

A convulsion occasioned by a purging potion is mortal.

## R. R. R. PILLS.

Purgation Made Perfect

IN

## RADWAY'S PILLS.

Uniformity and Safety of  
Action Secured.

### The Digestive Organs,

showing the course of substances  
taken into the stomach along the  
canal:

1. The Mouth. 2. The Trachea.
3. Oesophagus. 4. Inside Stomach.
5. Gall Bladder. 6. Duodenum.
7. The Anus.

### Perfect Digestion

will be accomplished by taking  
one of Radway's Pills every morn-  
ing, about 10 o'clock, as a Dinner-  
Pill. By so doing, Dyspepsia,  
Headache, Foul Stomach, Bil-  
iousness, will be avoided, and  
the food that is eaten contribute  
its nourishing properties for the  
support of the natural waste and  
decay of the body.

Imperfect digestion frequently  
occurs when the bowels are regu-  
lar; the constituents of solids that  
are not absorbed in circulation,  
from imperfect digestion, are fre-  
quently directed to the kidneys  
for their escape. In such cases  
serious damage is done to the kid-  
neys, as the urine secreted from  
imperfectly digested substances  
or food, or those constituents not

secreted by the liver or gall duct, establishes a foreign secretion, in the form of  
Albumen, Sugar, Urea, Uric Acid, causing Bright's Disease, Diabetes, Dropsy,  
Renal Diseases of the Kidneys, Congestion, Degeneration, Ulceration, Gravel,  
Bloody Urine, etc. To prevent these serious and often fatal difficulties, take  
one of Radway's Pills every morning, two hours before dinner.

Imperfect digestion may be known by a capricious appetite, craving for food,  
great thirst, dryness in the mouth, dry skin, hot, fetid breath, restlessness,  
acidity, heartburn, swellings in the abdomen, chest, legs, cold feet, frequent  
desire to urinate, varied color of urine, etc. Were these symptoms are present  
the SAESAPARILLIAN should be taken three times per day, and the Pills one  
to six, as the case may require. As soon as digestion becomes perfect, these  
unfavorable symptoms will disappear.

Codfish, dry, boiled, digests in two hours.

Salmon trout, boiled or fried, digests in one hour and thirty minutes.

In the morning diseases are generally more remiss.
