

WHARTON (HENRY R.). MINOR SURGERY AND BANDAGING. Fifth edition. In one 12mo. volume of 640 pages, with 509 engravings, many of which are photographic. Cloth, \$3.00, *net*.

The part devoted to bandaging is perhaps the best exposition of the subject in the English language. It can be highly commended to the student, the practitioner and the specialist.—*The Chicago Medical Recorder*.

Well written, conveniently arranged and amply illustrated. It covers the field so fully as to render it a valuable text-book, as well as a work of ready reference for surgeons.—*North Amer. Practitioner*.

WHITLA (WILLIAM). DICTIONARY OF TREATMENT, OR THERAPEUTIC INDEX. Including Medical and Surgical Therapeutics. In one square octavo volume of 917 pages. Cloth, \$4.

WHITMAN (ROYAL). ORTHOPEDIC SURGERY. New (2d) edition, thoroughly revised. Octavo, 843 pages, with 507 engravings, mostly original. Cloth, \$5.50, *net*.

The standard authority on orthopedic surgery.—*Virginia Medical Monthly*.

It is a pleasure to review a book so well written and so clearly illustrated as this, presenting the last and best word on this active special

branch. The text is clear and the views expressed are well presented, making the work the best that has yet been offered in this important branch.—*The Boston Medical and Surgical Journal*.

WICKS (MAUD A.). A POCKET TEXT-BOOK OF NURSING. Preparing. See *Lea's Series of Pocket Text-books*, page 18.

WILLIAMS (DAWSON). THE MEDICAL DISEASES OF CHILDREN. Second edition. Specially revised for America by F. S. CHURCHILL, A.M., M.D. In one octavo volume of 538 pages, with 52 illustrations, and 2 plates. Cloth, \$3.50, *net*.

The descriptions of symptoms are full, and the treatment recommended will meet general approval. Under each disease are given the symptoms,

diagnosis, prognosis, complications, and treatment. The work is up to date in every sense.—*The Charlotte Medical Journal*.

WILSON (ERASMUS). A SYSTEM OF HUMAN ANATOMY. A new and revised American from the last English edition. Illustrated with 397 engravings. In one octavo volume of 616 pages. Cloth, \$4; leather, \$5.

WOOLSEY (GEORGE). APPLIED SURGICAL ANATOMY REGIONALLY PRESENTED. Octavo, 511 pages, with 125 original illustrations in black and colors. Cloth, \$5.00, *net*; leather, \$6.00, *net*.

A happy union of fact and practice, the latter based upon the former, which brings into distinct view the enhanced advantage that can be taken of this combination. The book bristles with good advice. It is a book of remarkable merit, show-

ing not merely a large amount of research, but also the faculty of giving to each anatomical fact its value when applied in practice. The work is sufficiently illustrated.—*American Journal of the Medical Sciences*.

ZAPFFE (F. C.). A POCKET TEXT-BOOK OF BACTERIOLOGY. Handsome 12mo. of 360 pages, amply illustrated with 146 engravings and 7 colored plates. Cloth, \$1.50, *net*; limp leather, \$2.00, *net*. See *Lea's Series of Pocket Text-books*, page 18.

A most thorough and practical book, written for the needs of both students and practitioners.—*Louisville Journal of Medicine and Surgery*.
