Atlantic City, N.J.. Aug. 4.—The two principal witnesses in the inquest into the deaths resulting from the Meadow colliston were on the stand this morning. They were George F. Hauser, the tower operator, who set the signals at the time of the accident, and Thomas Hollihan, fireman of the Reading express. Hauser's testimony, which has been borne out by previous witnesses, shows that the excursion had a clear track, and that the danger signals were set against the express. While from the evidence it is shown that the express was usually given the right of way and that Hauser may have done an unusual thing in giving an excursion train the privilege of crossing, he fulfilled his duty by setting in giving an excursion train the privilege of crossing, he fulfilled his duty by setting the danger signals set as his train approached the crossing. He could not see Engineer Farr over the top of the boiler, but from the movement of the right of way and the first that he shades before the collision. The brakes seemed to work, but the momentum of the train was too great to stop before the two trains came together.

Mr. Thomas Newton, late of 199 Weitesley-street, of this city, now of Greensville, Ont., died at his late residence on July 30. For an number of years he was Postmaster of the Wellesley-street branch, leaving Toronto last March to hold a similar position at Greensville. Mr. Newton was a staunch Cobservative and came down to the city during the late campaign to cast his vote. His many Toronto friends will extend to his family their heartfelt sympathy in this sad bereavement.

A. Davidson has lost a large number of lambs and some sheep by coyotes this season. W. Nicholson of Sturgeon settlement has also lost some from the same cause. Indeed, there seems to be a general com-

plaint that coyotes are becoming very much more bold and troublesome than usual. The reason is the decrease of rabbits, which are the principal food of the coyotes, compelling them to search for food closer to the settlements than before.

send the following despatch to their branch office at Toronto. New York, Airg. 4.—The Chicago situation has dominated the stock market today. It is said the Stock Exchange in that city will not be re-opened for two weeks and committees have been appointed by the banks and the Stock Exchange to concer with regard to specified of attairs. It is generally believed the Diamond Match stock held by the banks there was margined up to 165 had that it will be worth that price. Sevenal of the most influential local capitalists are interested in the situation and will prevent forced sales of the securities affected. The market here has been very nervous and evidently fears Chicago failures. Prices have been irregular and uneasy and there is apparently a good deal of anxiety. Excitement was lacking throughout the day, though some of the declines were on the whole heavy. At the close of the day the tone of the market was decidedly weak. The failure of Moore & Bros., Chicago, manipulators of Match stock and New York Biscuit, had a decidedly bearish effect on all the speculative markets, excepting provisions. The stock exchange at Chicago closed down, and at New York there was nearly a panic.

The speculation value of Moore & Bros.' failure is said to be \$20,000,000. There was withdrawn from the United States Treasury yesterday \$485,000 gold. The gold balance is \$110,085,890. of a million bushels, a decrease in Eraustreet's report of over 3,000,000 bushels, and finally great strength in pork market, all combined to help wheat. There was good demand for car lots of No. 2 red winter to go to country millers on basis of 3½c over September f.o.b. cars. There was 100,000 bushels No. 3 red and 45,000 bushels No. 2 red taken for shipment East. The market stood strain of a session of panicky and unsettled feeling in financial circles and shows indercurrent of strength which exists in market, due, we think, to strong cash josticol.

Provisions—Market started strong on a big falling off in receipts of hogs. Failure in Spock Exchange had no effect upon prices. Advance in September pork was equal to 70c per bbl. and was due to repeated reports of a deal on which local shorts bought very freely. October pork was \$1 per bbl. discount. At the extreme advance there was some realizing by longs, but the market closed steady. We do not take much stock in rumors of a deal and do not believe the long pork is sufficient in quantity nor so well concentrated as to cause much uneasiness. Estimated hogs to-morrow 17,000.

CHICAGO GOSSIP.

Henry A. King & Co., 12 King-street east, received the following despatch to-day from Chicago:

Wheat—Opened lower this morning. The uneasy feeling, resulting from the failures on the Stock Exchange, was the main cause of the weak opening, but the market quickly rallied on continued buying by a number of local professionals, who took advantage to take on fresh lines. There were the usual conflicting reports from the spring wheat States. Foreigners are inclined to take our wheat on a basis of 58c represpender. Shipments from other exporting countries are decreasing, and we consider our position in regard to the foreign demand extremely favorable to holders. Local receipts were 247 cars winter wheat and 19 cars spring, but the grading was miserable. We think the market should cobetter. Northwestern receipts were 400 cars, against 109 cars a year ago.

Corn—Market was surprisingly strong toders. A.E. Webb (Member Toronto Stock Exchange). 8 King-street East Stocks, Bonds and Debentures Bought and sold. Money to Loan.
