

Good Things Coming
to
Theatres of St. John

AT THE OPERA HOUSE
You can forget the unpleasant weather and escape the cold winds by dropping in to the Opera House tonight and enjoying one of the best vaudeville programmes of the season. The Newmans in thrilling feats on the bicycle and unicycle and a novelty for this city; Myrtle, Jess and Art present a pleasing comedy and musical act; Stone and Hughes offer a classy and fancy dancing; the Davis Bros. in clown and pantomime work and an imitation of a courtship in bird land offer splendid entertainment, and Marie Laurent is a prima donna with beautiful range of voice. Most of those who saw the performance Saturday and yesterday say that it is the best yet.

Two shows tonight at 7.30 and 9. Every afternoon at 2.30. Very little prices to all.

THE GEM CALLS YOU.
If you've not yet seen Thea Bara in "The Vixen," don't miss it. The Gem tonight, as the programme will be entirely changed tomorrow afternoon. Tonight's hours 7.15 and 8.45.

SOCIALIST CONFERENCE
AT STOCKHOLM MAY
BE OFF FOR TIME

Stockholm, May 15, via London.—The Dutch Scandinavian socialist committee has received Emile Vandervelde, a Belgian socialist leader, Hjalmar Branting, Swedish leader, and M. Ranovich, a Russian socialist delegate, who expressed their views on the international situation. Later Jette Borgberg, Danish socialist editor, appeared before the committee and related his experiences on his visit to Russia. M. Borgberg, in reply to a question, said that he had seen in Russia entirely a new initiative. The president of the committee emphasized the adoption of M. Borgberg to the view of the body that the centre of international socialist action, under the present circumstances, should be maintained in a neutral country.

Copenhagen, May 15, via London.—According to the Danes, the bureau for the proposed neutral peace conference will probably issue a statement that the international socialist conference at Stockholm is postponed. The paper says that great dissatisfaction prevails among the delegates and that one member reports that the situation has become more complicated in the last twenty-four hours. The report is that the German independent socialists have been refused passports to attend the conference in Stockholm. It is to our interest to get as much light as possible thrown on the position of the socialist parties in every country, on the express understanding, however, that we are not thereby obliged to sit in conference with socialists who have supported and still support the imperialist policy of the Central Powers.

KITCHEN ECONOMY
TO HELP WIN WAR

Every Woman in Every Walk of Life Must Practice Rigid Economy From Now On

Ottawa, May 15.—Economy, rigid war economy, in every household in the Dominion of Canada, is the keynote of a nation-wide movement set on foot in the capital by prominent ladies of the Dominion, led by the Duchess of Devonshire, and including Lady Borden, Lady Laurier and Miss Alice Fitzpatrick, daughter of the Chief Justice of Canada. In a simple and far from reason-impressive address before the Mancout club the first lady of the land drove home the absolute necessity for every housewife from coast to coast to do her bit in the winning of the war and to do it right in the kitchen and at home by eliminating waste, especially of foods. Each ounce of waste in each Canadian home means hundreds of thousands of pounds of vital foodstuffs lost to Canada. Individually it is small but collectively it would feed a small army.

Every woman in every walk of life and in every part of the Dominion is to be alerted, Her Excellency told the audience. Her Excellency told the audience that the present conditions are to be alleviated, Her Excellency told the audience that the present conditions are to be alleviated, Her Excellency told the audience that the present conditions are to be alleviated.

ARE WOMEN NATURALLY DEPENDENT?

While there are women who seem always dependent and depressed and expecting misfortune, that is not woman's natural condition. Such unfortunate sufferers from ill-health, an abnormal condition of the system expressed itself in nervousness, sleeplessness, backaches, headaches and despondency. If all ailing women would make faithful use of that grand remedy for women's ills, Lydia E. Pinkham's Vegetable Compound, there would be little occasion to ask if femininity is natural to woman.

A HERO AT HOME

(Chatham World.)
The act of the late Andrew H. Marquis, who lost his life while bravely attempting to rescue William Cable from a deadly electric wire, was an act of heroism such as wins Victoria Crosses on the battlefields. He did not delay an instant to count the cost or calculate the chances, but sprang instantly to help the prostrate man. Like the soldier who rushes out under fire to bring in a wounded comrade, like the one who picks up an unexploded enemy shell and removes it to ensure the safety of his fellow men, Marquis sprang to the rescue, regardless of the danger to himself, and lost his life in his heroic effort to save his fellow man.

All honor to this hero of civil life, but more to the brave and untiring workers in our good cause as any hero who has fallen at the front.

IMPERIAL CONTINUES SPLENDID PROGRAMMES

Viagraph Blue Ribbon Feature, a Trip to Lapland and British War Pictures Now On

St. John people evidently take great comfort and relaxation in attending the Imperial's carefully selected bill of pictures, judging from the satisfied crowd of yesterday. When the huge curtain rolled up on the gorgeous stage setting the first pictures to flash on the screen were some of Florence Ross's style creations. These were followed by a visit to Lapland in which 10,000 reindeer were shown following their leader and swimming a dangerous fjord. This was a remarkable photograph and elicited much wonderment. The British Gazette showed French, Russian, English and Canadian war-time pictures.

When the big feature of the programme commenced the people settled back for an hour and a half of genuine entertainment for the cast included such favorites as Dorothy Kelly, Charles Kent, Evans Overton and other prime Viagraphers. This was a story of sixteen miles, boundless wastes and a hero, the slums of a big city and philanthropic work, a good old clergyman and a mainly new-paper reporter. The acting was faultless and the setting of the film play left nothing to be imagined. Best of all, the fiction was pure and wholesome, one of Roy MacCallister's best.

The same splendid programme will be on tonight and along with the Imperial's usually fine orchestral music it will play almost two hours to the genuine pleasure of everybody. Tomorrow that delightful little creature, Marguerite Clark, will be on again in one of the latest triumphs "The Fortunes of Pitt" and those who follow movie movies, know what to expect when Marguerite is on the screen. The Imperial's usual price rule. The special prices when costly superlatives are used.

RHEUMATISM A MYSTERY

Some diseases give immunity from another attack, but rheumatism works just the other way. Every attack of rheumatism invites another worse than the first, reduces the body's power so that each attack is worse than the one before. If any disease needs curing it is rheumatism, but there is scarcely any disease that physicians find more difficult to treat successfully. When a medical doctor prescribes rheumatism it is worthy of special notice. Medical authorities agree that the blood becomes thin with aging rapidly as rheumatism develops. Maintaining the quality of the blood is therefore a reasonable way of preventing and combating rheumatism. That it works out in fact is shown by the beneficial effects which follow the treatment of rheumatism with muscular and articular, with that great blood tonic, Dr. Williams' Pink Pills.

The thousands of people who have taken Dr. Williams' Pink Pills for their rheumatism have been cured in a fact beyond dispute. That rheumatism does not return as long as the blood is kept rich and red is equally true. If, therefore, you are suffering from rheumatism in any form you should lose no time in giving Dr. Williams' Pink Pills a fair trial.
