To Save Your Health
To Save Your Coal—

Use the **RADIATOR HUMIDIFYING PAN**

Leading health authorities say that breathing superheated, dried, indoor air produces more Headaches, Colds, La Grippe and Pneumonia than all other causes combined.

Artificial heat, coming from steam and hot water radiators dries out most of the moisture of indoor air, preventing the natural in-flow and outflow of moisture the human body should have.

THE RADIATOR HUMIDIFYING PAN offers a natural relief from the injuries of impure indoor air. When filled with water and placed on the back of any steam or hot water radiator, between the radiator and the wall out of sight, it evaporates the water, rapidly converting the dry, vitiated indoor air into a moist, healthful atmosphere that Nature requires and good health demands. The Radiator Humidifying Pan is made of HEAVY GALVANIZED IRON TO FIT WIDE OR CLOSE PIPED RADIATORS.

LOCAL NEWS

ON INSPECTION TRIP
H. C. Groat, general superintendent of the C. P. R. New Brunswick division left last evening on an inspection trip along the main line. While absent he intends making arrangements for necessary preparations to handle the winter port business.

WINTER PORT PASSES
Passes for those who have business in the suburbs or along the wharves in West St. John this winter, will be supplied on application to Mr. Brooks in West St. John and the signing of the necessary papers. The work is being conducted under the supervision of the military authorities.

MRS. ALBERT COYLE
Many will learn with regret of the death of Mrs. Albert Coyle which occurred very suddenly this morning at her residence, 248 Brunel street. She was twenty-three years old. Besides her husband and one small child, she leaves her mother, Mrs. Devlin, residing at the corner of King and Brunel streets.

JACK HARGRAVES
Jack Hargraves, an employee of the St. John Iron Works, died this morning in the epidemic hospital from Spanish influenza which developed pneumonia. He was thirty-two years old and boarded at the residence of Mrs. Alex. Mason, Britain street. He was a native of England and has no relatives in this country. The funeral took place this morning. Interment was made in Cedar Hill.

GRAND MANAN PEOPLE EXCITED
The death of Harry Bleumorthier, a soldier called to the colors in this city, has created a lot of comment on the island of Grand Manan, from which the boy was hailed a couple of weeks ago, and to which he returned in his coffin within ten days. Young Bleumorthier was a draftsman and upon reaching St. John contracted the Spanish influenza, succumbing to it. His funeral was the first one held on the island for a long time. Spanish influenza is practically unknown down there. While the case was doubtless a singular one and especially sad under the circumstances some hasty-minded people offered criticisms that might well have been left unsaid and which were not complimentary to St. John.

INVITE OUR ALLIES IN.
Here and there throughout the city citizens see Italian flags flying from humble dwellings, shoeshine shops, etc., also an occasional Greek and Belgian emblem, and other Allied bunting. Investigation will doubtless prove that St. John includes in its citizenship numerous natives of the countries allied with Britain in the big new drawing to a close. It was suggested to The Times this morning that these allies be asked to form their own sections in the big victory parade planned for the announcement of peace. There can be Italian, Syrian, French and possibly Oriental groups, all of whom can muster quite a detachment in St. John. Canada, the foreign element always furnish some of the distinctive features of a patriotic or trades parade.

NEARLY \$3,000,000 UP TO LAST NIGHT

Victory Loan Committee Meeting With Good Results - Automobiles Needed - Tonight's Meeting

The central committee of the local Victory Loan campaign had little to report today, with the exception that their canvassers were all out working hard to reach and if possible surpass their allotment. The total subscribed up to last night was \$2,950,000, but the total returns from the province had not been received up to an o'clock this afternoon. No special subscriptions were forthcoming this morning.

The committee desire to call the attention of people signing checks on the Dominion Savings Bank that they should mark plainly the number of their account, otherwise the check will not be accepted.

That automobile owners would render a patriotic service by donating the use of their cars for a day or even a half a day, was a statement of the members of the committee. They contend that they are having a hard time trying to get around in the country districts and would greatly appreciate the loan of some cars.

The fight between Lansdowne and Lorne wards is one of the features of the campaign. Lansdowne ward is still in the lead with a total of \$185,000, while the total subscribed in Lorne ward is \$152,550. J. C. Chesley is chairman in the former ward and is working day and night in an effort to keep ahead of his rivals. One of the subscribers in Lansdowne ward had \$854 in the bank and after being solicited by Mr. Chesley's committee took out a bond for \$850.

Victory Loan Meeting.
The chief speaker at the outdoor meeting on King square tonight will be Stanley E. Eldin, M. P., chairman of the St. John committee, who will outline the work already accomplished and what remains to be done. The Depot Battalion Band will provide a rich musical programme. DeWitt Cairns, accompanied by Miss Mabel Cole, will render a vocal solo, and some splendid pictures will be thrown on the screen in front of the Imperial Theatre.

Every opportunity will be given for the purchase of Victory Bonds.

Church Invests Funds.
Another boost has been given to the Victory Loan figures for St. John by the decision of the directors of the First Church of Christ, Scientist, to invest their building fund in Victory Bonds. The local church has been accumulating a fund with the intention of erecting a church edifice of their own in due time and the fund has reached substantial proportions. At a meeting of the directors the situation was discussed and it was decided to invest the entire amount in the Victory Loan. This decision was arrived at not only from patriotic reasons but also because of the attractiveness of the investment. Application has been made for the required number of bonds, which will be paid for in cash on delivery.

ST. JOHN AND THE FILM BUSINESS

How the Removal From the City Would Affect Local Interests

At a recent meeting of the Maritime Managers' Association held in this city communications were read from Truro, Moncton and Sussex in regard to the proposed removal of the film business from this city to some other maritime provincial location. The communications were read and received acknowledgement. In the case of Sussex it is understood the exchanges were offered exemption from taxation; Moncton and Truro would apply the same facilities, which are satisfactory. It is stated that the film men are considering the offers of the larger places.

Film exchanges now making St. John their maritime provincial headquarters number about fifteen well-equipped offices and employ directly and indirectly over 150 people. Many of the employees are men from outside cities who live in the hotels, boarding houses or have rented apartments for their families. They are nearly all taxpayers. The money is disbursed in all avenues of business, is large.

Film headquarters for New Brunswick, Nova Scotia and Prince Edward Island as well as Newfoundland brings a continuous stream of people to this city for booking purposes, conventions, conferences and such gatherings. It also brings traveling officials, such as general managers, auditors, chief salesmen and others in this direction.

The movement being made to remove from St. John is due to the new system being employed by the city to impose taxation, a percentage on the gross receipts. This plan, it is claimed, will eliminate profits already reduced to a minimum by the drastic effects of war upon raw materials, etc.

Much apprehension is being shown by the theatres in this city over the prospective move of the exchanges, as removal would mean a much greater outlay for them, transportation risks in connection with scheduled programmes and a general upset.

MOVIE STARS AND THE FLU.
In addition to the death of Harold Lockwood of Metro, and J. Warren Keegan of Paralta pictures, the screen-follower public will be sorry to learn that Viola Dana's husband and director, John J. Collins has died of the influenza. Miss Dana is still critically ill herself and does not yet know of her spouse's demise. Lottie Pickford, Mary's sister, is slowly recovering after a narrow escape from the malady's worst form; Owen Moore, Mary Pickford's husband, is also convalescent. Recent theatrical journals to hand give long lists of ill performers in the dramatic, operatic, vaudeville and picture professions, many of whom are already familiar to St. John audiences. The vaudeville people have been particularly hard hit.
