POTATOES IN GREAT ABUNDANCE WILL BE ON MARKET THIS YEAR

Department of Agriculture Estimates That There is an Increased Growth of 120,000 Bushels Which Will Keep Prices at Low Level—Housewife Swindled by Vendors of the "Irish Cobbler" Tuber, a Very Inferior Grade.

The family potato barrel will not fail in Ontario homes this winter, according to present crop indications. From this time forth the market for this product will open up, and the farmers gathering in the harvests will bring in unusually large returns of tubers. It has been estimated by the department of agriculture that 120,000 more bushels will be handled this year than in 1912, and the supplies of the last season were accounted somewhat of a record. The potatoes of 1913 will not be any larger than usual, but the quality is very fine. The remarkably bright weather which has prevailed during the past two months is responsible for this, the heat and drought working more towards the preservation of the crop than the rains which were so plentiful last year.

Some idea of the increase may be gathered from the fact that 159,661 acres have been placed under this form of cultivation this year, in comparison with 155,888 in 1912. Altogether, it is expected that about 18,250,000 bushels will be on sale this fall, marking an increase of 120,000 over a year ago. That old enemy of the potato farmer, the "dry rot," has caused considerable anxiety, notwithstanding the careful spraying and cultivation which is now an important part of growth. This disease is an increasing cause of trouble from year to year in that no accurate method has yet been found to totally eradicate it. Its devastation is more feared by the farmer than that of the beetle, or old-fashioned potato bug, with which the farm youth for generations has been on most familiar terms. Study has shown that the most scientific method of coping with it is by constant spraying.

Housewife Swindled.
Deputy Minister Roadhouse states that some interest has been caused in the situation this year by an attempt on the part of certain merchants to place on the market the Irish Cobbler potato which is a tuber of rather prepossessing appearance, but rather unsatisfying at the core. In fact it has a heart which does not always succumb to the housewife's culinary devices. The grade has been from New Brunswick and has proven very popular with the ephemeral street vendor, who makes quick sales and does not return to the same district for some time. There has been general complaint among housekeepers of the prevalence of dry rot in this variety, and steps may be taken by the department to warn the province of the poor quality. The price is very much lower than usual and this in itself is a warning.

There is one danger, however, for which the department is on the alert, and that is to prevent any possibility of the variety being introduced as seed into the province. Thus far the public market alone has been catered to, but should farmers attempt to make seedling of it the matter will be thoroughly taken up and active measures at prevention instituted.

MARKET GLUTTED; FRUIT WAS SOLD AT LOW PRICES

Toronto Market Too Small to Accommodate Sixty Thousand Baskets—Fruit Almost Given Away.

That the Toronto fruit market is too small to accommodate the quantity of fruit shipped there, was evident again Saturday when between thirty and forty carloads of fruit could not be unloaded on account of lack of room. It is estimated that nearly sixty thousand baskets of peaches, plums and pears were offered for sale. This overstocked condition was by no means confined to Toronto as the following dispatch from Hamilton market today resulted in prices being shattered. It was estimated that 30,000 baskets of fruit, including apples, were unable to find any price. The growers say that they are unable to ship the stuff east because commission agents are already overstocked and refuse to handle any more.

Sold Off Cheap.
Peaches ranged at from 20c to 30c, lemons sixes going at 20c to 25c and difference in price was due mostly to the difference in size, although the smaller fruit is admitted to be as good, if not superior, in flavor to the larger varieties.

Pears were sold at from 25c to 35c a basket, the quantity being, as in the apples were, on the other hand, rather scarce. There were no Northern Spies whatever at the fruit sheds and the other kinds were not seen in very large quantities. Several dealers stated that the supply which they had earlier in the day was very soon exhausted. The prevailing prices ranged from two to three dollars a barrel. Grapes were plentiful, selling at 20c for Niagara and Concord and 25c for Rogers and Delaware.

Plums sold at from 15c to 30c, while 40c was asked for some of the fancy varieties. A glut of fruit could be had at decidedly low prices.

ONLY THREE PER CENT. ARE LEFT-HANDED.
Why not make more use of your left hand? It has been estimated that 97 per cent of English-speaking people are right-handed after they grow up. Only seventeen out of every 100 persons are born right-handed. The remaining 83 per cent, are born with more than an inclination to use one hand trained, they should be able to use both hands. During early childhood influences are

Mrs. George Hae, Mrs. Hae, wearing a French model gown of dark blue made with the new top skirt, black hat with lace frill and upstanding feather. Mr. Costin, Col. and Mrs. Bruce, Miss Marion Gibson, in blue foulard and a hat with green; Mr. Gibson Arnold, in a very smart black coat and small hat; Mrs. F. Lyons, in a becoming black hat, gown, real lace coat and imported hat of paddy green; Mr. and Mrs. Tait, Oakley, Mr. and Mrs. P. C. Larkin, the latter in blue satin and black, and a black and white hat; Miss Larkin, in a black and white hat; Mrs. Charter Palmer, in a dark tailored dress and blue satin and tulle hat and bouquet of orchids.

Has, the latter in black satin and a Japanese unbordered coat, with blue hat; Miss Nellie Maclean, a white tailored and black hat; Mr. and Mrs. Robert Laidlaw, the latter in pale green; Mr. Geary, Mr. Timmins; Mr. and Mrs. Zorla Ryerson; Mr. George Hae; Mrs. Hae, wearing a French model gown of dark blue made with the new top skirt, black hat with lace frill and upstanding feather; Mr. Costin, Col. and Mrs. Bruce; Miss Marion Gibson, in blue foulard and a hat with green; Mr. Gibson Arnold, in a very smart black coat and small hat; Mrs. F. Lyons, in a becoming black hat, gown, real lace coat and imported hat of paddy green; Mr. and Mrs. Tait, Oakley, Mr. and Mrs. P. C. Larkin, the latter in blue satin and black, and a black and white hat; Miss Larkin, in a black and white hat; Mrs. Charter Palmer, in a dark tailored dress and blue satin and tulle hat and bouquet of orchids.

brought to bear to make children right-handed. Thru a mere superstition it is considered wrong for a child to be left-handed, so he is taught to neglect his left hand. The muscles do not develop properly. The left hand becomes less dextrous. The boy has been deprived of the full use of one of his limbs thru improper training. It is impossible to calculate how much men lose because they have not cultivated their left hands. In primitive times every one was ambidextrous.

WILL HELP PLAN CAPITAL DISTRICT

R. Home Smith and Frank Darling on Government Commission For Ottawa Development.

OTTAWA, Sept. 20.—(Can. Press).—It is stated today that the commission to be appointed by the Dominion Government to draw up a plan for the systematic development of the capital district will probably be composed as follows: H. S. Holt, Montreal; R. Home Smith, Toronto; Frank Darling, Toronto; Mermidas Laporte, mayor of Montreal from 1904 to 1908; the mayor of Ottawa; the mayor of Hull. These gentlemen, it is known, have been invited to join the commission, and the coming week will reveal whether they have accepted. They are all men accustomed to big undertakings, and several of them have given special attention to city planning.

RAILWAY FIGHT RAGING AT GALT

Officials and Employees of Two Lines at War—Two Arrests.

GALT, Sept. 20.—(Special).—A miniature railway war has been raging in this vicinity for the past three days, the belligerents being the Grand Valley Railway and the rival, the new Lake Erie and Northern. The fight has been carried on by officials and workmen of the two lines. The trouble arose over the new railway putting in a diamond near Galt to cross the Grand Valley tracks, and to prevent the new lines from making progress the opposing road has special constables on the scene, and two arrests were made, although the Grand Valley Railway put up every resist-

GRENFELL TO ACT IN WHITE HOUSE WEDDING.

PHILADELPHIA, Sept. 20.—Dr. Willard T. Grenfell, head of the Laurator Mission for Deep Sea Fishermen, will act as best man for Francis B. Sayre when he is married to the president's daughter, Miss Jessie Wilson, at the White House, on Nov. 25, it is said. Dr. and Mrs. Grenfell are expected in Philadelphia in a few days. They are planning to spend the winter in England.

ance; but the promoters of the new line were not asleep. Last night a G. V. R. car was left standing on the tracks where the diamond was to be placed, as an obstacle to the work. This did not stop the L. E. and N. people. During the night the car was pulled away by an L. E. and N. engine and the diamond placed. The reason for so much rivalry between the two companies is not difficult to appreciate. The scene of the hostilities was

transferred to Galt police court today, where Mr. Kellat, general manager of the L. E. and N., formerly manager of the G. V. R., was charged with two offences, trespassing and unlawful attempt to displace a track of the L. E. and N. was charged with obstruction under the Railway Act. A formidable array of lawyers and officials were present. All the charges were dismissed by P. M. Blake, in the capacity of justice of the peace, after lengthy testimony. Strong feeling, however, still prevails, and there is likely to be a clash between the employees of the rival roads, many of whom are rough fellows, spoiling for a fight. All the employees of the G. V. R. have been sworn in as special constables.

Mrs. Deulafay, the famous explorer and traveler, is the only woman in France who is permitted to wear male attire, a law being passed specially for her benefit. Did you ever hear of a man's growing lean by the reading of "Romeo and Juliet," or blowing his brains out because Desdemona was malign?—Oliver Wendell Holmes.

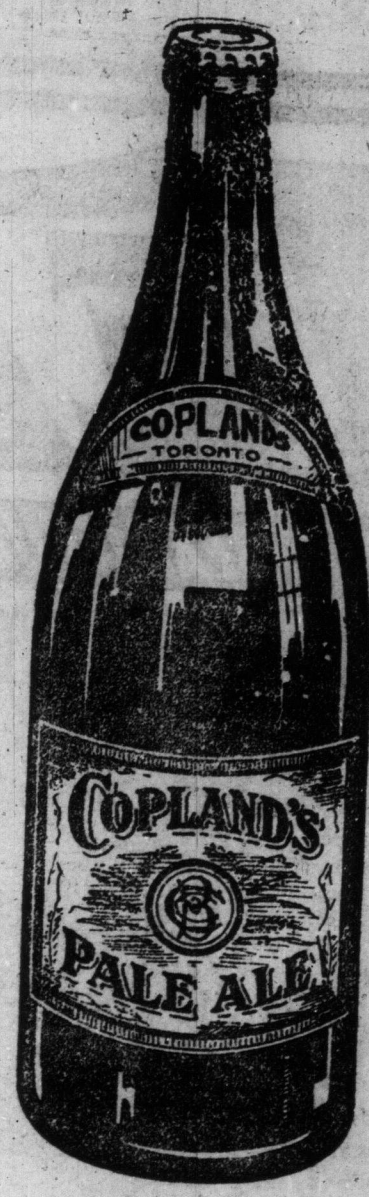

Coplands PALE ALE

is the kind you're looking for

Coplandsale specialty is at your service if you're hunting something better to drink.

It is that sparkling, lively, amber ale in which you can taste the real hop flavor and barley from Canada's best crops—all sweet and clean. We are making ale that suits them all and you're no exception if you can appreciate good beer. Get the name right and order to-day: Coplands Pale Ale at your dealer's.

It comes from the sanitary plant of
