 HAMILTON, ONTARIO

MANUFACTURERS AND DEALERS IN

HIGH-CLASS
ROADMAKING
MACHINERY.

Read What Mr. A. W. Campbell says: "Heavy rollers have been little used in this country. Municipal officials are fast becoming convinced of their usefulness, and within the past couple of years several have been purchased in the province, and in every instance they are greatly appreciated. In order that the best results may be obtained,

ROLLERS ARE INDISPENSABLE.

"Material should be carefully selected and applied. It should then be compressed so that the whole mass would be joined to support the traffic instead of a few individual or disconnected particles. Grading machines are being extensively used on country roads, and have established their merits in performing the work for which they are intended, but the good results are largely lost in the absence of their counterpart—the roller. When the grader has finished its work the soil is left loose to be displaced readily under traffic and absorb moisture, whereas if thoroughly consolidated by rolling, the full benefit would be realized.

PORTABLE CRUSHING PLANT ON THE ROAD.
