General News.

—The Leipsic gold mine, near Bridgewater is reported getting out the precious in as handsome shape as ever. A big crushing of the accumulated pet quartz just being cleaned up gives a remarkably fine result.

— It is rumored in Lunenburg that one or more cargoes of railroad iron are on the way and that on their arrival trackla[illegible] on the Nictaux and Atlantic will immediately be commenced.—*Chronicle.*

—Messrs. John and Louis Labrador and some companions claim to have made some rich gold discoveries lately. The whereabouts of the *finds* they carefully keep to themselves, having benefited by their past experience.—*Lunenburg Times.*

An Eastern paper says: "Every man who goes into the lumber woods this winter should take with him a supply of *Johnson's Anodyne Liniment* and *Parson's Purgative Pills.* This little precaution may save months of labor and much suffering."

—Mrs. Howe, of the Woman's Bank, Boston, after having served three years in the House of Correction for swindling depositors, and whose case attracted great attention, has, it is reported, announced herself as an agent in a new enterprise in Boston, which seems to be a similar institution to the Woman's Bank. Seven dollars a month interest is offered on $100, with three months' interest in advance.

A Nova Scotia Cyclone.—On Saturday, 29th Nov., a young cyclone about twenty rods in width, visited the farm of Mr. Rupert Woodward, West Cornwallis, tearing the shingles, and part of the boards off one side of the roof of his barn, also stripping his board-fence, and pulling the fence-posts out of the ground. Boards were carried forty rods and driven into the ground with such force as to make it impossible for Mr. Woodward to pull them out.—*Western Chron.*

—The Redistribution bill introduced on Monday into the British Parliament provides that all towns of less than 15,000 inhabitants and the small boroughs shall be merged into counties, that all towns of 50,000 inhabitants shall be entitled to one member. England will gain six members; the representation of Ireland and Wales are unchanged; Scotland will have 12 additional members, and the city of London will have 27, Liverpool 6, Glasgow 4, Birmingham 4, Manchester 3, Yorkshire 16, and Lancashire 15 additional members.

St. John Markets.—Beef (fore quarters) 3c. to 5c.; (hinds) 4½c. to 7½c; pork 6½c. to 7½c.; lamb 4c. to 7c.; mutton 3c. to 6c.; geese 60c to 70c. each; turkey 14c. to 17c. per lb.; chickens 40c. to 60c.; ducks 50c. to 60c.; partridge 45c. to 50c. per brace; potatoes 45c. to 75c. per bushel; turnips 70c. to 80c. bbl.; butter, which is poor for the most part, brings 17c. to 22c. per lb. in tubs and firkins and 23c to 25c. in rolls; eggs are selling from 28c. to 30c. per doz.

—An Order-in-Council has been passed authorizing the minister of Finance to enter into a contract with the Halifax Steamship Company for a direct service between France and Canada. During the summer the service is to be fortnightly between Havre and Quebec or Montreal, and Havre and Halifax alternately. During the winter, service is to be monthly between Halifax and Havre. The company is now having two steamers built on the Clyde, and it is expected that the service between Canada and France will be commenced next spring.

Sir John on Bankruptcy.—A cablegram says a deputation from the associated chamber of commerce have held an interview with Sir John Macdonald and Sir Charles Tupper of London. The deputation urged the passage of a bankruptcy law, or the adoption of some mode that will end fraudulent preferences of bankrupts by the Canadian Government. Sir John replied that it was difficult to prevent fraudulent preferences, and promised the deputation that he would submit the question to the Canadian parliament.

The State of Trade.—The volume of the wholesale trade has not increased since our last report and it would be almost impossible for it to decrease very much. In some branches of the city retail trade the holiday season has begun and a fair amount of business is being done. The country retail trade has improved somewhat, owing to the fact that farmers have been marketing their wheat in many districts, but it is still unseasonably slow. An improvement in remittance has, however, followed, but they are still far from being up to the mark. Wholesale dealers are now engaged in taking stock, and in preparing to strike balances for the year. The amount of business done will be far short of that of last year, and the profits will not be even relatively nearly so great. The year has been one of keen competition of cutting in prices, and also one of small losses.—*Montreal Witness, Dec. 1st.*

—The St. John Board of Trade held its annual meeting on the 1st inst. The principal part of the business was the discussion of a resolution moved by Mr. C. H. Fairweather, which in substance was as follows:—

"That this board is opposed to the idea of dismemberment of the Dominion by annexation to any other country whatever."

Mr. H. J. Thorne, after considerable discussion was held on this resolution, moved in amendment:—

"That no expression of opinion having been made by this Board either on the questions of annnexation or dismemberment of the union of the Provinces it is not expedient to call for a vote of this Board on this or any political questions."

When put to the meeting the resolution was rejected and the amendment carried by a two-thirds vote.

Steamer Secret.—The hull of the steamer Secret has been inspected by Messrs. Coker, McElhinney and Smith, Government inspectors, on Wilson's blocks, Carleton. The inspector concurred with the order or survey as instituted by Mr. Coker, and they are of the opinion that the recommendation ordered by him—that a wooden belt of sheathing, six feet deep, above and below the water line, be placed around the hull—is necessary to make the vessel suitable for winter service and to afford protection against the ice. The Secret will proceed to Portland, Me., as soon as possible to have the above recommendation carried out. In the meantime the Dominion will take her place. The Secret is, by all means, the best sea-going steamer that has been on the route between Digby and St. John, and we hope soon to see her back again. It is claimed by competent ship masters that the regulations of the Government are altogether too stringent.—*St. John Telegraph, Nov. 29.*

Post Office Irregularities.—*Toronto, Dec. 2.*—A despatch from Ottawa to the *News* says: Post Office Inspector Dewey left suddenly last evening for Winnipeg, where serious complications and irregularities are reported in connection with the Winnipeg post office, and with the general postal service of that province. There appears to have been a wholesale robbery of registered letters somewhere and it is believed nearly one hundred that have been mailed at Winnipeg and which have passed through that office are missing. A prominent post office department official stated that post office matters were in a terrible state at Winnipeg just now and that there is the mischief to pay. Inspector Dewey will be absent for at least three weeks and will make a thorough investigation before returning, which may result in several important changes being made in the postal service of Manitoba.

State of Ireland.—Earl Spencer has abandoned his intention of prosecuting *United Ireland* for libel. The English executive department in Dublin continues to report the spread of disaffection among the people of the city and great activity of secret societies in recruiting their numbers. The Nationalists openly boast of their great increase and Young Ireland societies are multiplying rapidly. Numerous public meetings are being held by the latter in the provinces, at which considerable display is made of Irish, American French and Beor flags.

SMALL FRUITS.

It has always been our aim to give our customers the new and choicest fruits and flowers at the earliest moment possible, after being satisfied by testing them that they are worthy of dissemination.

The following list of specialities we offer with pride, as we are satisfied they are valuable and will please our customers. We own the whole stock, and the plants can only be bought of our regularly appointed agents.

"BLACK CHAMPION" CURRANT.

Awarded a First-Class Certificate by the Royal Horticultural Society, August 9th, 1881.

This valuable introduction was pronounced by the Committee of the Royal Horticultural Society, as well as those members of the profession who saw the specimens exhibited, to be the finest Black Currant ever seen at South Kensington. Many of the bergies are so large as to be taken for medium-sized grapes. The bunches are very long, and the flavor of the fruit particularly luscious and delicate. Another important feature is its robust habit and powers of resisting drought.

It is the longest and latest hanging variety in cultivation, good fruit being last year gathered the last week in September, and a dish was exhibited September 9. Unlike other varieties it will bear the most severe pruning without prejudice.

MOORE'S RUBY CURRANT

was originated by Mr. Jacob Moore, from seed obtained by crossing the Cherry and White Grape, and shows very clearly traits of both parents. It is of fairly vigorous growth, producing shoots longer than the cherry, and heavier than the white grape. Foliage as free from disease as that of any variety we know of. It has fruited with us for five years without extra fertilizing or cultivation, and has always been well loaded with handsome long clusters of fruit, with the exception of one year, when a late frost injured the crop.

"The fruit is of large size, next to the Cherry and La Versallaise, in that respect, borne on much longer stems and more abundantly than with the varieties named, and produce at least twice as much as those varieties. The color of the fruit is a beautiful bright red, not quite so dark as the Cherry Currant; ripens at nearly the same time as the cherry; the flavor a very agreeable mild acid, somewhat similar to the White Grape, and fully equal to that of any variety.

LARGE GOLDEN PROLIFIC GOOSEBERRY.

We believe this Gooseberry will lead all other varieties as a productive, hardy market variety. It is the only near approach to the English Gooseberry in size but unlike them is perfectly hardy, has never shown any signs of mildew. The cut we give in our circulars, (which can be obtained from any of our authorized agents), is true to nature, the size of the berry being given from actual measurement. We give an extract below from the *Canadian Horticulturalist.*

A New Gooseberry.—During the past summer we received a few specimens of a new gooseberry from Stone & Wellington, of Toronto. The fruit received was of good size, oblong in form, and of a golden yellow color, and of good flavor. In a letter received from them they state that the original plant was found in the State of New York, growing wild in a decayed hickory stump, by a person who was hunting. Being pleased with the appearance to the fruit, he took the trouble to return at the proper season and took up the plant. He removed it successfully, and it has been in bearing ever since.

Messrs. Stone & Wellington have now fruited this gooseberry for four years and find that it is perfectly hardy, never harbors any signs of mildew, and each year bearing immense crops. They describe it as remarkably strong, vigorous upright grower, with dark green, glanceous leaves which resist mildew perfectly, and remain on the plant until the end of the season; while good samples of the fruit measure on inch and three-quarters in length.

GAINOR BLACKBERRY.

Gainor.—This choice new blackberry was offered for the first time to the public for delivery, fall of '83 and spring of 84'. It is controlled exclusively by us. Originated a few miles from our nurseries, being a chance seedling. Our attention was first called to it by its extreme hardiness. While other blackberries near it were killed or damaged by the extreme winter of '81, the Gainor was unarmed, and the following season bore a large crop of large, handsome, fine flavored fruit. Larger than Kittatinny, a deep black and in quality, good, tender and sweet. Its large size, fine quality and extreme hardiness make it the Blackberry we have been so long wanting. We offer it with confidence and our strongest recommendation.

New illustrated catalogue just issued Orders sent to us direct, or given to any of our duly appointed agents, will receive prompt and careful attention. Agents wanted. For terms address:

STONE & WELLINGTON.

—The international steamer State of Maine has been successfully launched from the railway and was towed to the Goss Iron Works, where the boilers will be put in, engines repaired and the carpenters work will be finished. The hull of the steamer has been thoroughly repaired.

—The new anæsthetic, hydrochlorate of cocoaine, was used for the first time in Maine General Hospital lately upon a patient 75 years old. The operation, which was the removal of a secondary cataract, was a brilliant success, the patient feeling no pain.

St. John's, N.E., Dec. 4.—In the hurricane on Sunday night last three schooners, coal laden, bound for Sydney to Roseblanche, on the west coast, were wrecked, and all on board were lost on the reefs in the neighborhood of that port. A fishing schooner foremast and [illegible] boom pick up one [illegible] Titus and Morehe[illegible] were drowned. The neighborhood of D[illegible] persons belonging narrow escapes f[illegible] The squall was felt [illegible] Scotia coast from [illegible] sor, and it is feared [illegible] further fatalities.—*St. John Globe, 26th ult.*

—A fast train is to run from Boston to New York in 6 hours. Its first stop is 86 miles [illegible] from Boston. It consists of a [illegible] handsome, luxurious [illegible] ger coach, and a[illegible] car. One of the [illegible] trip is the taking [illegible] stopping. Near B[illegible] is a trough betwe[illegible] long, about a foot [illegible] deep. As the eng[illegible] trough a pipe with [illegible] is lowed into the [illegible] mentum of the e[illegible] through the pipe [illegible] a rate that usually [illegible] the time that a [illegible] feet is traversed.

[illegible] City.

Gladstone's [illegible] Bill.

New York, Dec. 7—[illegible]'s cable letter from Lond[illegible] The redistribution bill introduced by Mr. Gladstone in the House of Commons this evening, adopts generally the principle of single constituencies. No change will be effected in the representation of Ireland by the new measures.

Wilkbarrie, Pa., Dec. 1.—No. 4 slope of the Susquehanna Coal Company at Nanticoke, is caving in and great alarm exists among the people who live on the surface. Five acres are affected and the whole area is covered with dwelling houses. The company has 300 men at work propping up the mine. Despite all their ingenuity however, the surface is gradually sinking and great calamity is liable at any moment.

St. John, Nfld., Dec. 2.—Orangemen at Conception Bay are developing new troubles. They barricaded the house of a United States Catholic Redemptorist father, who was assaulted with stones. Arches bearing Orange banners and symbols were erected near the Roman Catholic church, and a Catholic procession compelled to pass under them.

London, Dec. 5.—It has been discovered that vessels at London docks which were supposed to be taking on board cargoes of provisions are really loading munitions of war for China.

Shanghai, Dec. 5.—Twelve Chinese warships have been ordered to raise the French blockade of Formosa. The ships will be under the command of twenty-four German officers.

London, Dec. 3.—It is stated that the Porte is negotiating with England with regard to Egypt, upon a basis of British occupation for fifteen or twenty years, a recognition of Sultan's sovereignty, and the Egyptian tribute to be so capitalized as to leave a surplus for Turkey.

Key West, Fla., Dec. 3.—The Florida *News* says with reference to the tobacco clause in the Spanish treaty. "If the treaty is ratified by the Senate with this clause Key West is a doomed city. It would close up every cigar factory, seven thousands citizens would be out of employment, and entail a loss of $2,000,000."

Apple Report.

110 Cannon Street,
London, E. C., Nov. 20th, 1884.

Dear Sir:

The sale of apples this week have been chiefly Nova Scotian, with just a few Canadian. Our market remains very good and the quality and packing of a great part of the Nova Scotian apples were very satisfactory. We trust these will be maintained, as they inspire confidence to the buyers, so that when the barrels are opened and shown it increases the competition in the Sale Room and leads to a satisfactory result all round.

Prices during the week have ranged as follows:—

Ribston Pippins, 20s 6d, 21s 6d, 22s, 25s 6d, 26s, 27s 6d, 28s; No. 1, Kings, 15s, 15s 6d, 16s, 18s, 19s 6d; Baldwins, 13s, 14s; Vandevere, 12s 6d; Gravensteins, 14s, 16s; Greenings, 11s, 13s; Bleinheim, 18s, 20s 6d, 25s 6d, 16s, 22s, 20s 6d.

Yours truly,
John S. Townsend & Co.

We received another report by yesterday's mail dated 26th ult., but had not space to insert. The best prices were obtained for Ribstons, Bleinheim, and King Tompkins. This report has reference to the cargo of the "York City."—Will publish in our next unless we have later advices.

—The exposure of the utter worthlessness of the large packs of horse and cattle powders has saved our people a vast sum. There is only one kind now known that are strictly pure and those are Sheridan's. Don't throw away your money.

—The money order branch of the post office department gives notice that orders may be obtained payable in Danish, West Indies, Dutch East Indies Gibraltar, Malta, Cyprus, Constantinople, Smyrna, Ceylon, Hong Kong and all British possessions in the East and West Indies, Africa and Bermuda.

TELEGRAPH NOTES FOR THE WEEK

London, Dec. 1.—The amended Redistribution Bill, as presented by Mr. Gladstone in the House of Commons this evening, adopts generally the principle of single constituencies. No change will be effected in the representation of Ireland by the new measures.

Wilkbarrie, Pa., Dec. 1.—No. 4 slope of the Susquehanna Coal Company at Nanticoke, is caving in and great alarm exists among the people who live on the surface. Five acres are affected and the whole area is covered with dwelling houses. The company has 300 men at work propping up the mine. Despite all their ingenuity however, the surface is gradually sinking and great calamity is liable at any moment.

St. John, Nfld., Dec. 2.—Orangemen at Conception Bay are developing new troubles. They barricaded the house of a United States Catholic Redemptorist father, who was assaulted with stones. Arches bearing Orange banners and symbols were erected near the Roman Catholic church, and a Catholic procession compelled to pass under them.

London, Dec. 5.—It has been discovered that vessels at London docks which were supposed to be taking on board cargoes of provisions are really loading munitions of war for China.

Shanghai, Dec. 5.—Twelve Chinese warships have been ordered to raise the French blockade of Formosa. The ships will be under the command of twenty-four German officers.

London, Dec. 3.—It is stated that the Porte is negotiating with England with regard to Egypt, upon a basis of British occupation for fifteen or twenty years, a recognition of Sultan's sovereignty, and the Egyptian tribute to be so capitalized as to leave a surplus for Turkey.

Key West, Fla., Dec. 3.—The Florida *News* says with reference to the tobacco clause in the Spanish treaty. "If the treaty is ratified by the Senate with this clause Key West is a doomed city. It would close up every cigar factory, seven thousands citizens would be out of employment, and entail a loss of $2,000,000."

Marriages.

Mosher—Reed.—On the 3rd inst., at the Church of the Holy Trinity, Granville Ferry, by the Rev. F. B Gresrorex, Mr. Albert Mosher, of Annapolis, to Annie, only daughter of Mr. Fletcher, Reed, of Granville.

Deaths.

Beals.—Wednesday afternoon, Dec. 3, Micah Beals, aged 77, a native of Annapolis, and resident of Halifax for over forty years, leaving a widow, three sons and three daughters.

Advice To Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalcuable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, their is no mistake about it. It cures dysentry and diarrhœa, regulates the stomach and bowels, cures wind colic, softens the gums, reduces the inflammation and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents a bottle.

MRS.
SOPHIA POTTER'S
BONE RHEUMATIC LINIMENT
Read the following Testimonial.
Revere, Mass., Nov. 1st, 1884.
Mrs Sophia Potter.—Dear Madam.—I find your Liniment all you claim it to be, there is not its equal for toothache. I suffered a week, could not eat or sleep, my neck and face were sore from the pain, and one application cured me, have not had toothache since. We found it good for lame back, lame sides, colds, head-ache, &c. My wife's brother took sick with pneumonia, could scarcely get his breath, could not lie down. We doctored him with your Bone Rehumatic Liniment, bathing his chest and throat and applying hot flannels, and gave it to him, now he is well and at his work. You are welcome to use this for the benefit of others. Yours,
JAMES W. WOODWORTH.
