### GROSVENOR HOUSE HAS CHANGED HANDS

Hotel Property at Yonge and Alexander Sold For \$100,000—In Yonge-Carlton Block.

It was reported yesterday that the Grosvenor Hotel property at the corner of Alexander and Yonge streets had been sold for \$100,000. The present tenant, it is understood, has a lease of ten years on the property, which is owned by the O'Keefe Brewing Company. The deal is being put thru by the H. H. Williams & Co., and it is understood that the purchase of this property is closely connected with the big real estate purchases which have been made for the Carlton-street block. It is thought that an amicable arrangement will be made by which the lease of the property will be bought out.

It is understood that in the two blocks bounded by Yonge, Alexander Church and Carlton, and in which the Grosvenor is located, there are only two properties which have not changed hands within the last year, all of the transactions having passed thru the hands of H. H. Williams & Co.

The Consolidated Plate Glass Company of Canada Limited, with premises at 75 West Wellington-street, have purchased a new site on the east side of Spadina-avenue between Grange and Sullivan streets, on which they will erect a new factory in the immediate future. The property has a frontage of 50 feet on Spadina, and it is reported that a good round price was paid. The company will erect a new fireproof factory of brick construction, four or five stories in height.

### ANOTHER BIG STORE

W. A. Murray & Co. and the John Kay Co. to Unite.

While the parties named yesterday maintained a discreet silence, no details were made of a reported merger of W. A. Murray & Co., the old-established high-class general dry goods store, and the John Kay Co., house furnishings, old-established and well known. The Murray-Kay Company, Ltd., is to be capitalized at \$5,000,000 and will erect a large building on Yonge-street, not in the block the future of which has for some months been a well-preserved mystery.

The merger, it is reported, is assured, the plans are not complete, but for official announcement. Mr. Parkyn Murray will be the president of the new company and the directors are: J. W. Dryman, J. D. Kay, Mr. H. W. Bradshaw, Mr. Dymond and two others not yet chosen. Major J. A. Murray is vice-president.

According to one of the personnel of the new company it is going to be a store of the highest class, but no attempt will be made to develop into a general departmental store.

"That was why these two old companies went in together," he said, "we are going to follow the example of Altman & Co. of New York, which is famous as being the best firm in America, dealing in the highest class of trade only."

## SHACKTOWN DWELLERS SLOW TO AID MISSIONS

British Immigrants Look for Church Support, Says Rev. Robert Gay at Synod Meeting.

That some of the most heroic work in Canada is being carried out by the Anglican Church in "Shacktown" district, only four or five miles from the heart of Toronto, was a statement made by Bishop Sweeney at the annual missionary meeting of the synod of the diocese of Toronto held in the parish house of St. James' Cathedral last night. His lordship presided and, despite the sultriness, the attendance was large.

The difficulties of the work were also strikingly emphasized by Rev. Robert Gay, in charge of St. Monica's Mission, Norway. He said that 99 per cent. of the people in the neighborhood were immigrants from England, and that while there were some good specimens of church-going men, the large majority had no conception of the life and work of the Church of England in Canada. They had to be taught that they should not look to the church for their own sustenance.

After the opening prayer by Bishop Reeve, Bishop Sweeney spoke in warm approbation of the mission work of the diocese, and paid a tribute to the stimulus given it by the laymen's mission movement and the invaluable aid of the women's auxiliary.

Archdeacon Warren, the missionary secretary, spoke of the mission work in Toronto's suburbs and the demanding great sacrifices, while the northeastern part of the diocese was a veritable wilderness of 400 square miles. Good results were expected from the appointment by the bishop of a chief missionary for the Haliburton district and the grouping of the mission boards.

Rev. E. R. James, Alliston, explained that his church there had been held back in becoming self-supporting by a schism which had led to the founding of a rival church, but that the latter had now gone out of existence.

Conditions in Haliburton.

Rev. C. V. Phipps, in a humorous way the privations of missionary life in Ontario's northern wilds, but showed earnestness in his declaration that "miserable pitances" were the reward.

Rev. T. A. Nind of Minden, Haliburton, asserted that the struggle of the livelihood from the soil and the death of clergymen to carry on church work was causing a sad spiritual deterioration, this being especially noticeable in the women.

## FEARED BISHOP'S POWER ON DISESTABLISHMENT

But His Lordship Pooh-Poohs the Creation of a Bogey—Change in Representation Deferred.

The Anglican synod held only a morning session yesterday, adjourning for the afternoon to attend the funeral of the late Rev. John Pearson.

The synod, however, voted to refer the question of changing from parochial to congregational representation back to the executive, deferring action for another year, although Tuesday night the change had been approved. The turnover was the result of considering the various clauses to amend the constitution.

J. R. Roaf, K.C., suggested as an amendment three delegates for each senior congregation in a parish, and one for each smaller congregation. E. Mortimer offered another amendment, that senior churches having 100 or more communicants should be entitled to three delegates and other churches in a parish to one. Senior churches with 50 or more communicants should be entitled to two, and less than 50, one delegate, or the same as the "junior churches" in the parish.

Supporting the amendment, Canon Sprague of Cobourg, characterized as "unjust, unfair and unfair," the system proposed by Chancellor Worrell. By a parish of one church having a congregation of 100 members would have but three delegates while a parish with three or four churches and but 200 members altogether would have five or six delegates.

Chancellor Worrell opposed the amendment, pointing out that to give representation according to communicants would bring up a new issue, as in the past it had not been necessary for the adherents of a church to be communicants. Among other things he advocated reference back was Hon. S. H. Blake.

The executive amendments giving the bishop power to appoint two clergymen and two laymen, not associated with the parish in question, to consider the disestablishment of a parish, were opposed by Rev. A. J. Fidler.

"This is too radical; it gives power to the bishop which might become a political tool," he declared. "The laity cannot stand for it. It is monstrous. It can become terrible in days to come."

A desire to give power is as far away from disestablishment as the earth from Halley's comet," replied Bishop Sweeney. "No step would be taken without consultation with the wardens. Don't let us create a bogey and fight it. Don't think a bishop would be mad enough to say this or that parish shall be wiped out. Please give me credit for wanting to do the best for all parties and for Him whom I serve." (Applause.)

"If we can't trust our bishop to do what is right and proper and in the best interests of the church, we had better stop having government by bishop at once," said Chancellor Worrell.

A jury was empaneled this afternoon and an inquest will be held.

## The Best Landscape Gardening in Ontario

Mr. W. S. Brooke of England, and with a string of engineering titles after his name, is performing a landscape transformation in Lawrence Park. Preserving the natural ravine between Yonge Street and the main tableland, he has turned it into a lovely park, with lawns, terraces, trees, shrubs, and in one section, a beautiful wooded hillside. All are thrown in as a free beauty donation on the part of the Dovercourt Land Company for the benefit of the park residents. This is soon to be one of the most beautiful suburban districts, perhaps in Canada. It is situated at Glen Grove, Metropolitan Railway, Yonge Street, "North."

## BORDEN REVIEWS NAVAL POLICY BLUNDERS

Continued From Page 1.

side the fate of the British Empire and the danger to the issue of the world ship would be of much account unless of the latest armoured battleship type.

"What does the government propose?" A small fleet of unarmoured cruisers, not one of which could take its place in the battle line and every one of which would be obliged to seek the protection of a battleship or a New Zealand or Australian Dreadnought in the presence of a battleship or armoured cruiser of the enemy. As a fighting force the proposed navy is therefore practically useless. Yet, according to the government estimate, the expenditure during the next ten years will not amount to less than \$50,000,000.

**Mr. Wilfrid Laurier's Policy.**

"The government propose that the Canadian naval unit shall be placed at the disposal of his majesty when and only when an order-in-council has been passed by the government to that effect. If no order-in-council is passed, then the Canadian naval force is not placed at the disposal of his majesty in time of war. Sir Wilfrid Laurier has expressed peculiar views in this regard. He has affirmed in many words that he intends to exercise discretion and discrimination as to whether Canada shall assist the mother country in time of danger.

"The position of the prime minister is untenable from a constitutional point of view and unworkable from a practical standpoint. It is also dangerous and revolutionary, involving as it does a declaration of Canada's complete separation from the empire.

"Let us examine the question briefly. The great dominions of the empire are distant from the mother country and from each other and their armed forces equipped for the preservation of their territory may not be sent abroad without the consent of parliament. But the Canadian naval force is sent abroad. The continents are separated but the sea is one.

**Problems of Neutrality.**

"The prime minister contemplates a Canadian fleet flying the British flag and remaining in effect neutral while the enemy is attacking British ships or destroying British commerce. According to his principle and according to his bill, Canadian ships take no part in any war, no matter how sudden the attack, no matter how disastrous its consequences, unless and until the ministers of the crown have been called together.

## Ordered to Hospital

FOR OPERATION FOR ACUTE INDIGESTION—DID NOT GO AND WAS CURED BY

## DR. CHASE'S KIDNEY-LIVER PILLS

A medicine that will save one from a surgical operation must be worth while. The doctors seem to have made the common mistake of dosing the stomach with the liver and kidneys. Anyway, Dr. Chase's Kidney and Liver Pills made a complete cure and here is the record:

Mrs. F. O. Bacon, Baldwin's Mills, Que., writes:—"I was very sick and the doctors said I must go to the hospital for a surgical operation. I had acute indigestion and the liver and kidneys did not act. I did not want to undergo an operation. I began the use of Dr. Chase's Kidney and Liver Pills and have used them ever since."

"I am feeling well now, and doing my own work for a family of seven. I think there is no equal for acute indigestion and liver and kidney troubles such as I had and they are nothing else made me well again. There is no medicine I like so well, for this did wonders for me."

The real secret of indigestion almost always have their location in the bowels and can only be reached by making the liver and kidneys active. No medicine regulates the liver, kidneys and bowels so nicely and so promptly as Dr. Chase's Kidney and Liver Pills. One pill a day, 25 cents a box, all dealers; or Edmondson, Bates & Co., Toronto. Do not be satisfied with a substitute or you will be disappointed.
