

MR. PUGSLEY SEES THINGS ONCE MORE

The Prophet Casts Another Vision—This Time 'Tis Maritime Provinces Opposing the Naval Aid Bill.

(Montreal Star) "I am sure that the fight at Ottawa during the coming session will be a strenuous one," Hon. Wm. Pugsley, who is registered at the Windsor Hotel, stated to a Star representative this morning.

"What course the Liberal party will take in its opposition to the Naval Bill I cannot say," he added, "but the Liberal party has not yet been even discussed by the party, and nothing has been decided."

Questioned as to the attitude in the Maritime Provinces towards the Bill, Mr. Pugsley said: "I think there is very strong opposition to it. The attitude towards the scheme is that in giving three Dreadnoughts as proposed (Canada is not assuming her full duty, and the question of a permanent navy should now be determined)."

"A permanent navy in addition to the contribution," the interviewer asked.

"No," was the reply, "but that any vessels which are immediately procured should form part of the Canadian navy. Many thousands of our people in New Brunswick are engaged in fishing, and it is felt that any difficulty in finding crews could be overcome."

"The constituency of St. John, which I represent, was formerly a great ship-building port, and it is not unnatural that the people there should feel that a city which once built the best wooden ships in the world might also with proper encouragement, turn out steel vessels, whether for commercial or naval purposes."

"It is quite possible to build super-dreadnoughts in Canada," in my opinion, it seems to suggest no reason why the vessels should not be built in Canada at an average cost no greater, or very little greater, than will have to be paid in England. Of course, the initial outlay for the yards and plant would be considerable, but this would not exceed \$4,000,000, and such an investment spread over a period of years would not materially add to the cost of the ships."

The final result of the match was 10 to 5 in favor of Quebec.

The first period opened with attack on Toronto's goal but without success. The play was around them for considerable time, but Quebec was in hard luck for many well directed shots failed to find the nets.

Mummary scored for Quebec in 10 to 15 minutes. McMillin scored the first goal for Toronto in three minutes. Quebec had warmed up to its work when the second period opened, and they outplayed Toronto at all points.

Quebec scored 6 in this period to Toronto's 1.

The third period was more evenly divided than the second, Quebec taking four goals to Toronto's three.

CRESCENTS GET PLAYER SCOTT

Special to The Standard. Halifax, Jan. 8.—There has been quite a battle in the Maritime Provinces Hockey Association of late over the ownership of Player Scott, of Fort William, who was claimed by both the Crescents of Halifax and the Sydney, N. S. club.

The Crescents brought Scott to Halifax, the latter having accepted this city's offer by telegraph, but Sydney signed him on the plea that Scott had been verbally released.

At Truro tonight the M. P. H. A. held a special meeting to decide the matter, and the result was that Scott becomes the property of the Crescents with the understanding that Sydney can play him for one game against the Socials in Sydney tomorrow night.

After that he is at the disposal of the Crescents. Scott has caused more newspaper controversy than any other hockey player who ever came east, and the sporting public are glad to see the matter settled at last.

We find it very difficult to introduce real champagne—the blue coat with a strap at the back, for instance, in nap cloth, which is now so popular. At first we found it extremely hard to persuade customers that it was a genuine champagne. Now it is quite a favorite. But generally we avoid pressing anything out on our clients. We should be afraid of them if they were to buy champagne. For instance, are not asked for at all just now.

MAN WHO BELLETTED KING GEORGE MAY YET ENTER STATES

Editor of Parisian Paper on Way to New York to Present New Version of Famous Myliers Case.

Washington, Jan. 8.—The appeal for admission to the United States of Edward E. Mylius threatened with deportation altogether that because he was convicted in London of criminal libelling King George, will not be decided by Secretary Nagel, of the Department of Commerce and Labor, until he has heard Edward Holton James, editor of "Liberator," of Paris, in which the alleged libellous story was published.

Mr. James is on the steamer La Province, due in New York January 11th. He asked Commissioner of Immigration William Newby, by cable from Paris, to delay the final disposition of the case until he could present his version of the published account.

The King of England years ago contracted a morganatic marriage. Mr. Nagel granted the request with the statement that he was not disposed to close the case as long as any one interested desired to be heard.

The immigration special board of inquiry at Ellis Island held that libelling a king was a crime involving moral turpitude and for that reason under the immigration laws, Mylius would be denied admission to this country.

CHROMATIC SUITS FOR MEN.

London may soon see a practical demonstration on a large scale of the possibilities that lie in using bright colors for men's clothes. As to what form the demonstration will take it is impossible at present to say anything, as the idea is being guarded jealously until the time is ripe to present it to a startle.

An article in The London Standard on the question of brighter colors for men's garb caused a great deal of interest amongst the West-end propagandists of color amongst their customers. There is no doubt that the adoption of brightness would be all to the good to the tailoring trade.

But while this is the opinion of those who are in favor of color, there are others who say that no campaign in favor of color will ever succeed, and that man's natural timidity and the general distaste for appearing conspicuous are too deeply rooted to be ever removed—at least in our time.

"Theoretically I am very much in favor of the idea," said Mr. Arlinton, of Piccadilly, "but it is quite a different matter to fit it into practice. The only customer we ever get here who wants anything in the way of bright colors is the man who may be preserved from him! But the usual serious customer will have nothing that is off the beaten track. Anything makes him shudder. We have found, indeed, that while colors last year were much more cheerful, this year they have dropped back to the old-fashioned, colorless waistcoats, for instance, are not asked for at all just now.
