CANADA'S FUTURE. Mr. Donald Macmaster Predicts an Important Political Change—Independence, Imperial Federation or Annexation to the United States—Which shall it be? Mr. Donald Macmaster, member of Parliament elect for the county of Glengarry, Ont., is stopping at the Fifth Avenue Hotel. As the remarks of Sir Francis Hincks in an interview published in Monday's Herald were personal, a Herald reporter interviewed Mr. Macmaster yesterday. He expressed his willingness to give his opinions on the question of Canadian independence, but desired to correct some of the statements made by Sir Francis, which were inaccurate.

been amply proved by the history of the United States. "Do you think separation from Great Britain would involve a war for independence?" "No, I do not. I believe that Canada is a source of weakness to England. Great Britain would profit more by having Canada an independent, friendly power on this continent. I believe if the Canadians so desired they might quietly assume the responsibilities of self-government without any objection on the part of the mother country. The men who are strongest in favor of Canadian independence are English residents in Canada. A treaty might be made with England whereby the Dominion might be guaranteed protection against foreign invasion, much as the security of Belgium and Switzerland is insured. But it is not a question of protection at all. That simply depends on the necessary money, which a population of 10,000 could easily furnish. The whole question lies in the question as to whether the people have reached that maturity at which they are a nation, irrespective of all obstructions. The rest will follow as matter of course."

IN FAVOR OF OPEN DISCUSSION. "Are you in favor of organizing for independence?" "I am in favor only of openly discussing the question. It must come sooner or later, and I would like to see the country familiarized with the idea."

THE FRENCH CANADIANS. We copy the following just and able article from the Toronto Mail — The French Canadians are hard at work organizing for the celebration of St. Jean Baptiste day, the 24th June, 1880. It is to be a national affair on a grand scale. The race throughout this continent will be represented by delegates from Massachusetts, Illinois, California, the Canadian North-West, the Acadian settlements in the Maritime Provinces and from the French coast of Newfoundland. The gathering will be held in the city of Quebec, the cradle of the race and the spot rendered sacred by its glorious past.

It may be asked—What have they to celebrate? First, a marvellous history that may be said to date from that spring morning in 1535, when Jacques Cartier and his little band attended Mass in the Cathedral of St. Malo, while their craft, the Grand Hermine, the Petite Hermine and the Emerillon, waited for them with sails set in the roadstead. Three hundred and forty-five years have passed since then, and it is safe to say that no people on the face of the earth have achieved more in the same length of time, and in the face of as cruel a fate, than the French Canadians. The original settlers in New France numbered 25,000 souls; their descendants number a million and a half. They were the pioneers of religion and of settlement in North America. While the rest of the Mother Country gave itself up to the corruption of the age, the nobility of Normandy and Brittany sent their sons as soldiers or missionaries to New France, and these carried the elements of civilization from Quebec to the Rocky Mountains, and from Lake St. John to New Orleans with intrepid, daring and unflinching steps. Marquette penetrated the Far West and discovered its secrets; De Breul and Lalemant suffered martyrdom on the shores of Lake Simcoe; and the Company of the Hundred Associates opened up avenues of trade and commerce everywhere. Champlain, Montigny, De Tancy, D'Aillebort, Frontenac, Vaudreuil, Beaubien, Longueuil and Galignani, among the French Governors, have won an immortal place in Canadian history. The Jesuits and Recollets, the early apostles of the country, received homage from all who admire courage and devotion to duty; and Laval and his successors in the See, who reaped what the missionaries sowed, were men of wonderful energy and fact. It is true the French Canadians, after keeping the Iroquois at bay, subsiding the forest, and carrying the Gospel into the wilds of the continent for a century and a half, were conquered, and that they have since quietly accepted the inevitable; but their fall is marked by no stigma of disgrace; on the contrary, there is not a more brilliant chapter in their history than the record of their deeds when, all but abandoned by their leaders, they fought Wolfe and General Murray until Quebec was no longer habitable, and then loyally sided with the conqueror in his struggle with the revolted Colonies. The name of Wolfe does not overshadow that of Montcalm; and it Brock was the hero of Upper Canada in the war of 1812, DeSalaberry was not behind him either in skill or courage. The era of peace dawned in 1815, and since then the French Canadian people have prospered amazingly, albeit the Province for forty years afterwards was weighed down by the feudal system. In politics they have given Canada Papienau, Lafontaine, Morin and Cartier; Taché, Sulte, Fabre and Lenoire are worthy names in literature, while Hamel in art, and Lajeunesse (Albani) in song, have a world-wide reputation. It is often charged that the French Canadians are a degenerate race; but the more fact that in spite of two centuries of feudalism, of Indian wars, of foreign invasion and of association with the dominant Anglo-Saxon, they exist to-day, a million and a half in number, with their ancient faith and language ever fresh, is proof of unparalleled vitality.

It is to be hoped the delegates will not separate without discussing the question of repatriation. The North-West offers homes for all, and before long the growth of native industries in the Dominion will afford employment to the French Canadian operatives now in the mills of Lowell and the factories of Connecticut and New Jersey.

Only U. S. machinery will be allowed at the Buenos Ayres Exposition. Michael Battington, a civic candidate, fell dead in Inverary, Ont., yesterday. The idea of holding a Provincial exhibition in the city of Halifax is mooted. 117 colored exodists passed through Washington, D. C., yesterday for Indiana.

EPHRAIM'S COCOA—GRATEFUL AND COMFORTING. By a thorough knowledge of the natural laws which govern the operations of digestion and nutrition, and by a careful application of the fine properties of well selected cocoa, Mr. Epps has provided our breakfast tables with a delicately flavored beverage which may save us many heavy doctors' bills. It is by the judicious use of such articles of diet that a constitution may be gradually built up until strong enough to resist every tendency to disease. Hundreds of subtle maladies are floating around us ready to attack wherever there is a weak point. We may escape many a fatal shaft by keeping ourselves well fortified with pure blood and a properly nourished frame.—Civil Service Gazette. Sold only in packets labelled—EPPS' COCOA & Co., Homoeopathic Chemists, London, England.

Another Communication from Mr. George Sewell, dated Montreal, N. B., June 24, 1878. J. H. Robinson, Esq.—Dear Sir,—I wrote you in May last, informing you of the wonderful cure your "Emulsion of Cod Liver Oil with Lactophosphate of Lime" had made in my case, and, at the same time, promising to write you from time to time to let you know how I was getting along. I am much better in every way; my strength is coming back, and I am able to walk a good long distance without getting tired; sleep well and eat a hearty meal. In fact, I am a new man. I have not had a cough since I was three months ago and see me now, can hardly believe that I am the same person. The above are facts, and believing that ingratitude is one of the unpardonable sins, I feel it my duty to tell you of what, under a kind Providence, your preparation has done for me. Wish you every success, etc. Sold by Druggists and General Dealers. Price \$1 per bottle; Six bottles for \$5.

THE COLEMAN BRIDGE PROJECT. Montreal Taxpayers Hold a Meeting, and Object to the Scheme. In response to a requisition numerously signed, His Worship the Mayor called a meeting for Tuesday, 30th ult., which was but sparsely attended, taking into consideration the importance of the subject. His Worship presided, and among other prominent citizens present were:—Messrs L. O. Taillon, M. P. P.; C. J. Courso, M. P.; M. H. Gault, M. P.; Hon. Senator Trudel, Mr. M. P. Ryan, M. P.; ex-Ald. Wm. Clendinning, Aldermen H. A. Nelson, J. Fairbairn, J. Groulx, Jeanotte, Allard, C. Thibault, A. Desjardins, M. P., A. Raza, A. P. MacDonald, and Joseph Duhamel, Q. C.

His Worship briefly referred to the object of the meeting, after which Mr. L. O. Taillon, M. P. P., read the petitions, of which the following is the substance, and which were concurred in by the meeting:— To His Excellency the Governor-General in Council: That the petitioners have learned with anxiety and alarm that the promoters of the Canada Atlantic Railway Company are pressing most vigorously for the construction of a line of railway from the northwestern boundary of the State of New York, or the northwesterly boundary of the State of Vermont; That the construction of said Bridge and Railway to the frontier of the State of Vermont or New York can have but one effect, and that is, to convey the traffic expected to come from the West by the Canada Pacific and Canada Central Railways, and by the projected Toronto, Peterborough and Ottawa Railway, to the ports of Boston and New York, in lieu of the ports of Montreal, Quebec and Halifax; That it is the opinion of the petitioners that any such divergence of traffic from the ports of the Dominion to those of the United States would seriously, if not disastrously, affect the shipping and many other interests of the Dominion; That to give aid or encouragement to the said bridge scheme, would, in the opinion of the petitioners, be tantamount to a serious obstacle to the prosperity of the Dominion of Canada, and especially to the Province of Quebec and the Provinces of New Brunswick and Nova Scotia; That the petitioners are of the opinion that the traffic to the Quebec, Montreal, Ottawa and Halifax, and to the ports of Montreal and Quebec, the Rivers du Loup and the Gulf of St. Lawrence, and to the ports of Halifax and St. John's, should be maintained and encouraged; That the petitioners, in view of the fact that the people of this Province have expended about ten millions of dollars in constructing the Canadian Pacific and the Grand Trunk Railway, and have furthered them with an annual charge of six hundred thousand dollars, and must expend further a sum of one million of dollars in constructing and equipping the same, cannot view with unconcern the obvious attempt of the American railway companies to seize upon the large amount of western and other traffic which the people of this Province confidently counted upon being carried over its road to the ports of Montreal and Quebec, and to divert the same across the American frontier by way of American railways, to the ports of Boston and New York; That your petitioners are convinced that no feat can be accomplished by the American companies to divert the traffic from the ports of Montreal and Quebec, and to divert the same across the American frontier by way of American railways, to the ports of Boston and New York; That it is the opinion of the petitioners that the Government railways can possibly be operated with advantage if the American railways are allowed to divert the traffic expected from the West at Ottawa, towards the South, and to the ports of Boston and New York, rather than to the ports of Montreal, Quebec and Halifax; That it is currently believed, and publicly stated that such physical obstacles existed at the point where it was proposed to construct the said bridge, that no consent, such as was contemplated by the statute, would, or could ever be given to the same; That your petitioners were desirous by these statements, and in order to avoid serious opposition to the said scheme, to call attention to the same; That your petitioners pray that you will take such measures in the premises as are most conducive to the interests of the Dominion.

His Worship the Mayor and the gentlemen addressed the meeting to a close after having heartily approved of the scheme.

A CENTENARIAN. Death of John Battle in St. Bridget's Home. John Battle, born in the county of Donegal, Ireland, in the year 1767, died 31st ultimo in St. Bridget's Home. Although considerably enfeebled during the latter years of his life, the old man's memory was effective to the end. He could converse readily on the stirring events of 1798, and could relate incidents of the battles of Oulart Hill, Vinegar Hill, and other engagements of that very exciting and prodigally-to-be-remembered period. His memory was severely tested about four years ago, when he was visited by Lord Dufferin. His Excellency questioned him pretty closely about the events connected with '98, but they were answered clearly and without hesitation. The deceased, who was the son of Martin Battle and Catherine Temple, was a regular attendant at church, despite his enfeebled condition, but during the last nine years of his life he has been an inmate of St. Bridget's Home.

2,200 houses were burned by a fire at Hakodadi, Japan. Schouvaloff has been appointed Governor of Moscow. Lewis residents are destroying Government property. Halifax has superior facilities to Portland for cattle shipping. Colored Floridians have attempted to squat on vacant public lands. Many persons were killed by a dynamite explosion in Pesth, Hungary. Toronto cannot legally grant \$10,000 to Ireland from the civic funds.

HOLLOWAY'S OINTMENT AND PILLS—EVER useful. The afflicted by illness should look their diseases fully in the face, and at once seek a remedy for them. A short search will convince the most sceptical that these noble medicaments have afforded ease, comfort, and oftentimes complete recovery, to the most tortured sufferers. The Ointment will cure all descriptions of sores, wounds, bad legs, sprains, eruptions, erysipelas, rheumatism, gout and skin affections. The Pills never fail in correcting and strengthening the stomach, and in restoring a deranged liver to a wholesome condition, in rousing torpid kidneys to increase their secretion, and in re-establishing the natural healthy activity of the bowels. Holloway's are the remedies for complaints of all classes of society. 18 wt
