# THE DODGE PATENT WOOD SEPARABLE OR SPLIT PULLEYS.

Best Belt Surface, Best Balanced, Strongest, Lightest and Most  
Convenient Pulley in the World.

## WITH OUR PATENT BUSHING SYSTEM

Every pulley will fit twenty-two or more different sizes of shafting. Two hundred of our pulleys and an assortment of bushings represent as many as four thousand iron pulleys, a great advantage to dealers carrying stock.

In comparing prices of pulleys, please note carefully the following:

Our list is lower than most others. Every pulley is a split pulley. Every pulley is guaranteed to transmit from twenty-five to sixty per cent. more power than any iron or steel pulley with same tension of belt. Our pulleys are seventy-five per cent. lighter than cast iron pulleys. The fastening does not mar the shaft. They are perfect in balance. They are the most thoroughly made wooden pulley in the world. And the handsomest pulley on the shaft. Every pulley as represented or no sale.

Order a sample pulley, after which you will have no other.

We make all sizes, from 6 inches to 16 feet diameter, and all strong enough for double belts.

We also manufacture **CROOKED HARD-WOOD PULLEYS** for the transmission of power by ropes - under the Dodge Patent System. Estimates furnished for main drives and transmissions of any required power on application.

BOX 333 Address, **THE DODGE WOOD SPLIT PULLEY CO.,** - **TORONTO.** TELEPHONE 2080.
