The intention is to take the remains entire to St. Petersburg, even including the flesh, although what good purpose can be served by saving the flesh is not obvious. This is not the first perfermammoth that has been found in Siberia, but none has ever been got out entire. The papers, in speaking of the expedition, say that the mammoth lived 100,000 years ago, but this only means that no one knows when it did live. It is certainly a very old-timer, and would be entitled to membership in the Pioneer Society of any country under the sun. But the antiquity of the huge beast is not the most interesting feature in connection with it. The fact that it lived in Siberia shows that there was a time when that far Northern region was capable of supporting animal life on the largest scale, which also means that vegetation must have been luxuriant. Sir.—I read with much interest your leading article in this morning's issue on the copper question. Most people who read your article will come to the conclusion that the copper market is in a worse state that it really is, and that run will be prevalent amongst the mine owners of British Columbia. I do not think that the present columbia. I do not think that the present crice will exist long. There is no doubt the what the users of copper have for the ast year or two, reduced their stocks as ow as possible. The present drop in the price of copper will no doubt stimulate the surchase of this metal by engineering firms and other users of copper, which will cause to a great extent, the surplus to be taken off the market, and instead of the stock of opper being in the hands of one or two arge firms, it will be spread over a great any. The mine owners on Vencouver sland and the coast generally, have much obe thankful for, inasmuch as their ore of higher grade than most existing coper mines, and the fact of having a smelter to oborne Bay will be a great boon to the opper interests of the coast. Whilst the loundary Creek country may be forced to lose down, there will be no such need for ne mines on Vancouver Island. The Mount leker mines especially being in the impediate vicinity of the Osborne Bay smelting, will be practically in a better position and they were before the drop in copper, he Lenora mine, for instance, will make greater saving in handling its ores, I unerstand, and the loss in depreciation of opper will be more than made up in the wing in cost of mining, sorting, transportation and smelting charges. Dear Mr. Mayor.—I am off tonight and hope to be of some service to Victoria in the East.

Before leaving I want to thank you for your kindly interest in my work and also to say that the "Victoria Edition" of my book of adventures will be out tonight.

There was an article in this morning's paper about those who promised advertisers to get out ten thousand but who in reality published fifty: it also sneered at the profits which charity would get.

Mr. Cusack is under contract with me to edit this week 10.000 copies. The advertisers go towards paying him and the cuts, should they not cover the cost of publication, first profits of the sale of book are to square his account, after which every penny which comes from the sale of the Victoria edition in Victoria is to be handed you for whatever local charities you think most deserving. I have promised the advertisers that the 10,000 copies shall be distributed among peole in the East, and intend to keep my word even if I should find myself obliged to give away the list to deduct for postage or mailing.

In case I send a list of people to whom Mr. Cusack must forward these books, he is to deduct for postage or mailing.

In case I send a list of people to whom Mr. Cusack must forward these books, he is to deduct for postage or mailing.

In hope you will receive so much money from the sale of this edition that the charties will be creatly benefited.

With best wishes for the coming year, hoping to see you still mayor on my return.

DENIAL BY

SIR WILFRID

Story That He Had Volunteered as Mediator For Boer War Absurd.

From Our Own Correspondent. Ottawa, Dec. 21.-Sir Wilfrid Laurier denies most emphatically the story credited to Labouchere's "Truth," that he had offered his services as me he had offered his services as mediator in bringing about an end to the Boer war. The Premier has instructed his private secretary to authorize all newspaper men inquiring about it to deny the story, which he said "Is too absurd for serious consideration for a moment."

The report that the United States had ceded Pyramid harbor to Canada, was referred to the Premier this morning. Sir Wilfrid simply said there was "Nothing in it."

There is nothing like Asthmalene. It brings instant relief, even in the worst cases. It cures when all else fails.

The Rev. C. F. WELLS, of Villa Ridge, Ill., says: "Your trial bottle of Asthmalene received in good condition. I cannot tell you how thankful I feel for the good derived from it. I was a slave, chained with putrid sore throat and Asthma for ten years. I despaired of ever being cured. I saw your advertisement for the cure of this dreadful and tormenting disease, Asthma, and thought you had overspoken yourselves, but resolved to give it a trial. To my asto issuent the trial acted like a charm. Send me a fahl-sized bottle."

REV. DR. MORRIS WECHSLER, Rabbi of Cong. Bnai Israel. New York, Jan. 3, 1901. Drs. Taft Bros', Medicine Co..

Gentlemen: Your Asthmalene is an ex-cellent remedy for Asthma and Hay Fever, and its composition alleviates all troubles which combine with Asthma. Its success is astonishing and wonderful. After having it carefully analyzed, we state that Asthmalene contains no opium, morphine, chloroform or ether. Very truly

Gentlemen: I write this testimonial from a sense of duty, having tested the won lerful effect of your Asthmalene, for the cure of Asthma. My wife has been afflicted with spasmodic asthma for the past 12 years. Having exhausted my own skill as well as many others, I chanced to see your sign upon your windows on 130th street, New York, I at once obtained a bottle of Asthmalene, My wife commenced taking it about the first of November. I very soon noticed a radical improvement. After using one bottle her Asthma has disappeared and she is entirely free from all symptoms. I feer that I can consistently recommend the medicine to all who are afflicted with this distressing disease. Yours respectfully,

O. D. PHELPS. M. D.

Dr. Taft Bros. Medicine Co.

Gentlemen: I was troubled with Asthma for 22 years. I have tried uumerous remedles, but they have all failed. I ran across your advertisement and started with a trial bottle. I found relief at once. I have since purchased your full-sized bottle, and I am ever grateful. I have family of four children, and for six years was unable to work. I am now in the best of health and am doing business every day. This testimony ron can make such use of as you see fit.

Retiring Governor of the Philippines Speaks Upon the War.

Manila, Dec. 20.—Over four thousand members of the federal party called on Governor Taft today to bid him farewell and safe return. The governor addressed 150 of the more prominent of his visitors saying he was touched and honored by their presence. The organization, he added, had done so much toward bringing about peace and giving the country a stable party that it argued more for the success of American labors than anything else during the recent critical times. The reports circulated in the United States founded on incidents connected with the war in Bantagas province and the Island of Samar, the governor also said, tend to convey a wrong impression of the situation which is really hopeful. Through his officers, the constabulary and provincial governments, besides 850 teachers, the commission had excellent means of acquiring information in the organized provinces, and it considers that there was never a time when there has been so much real ground for hopefulness and encouragement in regard to the attitude of the Hilpino people toward the civil government. The military district in Samar had created an unfounded feeling of uneasiness concerning the condition of the people of the rest of the archipelago. The war in Batangas and Samar kept up by misguided men, furnished the only obstacle to obtaining liberal legislation on the part of Congress.
