CLUB LICENSES BILL WAS ADVANCED

Attorney-General's Measure to License Clubs Passed the Second Reading

(From Thursday's Daily)

With practically no debate, the attorney-general's bill for the licensing of clubs to sell intoxicating liquor passed its second reading yesterday. The bill formed the general theme of discussion in the lobbies prior to the opening of the sitting, but there was little actual discussion in the House. Mr. Hawththwaite (Nanaimo) and Mr. Naden (Greenwood) bringing up purely incidental objections.

The sitting was a brief one, the legislative assembly having not yet recovered from the effects of the debate on the reply to the Speech from the Throne. A number of bills, among the most part amendments to acts already on the statute books, were introduced by the attorney-general, Mr. Oliver (Delta).

Mr. Oliver (Delta) asked his usual quota of questions, and one or two bills came to their second reading. Speaking on his bill for licensing of clubs the attorney-general said in part:

Social Club Bill

"This is an attempt at legislation along new lines, to bring the social clubs throughout the province under the license system. For some time considerable difficulty has been experienced in handling spurious clubs, which are in many cases organized by one man in his own interest. The Benevolent Societies act allowed clubs to be formed for social purposes. It was found that some of these organizations formed under this act were causing friction throughout the province, and the then attorney-general drafted an amendment to the act giving to the lieutenant-governor-in-council the power to cancel offending clubs after investigation. Many of the clubs were cancelled as a result. But this did not do away with the evil. Finally I myself introduced an amendment to the act striking out of the Benevolent Societies act the clause under which such clubs were formed. Then it was found that the Companies act allowed for the organization of clubs, although the act did not give them the right to sell liquor. In spite of that fact, liquor was sold. In some cases prosecutions of these clubs were successful, as in the instances in Vancouver and New Westminster particularly. But great difficulty was experienced when applicants for licenses were refused by the licensing boards, they formed clubs and proceeded to supply liquor to the stockholders."

"My department has received many complaints on this head. At the conventions of the union of municipalities last year and this resolutions were passed protesting against the club evil, and a committee was appointed to grant licenses to clubs. It was pointed out that this would lead to two policies which might conflict, and that to properly control the situation responsibility must be thrown on one central body. To do this will require certain revenue for the maintenance of officials, etc. The committee from the municipalities consented to this and so a clause has been inserted in the bill making it operative in the whole province."

"In 1906 a similar bill, though a more drastic one, was put into force in England. In the terms of that bill the clubs have to obtain their license from the justices of the peace in their district. The whole internal workings of the clubs must be laid before the justices, and a complete return must be made to the justices. More than that, by the payment of one, stilling the liquor license, gain access to the registers and see how the club is carried on."

A More Stringent Act

"In Alberta the attorney-general has just introduced a bill that goes even further than this. Last year an act was passed in that province prohibiting a club from supplying liquor to its members. This year that act has been amended so as to allow of clubs being licensed. Licenses may be issued with such terms as to inspection. No license will be issued to any club that has not satisfied the attorney-general as to its arrangements for supplying liquor to its members."

"In Ontario, after which we have largely modelled our regulations, the same power exists, except with regard to the cancellation of licenses. The license clause has not been put in the bill for the purpose of harassing the legitimate clubs of the province. It is the spurious clubs that are aimed at. These operate without a license in defiance of the law, and they keep open all hours of the day and Sunday as well. It is not fair to the license-paying clubs, but the latter must suffer to a certain extent for the general good."

"According to the bill the Superintendent of Provincial Police may at any time authorize an official under him to inspect the premises of any club. This clause is to protect us in the event of a club being organized on a false representation. The moment he finds that a club is not conducting its business properly, the Attorney-General has power to cancel the license." At this point Mr. Hawththwaite (Nanaimo) drew attention to the fact that the bill, as printed, forbade the selling of liquor to "minors." He said that the bill should be amended to read as any other class. He suggested also that the English regulation allowing anybody to inspect clubs be incorporated in the bill. He wanted to know what effect any local option law would have on the bill under consideration. Mr. Naden (Greenwood) wanted to know how the act, if passed, would affect Prince Rupert.

The Attorney-General told Mr. Hawththwaite that the effect on the local option legislation of the present bill would depend on the clauses of the local option measure. He told Mr. Naden that he could not at present deal with possible cases that might arise for consideration later.

Dr. McGuire (Vancouver) spoke warmly in favor of the bill. In the last two or three years, he said, the matter had been frequently brought to the attention of the Attorney-General. In a certain section of Vancouver a club formed by a man who had been

refused a license, and it was far worse than any saloon. Drunkards might be seen stumbling in and out at any hour, and on Sundays as well. Every effort had been made to secure convictions, but in vain.

The inspection clause was a good one. In the club referred to there were only a couple of billiard tables and a bar. Anybody could go in and introduce a friend. If the right to inspect such places were given there would be a better opportunity of knowing what was going on.

The bill then came up for second reading and was passed.

Other Bills Advanced.

The bill of the Minister of Agriculture to amend the Horticulture Board act also passed second reading. Its purpose is simply to add another member to the horticultural board. Hitherto one member has been representing practically the whole of the Mainland.

The Attorney-General's bill to amend the Magistrates' Act passed a second reading. This makes it the duty of magistrates to send returns to the Attorney-General's office as well as to the office of the Provincial Secretary. In order that a complete check may be had on all fines, etc.

The bill for the revision of the statutes, a formal measure introduced by the Attorney-General, also passed second reading. The last reading of the statutes was in 1897, and since that time many amendments have been made. The revision is supposed to be made every ten years, and as the present statutes are almost out of print, the Government deem that a revision at this time will save money to the province.

The bill of Mr. Shewster (Alberni) aimed at the better securing of the wages of certain mine-workers was laid over. It aims to prevent the unscrupulous mining man from leaving his workmen with wages unpaid when a claim is found to be a loss.

Pulp Concessions.

The question of pulp concessions was brought up by Mr. Oliver (Delta). He moved a resolution as follows: That an order of the House be granted for a return of copies of all leases granted under the provisions of sub-section (5) of Chapter 30, Statutes of 1901; also, for copies of all correspondence, telegrams or other papers or documents between the Government or any member thereof, and any other person or persons in relation to such leases; also, for copies of any regulations, restrictions and conditions established by the Lieutenant-Governor in Council in connection with such leases.

This, he explained, had to do with the leases of pulp and timber lands. These lands were given by the Government at a rental of two cents an acre as against 22 cents an acre for timber lands. Only one of the companies holding such lands had made a serious effort to live up to the terms of the law. One company was now advertising for subscriptions of stock. It was the duty of the Government to protect the public in matters of this kind.

The Premier arose to reply. He stated that there was no objection on the part of the Government to bringing down the information sought by the member for Delta. The concessions that had been applied for in the past had never been lost sight of by the Government. When it came into office the laws followed the granting of large tracts of timber lands for pulp manufacture. There had been an informal investigation, and the Government had decided to repeal the act as far as these concessions were concerned. Since then one company had constructed a large mill and completed arrangements for the manufacture of pulp. Three other companies would be ready in a few months to comply with the law. They had been notified that unless they carried out their agreement by November 1, the leases would be cancelled.

KILLED BY A CAR

Aged Lady From Manitoba Run Over on Vancouver Street—Death Instantaneous

Vancouver, Feb. 3.—In an endeavor to cross the track in front of a rapidly approaching motor car, an elderly lady, at the corner of Napier street and Park Drive, Grandview, Elizabeth Sophia Hoffman, an elderly lady, suddenly lost her balance, fell, and was run over and instantaneously killed yesterday evening. The lady, who was 71 years old, had just got out of a Grandview car and it is thought that in her hurry she did not see or hear the car approaching, and was struck before she was aware of it. The car was going at an ordinary rate of speed, and although the motorman set the brakes as quickly as possible, the car struck her and one of her legs was badly mangled. The deceased was from Manitoba, and was a resident of Grandview. She was on a visit to her daughter, Mrs. J. H. Hoffman, and her home at the residence of Rev. J. Miller, Mount Pleasant. Besides a daughter, she has four sons and four daughters, and two grandsons, and a great-grandson, all of whom reside in the city. The general hospital, are left to mourn her death.

The time used is Pacific Standard, for the 12th meridian west. It is counted from 0 to 24 hours, from midnight to midnight. The figures for night are to distinguish High Water from Low Water.

The height is in feet and tenths of a foot, above the average level of the lowest low water. This level is half a foot lower than the datum to which the soundings on the admiralty chart of Victoria harbor are reduced.

A black vest button was found embedded in the heart of Fred Pompley who died in Denver.

TWENTY SIX SPECIAL PRIZES DISTRIBUTED

Vancouver Fancier Captured Largest Individual Portion of Awards

(From Wednesday's Daily)

Twenty-six handsome special prizes were distributed by the management of the Victoria Poultry Association among the winners at last week's show. W. D. Bruce, of Vancouver, who had in competition a large number of beautiful White Leghorns, captured the largest individual portion of the awards. Second place was taken by Mrs. Radamacher, of North Vancouver, with her White Wyandottes; Blackstock Bros., of this city, having the fourth position went to Jones and Newbury, of Nanaimo.

President Baylis avers that the unprecedented success of the recent exhibition, while largely due to the loyal support of the fanciers of Victoria and neighboring cities, was also due to the fact that the prizes were distributed to those of those local merchants who so liberally responded to the request for special prizes. No less than twenty-six silver cups were distributed, which the president asserts is a better showing than made in Seattle or Vancouver. Therefore he wished to thank those business men who so materially assisted.
