was realised to what terrible purposes electronics can be put. And there is no doubt that many of us are very terrified at the prospects of the havoc and destruction that could be wrought by these atomic forces that men have now discovered.

But after all most of us believe that it is

not merely men who determine the course of human events and perhaps it may be permitted to continue the belief in the Greater Force than that of human intelligence in the Greater Force than that of human intelligence in the design the destinies of mankind and permits that does design the destinies of mankind and permits us to discover only those forces that we can control us to discover only those forces that we can control with their likely use. The discovery of fire and with their likely use. The discovery of fire and relectricity have given greater comfort and greater electricity have given greater comfort and greater electricity have given greater that these welfare to this world. And when we realise that these welfare to this world. And when we realise that these welfare to this world. And when we realise that these that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the attempt by any one of us to use them against that the end of this 20th century and the end of would mean the end of this 20th century and the end of would mean the end of this 20th century and the end of would mean the end of this 20th century and the end of would mean the end of this 20th century and the end of would mean the end of this 20th century and the end of would mean the end of this 20th century and the end of would mean the end of us to use them against that the attempt any of the centu

And I can assure the Prime Minister and the people of India that we enjoy their friendship, the warmth of their friendship. But we are very self-interested in our attempt to display our own friendship because in our attempt to display our own friendship because we do realise that under present world conditions a we do realise that under present world conditions a we do realise that under present world conditions a we do realise that under present world conditions a we do realise that under present world conditions a we do realise that under present world conditions a we hope that welfare any one continent. And likewise we hope that welfare and and prosperity and opportunities to derive benefit and and prosperity and opportunities of wise and All-seeing satisfaction from the bounties of wise and All-seeing satisfaction from the bounties of any one country Providence will also be not the lot of any one country Providence will also be not the lot of any one country or any one continent. But that all can work together or any one continent. But that all can work together or any one continent. But that all can work together or any one continent. But that all can work together or any one country existing to derive benefit when we see the being new discoveries. But still when we see the being new discoveries. But still when we see the being new discoveries. But still when we are really existing fear, we begin to wonder if we are really making any discoveries.

For a country like mine, with a relatively small population, immense areas and immense resources which still are untapped, we find ourselves in much the same position as your great people of India. We the same position as your great people of India. We the same position as your great people of India. We the same position as your great people of India. We the same position as your share to keep the world be at peace. We wish to do our share to keep the world be at peace. We know it cannot be a large share but we at peace. We know it cannot be a large share but we at peace. We know it cannot be a large share but we at peace at the same quality, if not of know that it can be of the same quality, if not of know that it can be of the world. And we are beginning really great nations of the world. And we are beginning really great nations of the world. And we are beginning really great nations of the world and we come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to the It think it is a healthy thing for us to come to It the people of Canada assure the Prime Minister that the people of Canada assure the Prime Minister that the people of Canada assure the Prime Minister is visit to India, there going to repay the Prime Minister's visit to India, there going to repay the Prime Minister's visit to India, there
