

9 GEORGE V, A. 1919

(r) That in connection with the deep waterway from the Great Lakes to the Atlantic, to which Canada is practically committed, the Governments of both countries should keep control of the bed and full flow of the river so that private corporations may not acquire vested interests therein to be afterwards expropriated or re-purchased.

(s) As has been repeatedly stated to your Commission, Canada is opposed to any piecemeal development of the St. Lawrence particularly by private corporations.

Respectfully submitted,

FRANK H. KEEFER,

*of Counsel for the Dominion of Canada.*
