TIP O'NEIL A REGULAR. The ONEID a REGULAR.

The Boston Herald, speaking of Dougherty being sent to New York and O'Neil being put on the regular Boston team as left fielder, says:

Both sides have now been heard in the Dougherty matter. Collins is quoted as saying O'Neil is a far better fielder them. fielder than Dougherty, and thinks he will be as good a hitter. That is the situation in a nut shell. All depends upon the "will be." If O'Neil turns out to be equal to the demands as a batsman, well and good. He is a very fast man, batted well in the western league last season, ranking among the best batsmen in that organization. He batted for .333 last season, ranking third of the hitters who partici in twenty-four games or more. In 102 games he made 107 runs, showing him

to be an excellent run-getter, and he stole forty-eight bases, being excelled in this respect by but two men." TAILORS' UNION.

A meeting of the tailors' union was held last night. Hugh Robinson, gen-eral organizer of the Journeymen Tailors' Union of America, paid a re-turn visit to St. John on his way west. He reported organizing unions at Halifax, Moncton and Amherst and also arranged a carpenters' union at Amherst. He has found the trades union feeling very strong in the mari-

The tailors' strike still continues, and the men are determined to stick out. They are receiving financial help from headquarters. Resolutions of sympathy were reported from the Halifax, Moncton and Amherst unions, and they have pledged themselves to help the St. John men as far as they can. It is probable that the St. John tailors will be represented at the trade conber. It is proposed to hold a tailors picnic next month.

A POLITICAL COMPLICATION.

(Atlanta Journal). Dr. Cyrus Teed, head of the Koreshan Unity, which believes that the earth is a hollow shell, of which the human race inhabits the interior, and John Temple Graves, the Georgia editor, who has been trying to swing Florida into line for Hearst, arrived in Tampa on the same night recently, each with the intention of addressing Graves was delayed, and a crowd waited impatiently at the court house for his appearance. Dr. Teed took advantage of the opportunity, and, mounting the platform, proceeded without introducing himself to expound his theories about the convexity of the earth's surface. An old-time Demo-crat from the country, who had some into town to hear Graves, listened to the Koreshan's arguments for some time, then arose and addressed the speaker from the middle of the

"See here, Mr. Graves, I've stood for Cleveland Demograts and their radical-like tomfortery, and I've voted 'er straight like a man: I've stood for Bryan Femmycrats, with their 10 to 1 never-can-win monkey business, going to try to make the people of this country believe that we see walking on the inside of this earth, with our heads plinted to hell and our tees plinted. ed to the angels, right here's where I quit the old ship, by gum!"
