### FROM ALL PARTS OF ONTARIO NOMINATIONS ARE POURING IN

Offer of The World to Give Away \$15,000 in Prizes Has Brought Out a Large List of Candidates-What the Contest

That cities, towns and villages in all parts of Ontario are replying to The World's big contest announcement by sending in nominations, is one of the many evidences of the wide interest which this undertaking has caused It must be that in nearly every home being discussed and that all who have read of the contest realize its magnitude and importance.

Many Well-Known Candidates.

Altho the nominations have only been open a few days, all the large departmental stores in Toronto, varous social organizations and societies, fraternal orders and private individuals, have sent in candidates, and when the list is published in a few days it will cause no end of interest; it will contain names of persons well known in many walks of life. During the present week this list will appear in the morning edition of The World.

business and in professional careers. In short, the list is the largest and most general in character that has ever been published by a Canadian It is not to be wondered at that the candidates should be so numerous, when it is remembered that The World in this contest is offering over fifty prizes, the principal one of which is a house and lot in Toronto valued at by the paper from a well-known real state agent of the city, and will bear inspection by anyone who understands the value of a home. That some one is going to be richer next autumn by \$4000 is evident from the number of contestants who have entered in the city. It is seldom in life; that so large plum is offered, but the greatne of the contest warrants The World winner of the first grand prize,

An Easy Win For Someone The public must also bear in mind with respect to this prize, that there is also \$100 given at the close of the contest to the person who nominates the winner of this grand prize,

In addition to these, such awards as two splendid automobiles, a motor boat, a trip to Europe, a vacation trip to Muskoka, diamond rings and many other prizes are awaiting those who work and are successful. These total up to the handsome amount of \$15,000. The one thing that The World desires to impress upon the mind of all readers at the present time is the necessity of sending in nominations.

The nominations have a short time yet to run, but the man who gets a good start in any race stands the best show of winning, and likewise in this contest the ones who get their nomin-In many cases the nominees are ation blanks in early and begin to popular young women who have an pile up votes are the ones who are
