Commission Houses Sell on

WHEAT DEVELOPS

EASIER MARKET

Chicago, Jan. 25,-Selling by commission houses, due to the failure of foreigners to come into the market on an active scale, brought about an easier tone in the wheat market today after it had displayed firmness. Earlier in the session the belief prevailed that a considerable export business had been done, but when large sales were not confirmed some disappointment was expressed, and offerings in the pit, which had been scant, increased. At one, time shorts were compelled to cover, but they showed less anxiety as the session advanced and final quotations were at or around the bottom altho a shade above yesterday's close.

After having touched \$1.867-8, May sold down to \$1.847-8 or within 1-8 cent of yesterday's close, and finished at \$1.86 to \$1.847-8; July at the best was 11-2 cents above yesterday's last price, at \$1.543-4, and sold off to \$1.533-8, closing at \$1.535-8 to \$1.531-2; September at the top was \$1.397-8, declining to \$1.331-4, and ending at \$1.385-8, against \$1.331-4, the final quotation of yesterday. large sales were not confirmed the top was \$1.39 7-8, declining to \$1.38 3-4 and ending at \$1.38 5-8, against \$1.38 1-4 the final quotation of yesterday.

Basic conditions, however, were considered strong. A despatch from Minueapolis said that farmers in the northwest were not inclined to market any volume of wheat at present quotations. Elevator interests said that their purchases were practically nothing. The car situation there was declared to be bad, and it was said that millers were discriminating against grain on cars that could not leave the main line. Clearances for the day were not up to expectations, but it was stated that a large number of steamers were loding. Trade at Liverpool was dull, pending fresh developments in the freight situation. One cable said that bottoms were increasing and that rates were slowly declining. Shipments from Argentina for the week were estimated at 2.405,000 bushels, against 524,000 bushels last year.

A reactionary tendency developed in corn after it has shown firmness. The weather in Argentina continued hot and clear, and crop news from that country was decidedly unfavorable. It was said that exports of all grain from that country probably would be prohibited in March. Shipments from there for the week were estimated at 1.600,000 bushels, compared with 927,000 bushels a year ago. There was a good demand for export in this country, but business was limited by a lack of offerings.

Outs 30.51.52. There was a good definant of such this country, but business was limited by a lack of offerings.

Oats also sold off after having been relatively stronger than any other grain. Some of the big shorts ran to cover. No exports were expected from Argentina for the week.
