the total of the firm's liabilities foots up to \$31,000, direct \$20,000 and indirect \$11,000. The assets are placed at \$12,000; the deficiency is therefore \$19,000. As stated last week, 10 cents cash in the dollar has been accepted by a majority of the creditors.

The Standard Life Assurance Co., having acquired the premises on St. James street, lately occupied by the *Herald*, and the premises next door occupied by Dawson Bros., are preparing for the erection of one of the finest buildings in Montreal, to be finished about a year hence. The new building will have a frontage of about 60 feet on St. James street, and all the modern improvements, elevators, etc. It is to be hoped that Montreal architects will begin to give more attention to the interior arrangement of the better class of buildings, and prevent the importation of American architects for that purpose. Some of the finer buildings in Montreal, notwithstanding their imposing fronts, are not over creditable to those who planned the division and accessibility of the interiors.

It is but a short time since we had to record the death of Mr. Mackay's elder brother, the founder of the Mackay Institute for deaf mutes, in the presidency of which he was succeeded by the subject of our present notice, who was likewise a Governor of the General Hospital. Mr. Mackay was also a director of the Bank of Montreal, and connected with other commercial institutions. He was a native of Scotland, and in the 71st year of his age.

THE CANADA LIFE.—Through its character for upright dealing with the insured, in whole life as well as in endowment policies, and the large amount of money it has thus paid out during the last quarter of a century,—the Canada Life Assurance Company has done much to elevate and popularize in Canada this really most commendable of all economical enterprises. Reference to the announcement on our front page will show that the Company is itself making that progress which it merits. While this is characteristic of all the Agencies it may not be untimely to say that the management of the Company in this Pro-
