissioners appointed by the Commission of the twentieth day of April, 1894, to inquire into certain mat-ters therein mentioned, concerning the Nakusp & Slocan Railway Company, have the honour to report that the manner in which that inquiry has been made, and the evidence taken therein

penses of witnesses would be recouped to them through the Commissioners, no one has thought fit to appear in support of the accusations

The only person from whom we have ra-ceived any assistance in this direction has been the Hen. Robert Beaven, M.P.P., who, though not responsible for making the charges, brought forward some facts upon which he suggested the absentee accusers might have relied.

These were first: irregularity in acting upon the Statute of 1893 before it had actually been brought into force, which could only be done by an Order in-Council.

vantageous, that it was to be inferred that it euld only have been introduced and supported through corrupt motives; though it must be added that he did not make such a charge.

It does not follow, of course, that a bad bargain must be a corrupt bargain. An honest Minister, with no motive or desire except to serve his Province, might make a mistake. We do not wish to suggest for a moment that any such mistake has occurred in the matter into which we have been inquiring. On the con trary we think that under the evidence adluced, and the arguments addressed to us, only one conclusion is open to us, and that is that the arrangement for the construction of the Nakusp & slocan Railway which was ratified by the Act of 1894, is more advantageous to the Province than the arrangement contemplated by the Act of 1893, and we have had no difficulty in arriving at that conclusion. But, how-ever that may be, on the issues more directly submitted to us by the Commission, there we think no room for doubt, and we find as

ows, that is to say:--Firstly: That the Honourable the Premier of the Province, in advising the guarantees mentioned in the said Commission did not work for the Company, but worked for the

Secondly: That the etatement made by the Honourable Member for Nanaimo District, in his place in the Legislative Assembly, that it appeared that the Honourable the Leader of the Government had been working for the Company and not for the Province, is not true; Thirdly: That no corrupt motives of any kind existed with or influenced Your Honour's Ministers in the advice tendered by them to Your Honour in relation to the Nakura and Your Honour in relation to the Nakusp and locan Railway Company; Fourthly: That no one of Your Honour's Min-

isters has had, or has, any interest, directly or (a.) The Nakusp and Slocan Railway Com pany: or

(b.) In the Construction Company by which such railway is being built; or (c.) In any contract by or with either of the said Companies, either in furnishing materials or supplies, or in any way what-cover.
All of which is respectfully submitted
Dated the 15th day of May, A.D. 1894.
