CAMPBELLTON, NEW BRUNSWICK TUESDAY, AUGUST 17th, 1909

BUILD FOR THE FUTURE

Campbellton certainly has a great industrial future in store for her and citizens. Instead of building for the present needs should build for the future.

A few years ago a small wharf with a single track was sufficient to care for all the shipping, now the fine long wharf with double tracks and sidings is necessary to accommodate the shipping. Today there is in the river a large vessel to load lumber for the Australian market. She will be obliged to wait two weeks to get a berth before loading can commence.

Besides the crowding of foreign vessels the passenger boats are having considerable trouble in unloading. Of course, this accommodation will be improved when the new addition now under construction is completed, but if the increase of the past two years is to continue provision should be made at once for additional berths.

The Board of Trade at its meeting Monday evening took this matter up and a committee was instructed to look after this needed work. It was suggested that the old ferry wharf could be extended to deep water at a very small cost, and another cribber berth to lengthen it thus providing a berth for one of the passenger boats.

NON RESIDENT LICENSES

The matter of the non-resident fishing license levied by the Quebec government on owners and lessees of Quebec fishing waters is again receiving the attention of our citizens, who feel deeply in this matter.

Many Campbellton citizens own fishing waters or privileges in the province of Quebec, and these are obliged to pay a fee of \$25 for salmon fishing and \$10 for trout fishing in their own fishing waters.

With the average citizen this is a prohibitive rate and this year, owing to the closing of the season, many have been unable to enjoy the fishing rights they own.

Besides being a hardship to our citizens, it is also detrimental to the town as New Brunswick citizens who would like to enjoy a day's fishing at a reasonable cost will not pay the exorbitant fee charged, and are thus kept from visiting Campbellton and many tourists are kept away on this account.

Refractory measures are now being talked of and if the Quebec government will not listen to reason it is proposed to interview the New Brunswick government and endeavor to have a license fee charged on all non-resident fishermen, canoeists and guides fishing in waters on the New Brunswick side of the line.

It is also said that an effort will be made to impose a license fee on the vendors of country produce from the Quebec side.

If these courses are followed it will be a great hardship to the Quebec farmers, guides, etc., and such will no doubt make a great outcry about the injustice done them, but the Campbellton citizens are determined to fight the matter to a finish.

CHEAP POWER

Early last spring the announcement was made that the town of Campbellton would this summer make an examination of the different streams and rivers in the vicinity of Campbellton to ascertain their power generating capacity and if it was possible to get sufficient power from a stream to at a future date install a plant for the generation of electricity for light and power purposes.

So far no move has been made, and it has been made, and we think it is a mistake that the summer should be allowed to pass without some move being made in this matter. The season has been unusually favorable for making tests as the streams, on account of the scarcity of rain, are very low, and an accurate estimate could be made of the amount of power they would generate in a dry season.

It has been announced that Harry Thow will write books after he leaves the asylum, as if there were not enough books thus earmarked already.

A woman swimmer has been arrested for trying to pass bad checks on New York physicians. Doctors have been known to pass bad drafts on their patients.

Hats one foot and a half high are to replace the peach baskets. Thus women have assured another field. They will now have all the appearance of being the pillars of society.

The coal man has snuffed the foot and up goes his commodity to several dollars per ton. If other people had as good a sniffer as that, it would be bad for the ice cream business.

The ex-Rajah of Persia and the ex-Sultan of Turkey can find profitable temporary employment by applying to any Alberta wheat farmer during the next ten days.

The beer glass have been reduced in size in old London. This advance in price on account of the new taxation shows the prompt working of recognized economic laws.

Next year, according to the Ottawa Citizen, the summer girls will probably rank in three classes, pretty, plain and aeroplane. Or how would this do: men, laces, ice cream, laces and aviators?

How the dishes pile up in the sink when the summer is over, don't they?

Fishing at the summer resorts is good, that is, the fishing at it is.

Many a boy has trouble accounting to his mother for his shirt being on wrong side out this weather.

An inquirer wants to know where the flies go to, but up to date there is no evidence they have gone anywhere.

Newspapers devote so much time to aeroplane news nowadays that they might reasonably be called fly paper.

An American has been trying to prevent the Pope with an automobile, as if the head of the Church had not trouble enough already.

Beards of people who put you on the back. They may be looking for an opportunity to kick your feet from under you.

The Persian Government has offered the apostle \$100,000 a year in exchange for the national gems he took away with him.

King Alfonso knows that Europe isn't going to let the Moors get a foothold in Spain again. Consequently he figures that he has nothing to lose.

The utmost limit of the labor strike has surely been reached when the strike leaders throw up their job as they have done in Sweden.

The craze for aviation is beginning to die. Unavoidable, it seems they are adding a couple of "ones" to Kingston penitentiary.

McKenzie & Trauman, Campbellton's leading grocers.

Hyker-Bank never overlooks an opportunity to take advantage of others. I wonder if he ever hears the still small voice of conscience?

Poker—Probably not in years. I imagine it has grown so still and small that it will have to learn the deaf and dumb language if it ever wants to attract his attention.

Mifkins-Browning was boasting of his suburban house this morning, but I think what he says should be taken with a grain of salt.

Hubbard—That's where you are wrong old man. I once lived in that locality and anything said about it should be taken with several grains of quinine.

Hubbard—I'm afraid I'm becoming cross-eyed, my dear.

Wife—The idea. Why do you think that?

Hubbard—This thing of trying to look at my income and our expenses at the same time is slowly but surely getting its work in.

JACQUET RIVER

JACQUET RIVER, Aug. 16—Miss O'Brien of Bath is visiting Miss Mary McNeil.

Miss Margaret Deak returned home Thursday morning, after spending some time visiting friends here.

At the R.C. picnic grounds Aug. 11th the Durham Base Ball Team defeated the Campbellton team by a score of 28 to 4.

Master Gordon McMillan met with a serious accident in falling from a hayrack. Dr. Ellis is in attendance.

The social committee and young ladies of the Bible Class of Jacquet River S. S. are to meet at the home of Miss Jane Winton to arrange for a picnic for the primary and intermediate classes.

MONTREAL NUNS KILLED

BY A PILGRIMAGE TRAIN

MONTREAL, Aug. 16—Walking along the C.P.R. track from Montreal, towards the Good Shepherd Convent, at Park LaVEL, two nuns were overthrown by a pilgrimage train.

They were crossing the railway bridge over the Back River, near Bordeaux, about a quarter to ten, when the Montreal-Quebec train, conveying a pilgrimage party, here swiftly down on them.

Confused and terrified when they heard the clanging of the bell and the rushing of the train, the nuns, who were unable to think of a way of escape, and they had not been noticed by the train crew until it was too late to stop.

Caught by the side of the convent, they were hurled into the bridge into the river, swept down into rapids and drowned.

Short—Yes, I believe some fortune tellers are on the level. Not long ago one agreed to tell me something about my future for a dollar.

Long—Well,

Short—I gave her the money and she told me the time would come when I would wish I had my dollar back.

DEAFNESS CANNOT BE CURED

by local application, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever. Nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous lining of the Eustachian Tube.

We will give One Hundred Dollars for any case of Deafness (caused by Catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free.

P. J. CHENEY & CO., Toledo, O.

Sold by Druggists, etc.

Take Hall's Family Pills for constipation.

Diarrhoea, Dysentery, Colic and Cramps

Nearly every one is troubled with bowel complaint during the summer months. But, do they know what to do to cure it. Thousands do, many don't.

WE CAN TELL YOU!

DR. FOWLER'S

Extract of

Wild Strawberry

WILL DO IT!

It has been on the market 64 years, and is universally used in thousands of families.

There are many imitations of this sterling remedy, so do not be led into taking something "just as good" which some unscrupulous druggist tries to talk you into taking.

Dr. Fowler's is the original. There are some just as good. It cures Summer Complaint, Cholera Morbus, Cholera Infantum, Seasickness and all Bowel Complaints.

Price 35 cents. Manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

THE CITY BOYS

The boys who live in cities.

Never has it felt—

There ain't no fields to chase around.

Nor roads on which to run.

I feel so awfully sorry

For them little city chaps—

I want to 'rite 'em to our farm

And I will some day, perhaps.

If they should come out here awhile,

You bet I'd show 'em how

To feed the horse—and get the pigs—

And even milk the cow.

And then I'd take 'em where the fish

Are waiting for the hook:

They can't know that by reading'

Out of any story book.

A. G. ADAMS & Co.

As our Whitewear sale for the past two weeks has been such a success, we have decided to continue it, adding many new lines such as prints, gingham, dress muslins, dress linens, Ladies' summer undervests, hammocks, tents, camp beds, veranda chairs, extension tables, parlor suits, back cases.

A. G. ADAMS & CO.,

Water Street, Campbellton.

BIG INCREASE IN ARRIVALS

OTTAWA, Aug. 13—Immigration figures for the month of June, and for the three months—April, May, and June—of the current fiscal year, have just been completed. The total immigration to Canada for the month of June was 26,869 as compared with 15,000 for the same month of last year, a 79 per cent. increase. Arrivals via ocean ports for the month was 11,661, as against 10,762 for the corresponding month of last year. An increase of 8 per cent.

Well, I declare, exclaimed Gladys when she read the letter before Gladys had just written to her fiancé. You have P. K. under the last line. P. K. doesn't stand for postscript, my dear.

I—I know it doesn't respond Gladys with a pout and a blush.

Well what does it stand for?

Why, peck kisses, you goose. Now, don't ask so many foolish questions.

THE IDEAL BEVERAGE

ASK FOR

Labatt's

(LONDON)

Now, when chemists announce its purity, and judge its merit, one need look no further.

A Pale Ale, palatable, full of the virtues of malt and hops, and in sparkling condition, is the ideal beverage.

REACHING THE PEOPLE

A prominent real estate dealer in Toronto says that he gets better and quicker results from the Classified Want Ads. than from any other kind of publicity. He states that the results are out of proportion to the small expense involved.

There is a moral in that for you if you want to reach the people.
