METCHOSIN FAIR
PRIZE WINNERS LIST
Judges Had a Difficult Task
Judging Between the Large
Number of Entries

The prize winners at the fair held in
Metchosin hall by the Metchosin and
Colwood Woman's Institute, on Tues-
day and Wednesday were:

Applies.
Duchess of Oldenberg—1, A. Godtel;
2, A. G. Peatt.
Gravenstein—1, Mrs. J. F. Gosse; 2,
G. F. Weir.
Alexander—1, G. Heatherbell; 2, J. D.
Reid.
Wealthy—1, H. C. Helgesen; 2, C. L.
Litoria.
Yellow Bellefuer—1, G. Heatherbell;
2, J. H. Smart.
Lemon Pippin—1, J. H. Smart; 2, G.
Heatherbell.
Rhinestein Pippin—1, Mrs. Eastwood;
2, G. F. Weir.
Rhode Island Greening—1, A. G.
Peatt; 2, D. Henry.
Baldwin—1, G. F. Weir; 2, A. J. M.
Inverarity.

Spitzenburg—1, J. M. Inverarity; 2, G.
Heatherbell.
Golden Russett—1, W. O. Sweatman.
Ben Davis—2, Mrs. H. Neld.
Canada Red—1, J. H. Smart.
Salome—1, Mrs. H. Neld.
Folowater—1, W. O. Sweatman.
Any other variety (named)—1, G.
Heatherbell; 2, T. Parker.
Winsay—1, Mrs. H. Neld.
Winter Banana—1, G. Heatherbell.
Best packed apples in box for ship-
ping—1, J. H. Smart; 2, G. Heatherbell.
Two largest apples—1, G. Heatherbell.
Best collection of apples—H. Helge-
sen.

Crab Apples.
Siberian—1, J. D. Reid.
Hyslop—1, A. J. M. Inverarity.
Any other variety—1, James Wallace.
Pears.
Five largest—1, J. H. Smart; 2, J. D.
Reid.
Clairgan—1, G. Heatherbell; 2, A. T.
Watt.
Vicar of Wakefield—2, J. D. Reid.
Bartlett—1, A. J. M. Inverarity; 2, A.
T. Watt.
Louise Bonne de Jersey—1, J. D. Reid;
2, A. J. M. Inverarity.
Peaches—Crawford, 1, A. T. Watt; 2,
Miss J. Atkins.
Nectarines—1, A. T. Watt.
Midians—1, A. T. Watt.

Plums and Prunes.
French prunes—1, Miss M. Howard.
Italian prunes—1, J. D. Reid; 2, H.
C. Helgesen.
Columbia plum—2, W. O. Sweatman.
Burbank—1, G. Heatherbell.
Fond Seeding—1, J. D. Reid.
Monarch—1, G. Heatherbell.
Bradshaw—2, Mrs. A. G. Clark.
Yellow Egg—1, J. D. Reid; 2, G. F.
Weir; highly commended, W. O. Sweat-
man.
Damsons—1, G. F. Weir; 2, J. H.
Smart.
Crate Golden Drop plums—2, A. J. M.
Inverarity.
Crate of prunes—G. Heatherbell.
Quince—2, A. J. M. Inverarity.
Blackberries—1, G. Heatherbell; 2, A.
T. Watt.
Logan berries—1, Mrs. Watt.

Bread, Cakes, Etc.
Fruit cake—1, Mrs. J. D. Reid; 2, Mrs.
C. Hall.
Sponge cake—1, Mrs. Reid; 2, Mrs.
Cornwall.
Scotch bread—1, Mrs. Reid.
Cookies—1, Miss Bernice Peachy; 2,
Mrs. Cornwall.
Tea biscuits—1, Mrs. W. O. Sweat-
man; 2, Mrs. A. G. Clark.
Nut cake—1, Mrs. A. G. Clark.
Jelly roll—1, Mrs. C. A. Thomson; 2,
Mrs. Helgesen.
Bread—1, Mrs. Fleish; 2, Mrs. Sweat-
man.
Bread (special)—Mrs. Sweatman.
Bread (unmarried lady)—Bernice
Peachy.
Bread (made by girl under 16)—1,
Miss M. Fleish.
Bread (made by girl under 12)—1,
Esther Neld; 2, Charlotte Peachy.
Bread (made by bachelor)—1, Walter
Tannison; 2, C. E. Whitney Griffith.
Fruit cake (made by girl under 12)—
1, Esther Neld.
Pastry—1, Mrs. W. O. Sweatman.
Pastry (made by girl under 12)—2,
Esther Neld.
Best side bacon, smoked—1, J. D.
Reid.
Pickles (vinegar)—1, Mrs. W. Peachy;
2, Mrs. Howard.
Vinegar, home-made—1, Mrs. A. G.
Clark and Mrs. H. Neld, equal.
Plum jam—1, Mrs. Cornwall; 2, Mrs.
Sweatman; highly commended, Mrs. J.
H. Smart.
Strawberry jam—1, Mrs. Cornwall; 2,
Mrs. J. H. Smart.
Gooseberries—2, Mrs. Watt.
Raspberries—1, Mrs. Neld; 2, Mrs.
Watt.
Collection of jams—1, Mrs. Watt.
Collection of jellies (special)—Mrs. N.
Howard.
Collection of bottled foods (special)—
Mrs. Watt.
Bottled fruits—Plums, red—1, Mrs.
Watt.
Collection of bottled fruits—1, Mrs.
Watt.
Plums, fellow—1, Mrs. Inverarity; 2,
C. E. Griffith.
Cherries—1, C. E. Griffiths.
Bottled vegetables (special)—Mrs. W.
Peachy.
Blackberry jam—1, Mrs. Howard; 2,
Mrs. J. H. Smart.
Bottled gooseberries—1, Mrs. J. H.
Smart.
Peach plums—1, Mrs. Inverarity; 2,
Mrs. J. H. Smart.
Honey in the comb—1, A. J. M. In-
verarity.
Marmalade—Mrs. Neld.
Butter (5 lbs. in rolls)—1, Miss A.
Heatherbell; 2, Mrs. Sweatman.
Heart's eggs (white)—1, Miss Heather-
bell; 2, Mrs. Neld.
Hen's eggs (brown)—1, Mrs. Sweat-
man.
Potatoes (up-to-date)—1, James Wal-
lace; 2, A. G. Peatt.
Early Rose—1, Miss Fredericksen; 2,
C. L. Litoria.
Largest and heaviest—1, Henry
Eagle; 2, James Wallace.
Carrots—1, Mrs. W. Witty; 2, Mrs.
Neld.

POULTRY MEN
ORGANIZE
PROVINCIAL BREEDERS
FORM ASSOCIATION

Laudable Aims of the New Body
Outlined by the Execu-
tive

There has recently been organized
an association for the benefit of the
poultrymen of British Columbia. This
British Columbia Poultry Association
has been organized for the purpose of
fostering poultry-raising throughout
every part of British Columbia, and
placing the industry on a more sub-
stantial working basis. Probably there
has seldom been so much interest
shown in poultry as within recent
months. However, there is great room
for improvement and the association is
endeavoring to secure a larger mem-
bership in order that it may be more
effective and accomplish more than it
otherwise might.

Never before in the history of the
production of eggs, flesh and feathers
has there been so much interest as
within the past few months. Local
poultry associations and poultrymen
generally seem to be taking to the fact
that there is a future before us. Un-
dreamed of possibilities of the past are
being realized at the present and even
the most sanguine must be convinced
that still better results may be obtained
under improved methods.

The most successful poultrymen in all
parts of the province have proved that
under proper conditions and with care-
ful and efficient management, poultry
raising is a paying proposition, a more
profitable industry than many others,
some of which have been "boomed" for
years. Poultry associations and indi-
vidual poultrymen have not been given
the encouragement they deserve. Those
engaged in the business of poultry-
keeping have gone through dear expe-
riences and have overcome many ob-
stacles; they have had to work out
their own salvation while the govern-
ment stood aloof and the public were
suspicious of possible profits.

But now they enter upon a new
era with a broad and promising field.
The British Columbia Poultry Asso-
ciation was organized to take into con-
sideration the interests of every
poultryman in the province; it was
organized to strengthen the work-
ing power of the local associations; it
was organized for the purpose of bring-
ing the government into closer touch
with the poultrymen in order that the
government might be better able to
understand and appreciate their needs.
The work which will be taken up by
the provincial association is of a
very broad character, and will cover
every phase pertaining to the poultry
industry. Its primary object is natu-
rally that of education, and in gen-
eral to adopt improved methods in
poultry breeding in order that the re-
turns for the money and labor expend-
ed in poultry keeping may be greater
than under present conditions. It re-
turns of the poultry keeper should be
greater, and one object of the provin-
cial Poultry Association will be to aid
all poultrymen in every possible way.
It will seek to disseminate knowl-
edge out the province a thorough knowl-
edge of proper methods of rearing domestic
fowl. Its chief aim will be to secure
a more widespread interest in
thoroughbred fowl. It is poultry in-
terested that within a year or two it will
hold a provincial poultry show, which
should prove to be one of the largest
and best in Canada.

The following questions will give
some idea of the nature of the work
undertaken by this new association:
1. About 90 per cent. of all poultry
products come from the farm. How
can this association interest the farm-
ers who are now keeping scrub stock
in standard-bred poultry?
2. How can we educate the farmer to
produce and care for more and bet-
ter poultry?
3. Do we need a standard for market
poultry and eggs as well as a standard
for exhibition stock?
4. What is the adoption of a utility
standard as applied to the produc-
tion, judging and selling poultry meat
and eggs?
5. What can this association do to
encourage co-operation in the mak-
ing of poultry products? What are
some of the best methods to adopt?
6. Suggestions concerning the selling
of cold storage eggs and poultry meat
as fresh products. Imported eggs are
also sold as fresh eggs.
7. Cheaper and better grades of feed?
8. Suggestion re the arrangement of
our annual poultry shows into a circuit
which will allow of the securing of the
most competent judges for all shows
minimum expense.
9. Revision of prize lists. Why not
adopt a "siding scale," i.e., the prize
money to be in proportion to the en-
tries? Number of entries also control-
led by number of exhibitors. Are cash
prizes the means of stimulating healthy
competition? Are not ribbons and cups
of greater value in encouraging healthy
competition, and will they not tend to
more readily establish our annual pol-
try shows as educational and advertis-
ing features rather than as at present
where birds compete for petty cash
prizes?

Everyone interested in poultry should
become a member of the Provincial
Poultry Association. Membership may
be secured by the payment of an an-
nual fee of \$1, addressed to the secre-
tary, M. A. Jull, Victoria, B. C.
There are three important reasons
for becoming a member. 1. Those who
join will help in building up the busi-
ness of the province, making better the
business of producing pure-bred pol-
try, and increasing the demand for
these products. 2. The association
doubtless will lead to the movement to
place poultry production on a more
economical and better basis, and thus
produce better conditions. 3. The pub-
lications of the association alone will
much more than repay the cost, as from
the underground railroad in the world.

NEW BRIDGE OVER FRASER.

Vancouver, Sept. 24.—A new three
span steel bridge now being built across
the Fraser river at Cleco for the Cana-
dian Pacific railway, will be complet-
ed within three weeks and opened for
traffic. It parallels, and will replace,
a cantilever bridge which has been in
commission since the completion of the
line. The new bridge was inspected a
few days ago by F. F. Busted, general
superintendent of the Pacific division.
Mr. Busted inspected the various im-
provements which have been in pro-
gress all summer in the Kootenaya, as
well as along the main line, between
Field and the coast. He found that
the work was satisfactory, progress is being
made. Various sections are being re-
laid with heavier rails to accommodate
the ever-increasing traffic. The yards
at Field and Kamloops are being great-
ly enlarged and improved. New snow-
sheds are being built in Roger's Pass
as well as near Illecillewaet. The re-
pairs to the old snowsheds have been
completed.

Boston's shopping district subway,
which will be the first of the kind in the
world of underground railroad in the world.

engaged in the business of poultry-
keeping have gone through dear expe-
riences and have overcome many ob-
stacles; they have had to work out
their own salvation while the govern-
ment stood aloof and the public were
suspicious of possible profits.

But now they enter upon a new
era with a broad and promising field.
The British Columbia Poultry Asso-
ciation was organized to take into con-
sideration the interests of every
poultryman in the province; it was
organized to strengthen the work-
ing power of the local associations; it
was organized for the purpose of bring-
ing the government into closer touch
with the poultrymen in order that the
government might be better able to
understand and appreciate their needs.
The work which will be taken up by
the provincial association is of a
very broad character, and will cover
every phase pertaining to the poultry
industry. Its primary object is natu-
rally that of education, and in gen-
eral to adopt improved methods in
poultry breeding in order that the re-
turns for the money and labor expend-
ed in poultry keeping may be greater
than under present conditions. It re-
turns of the poultry keeper should be
greater, and one object of the provin-
cial Poultry Association will be to aid
all poultrymen in every possible way.
It will seek to disseminate knowl-
edge out the province a thorough knowl-
edge of proper methods of rearing domestic
fowl. Its chief aim will be to secure
a more widespread interest in
thoroughbred fowl. It is poultry in-
terested that within a year or two it will
hold a provincial poultry show, which
should prove to be one of the largest
and best in Canada.

The following questions will give
some idea of the nature of the work
undertaken by this new association:
1. About 90 per cent. of all poultry
products come from the farm. How
can this association interest the farm-
ers who are now keeping scrub stock
in standard-bred poultry?
2. How can we educate the farmer to
produce and care for more and bet-
ter poultry?
3. Do we need a standard for market
poultry and eggs as well as a standard
for exhibition stock?
4. What is the adoption of a utility
standard as applied to the produc-
tion, judging and selling poultry meat
and eggs?
5. What can this association do to
encourage co-operation in the mak-
ing of poultry products? What are
some of the best methods to adopt?
6. Suggestions concerning the selling
of cold storage eggs and poultry meat
as fresh products. Imported eggs are
also sold as fresh eggs.
7. Cheaper and better grades of feed?
8. Suggestion re the arrangement of
our annual poultry shows into a circuit
which will allow of the securing of the
most competent judges for all shows
minimum expense.
9. Revision of prize lists. Why not
adopt a "siding scale," i.e., the prize
money to be in proportion to the en-
tries? Number of entries also control-
led by number of exhibitors. Are cash
prizes the means of stimulating healthy
competition? Are not ribbons and cups
of greater value in encouraging healthy
competition, and will they not tend to
more readily establish our annual pol-
try shows as educational and advertis-
ing features rather than as at present
where birds compete for petty cash
prizes?

Everyone interested in poultry should
become a member of the Provincial
Poultry Association. Membership may
be secured by the payment of an an-
nual fee of \$1, addressed to the secre-
tary, M. A. Jull, Victoria, B. C.
There are three important reasons
for becoming a member. 1. Those who
join will help in building up the busi-
ness of the province, making better the
business of producing pure-bred pol-
try, and increasing the demand for
these products. 2. The association
doubtless will lead to the movement to
place poultry production on a more
economical and better basis, and thus
produce better conditions. 3. The pub-
lications of the association alone will
much more than repay the cost, as from
the underground railroad in the world.

NEW BRIDGE OVER FRASER.

Vancouver, Sept. 24.—A new three
span steel bridge now being built across
the Fraser river at Cleco for the Cana-
dian Pacific railway, will be complet-
ed within three weeks and opened for
traffic. It parallels, and will replace,
a cantilever bridge which has been in
commission since the completion of the
line. The new bridge was inspected a
few days ago by F. F. Busted, general
superintendent of the Pacific division.
Mr. Busted inspected the various im-
provements which have been in pro-
gress all summer in the Kootenaya, as
well as along the main line, between
Field and the coast. He found that
the work was satisfactory, progress is being
made. Various sections are being re-
laid with heavier rails to accommodate
the ever-increasing traffic. The yards
at Field and Kamloops are being great-
ly enlarged and improved. New snow-
sheds are being built in Roger's Pass
as well as near Illecillewaet. The re-
pairs to the old snowsheds have been
completed.

Boston's shopping district subway,
which will be the first of the kind in the
world of underground railroad in the world.
